POSTAL SERVICE

Privacy Act of 1974; System of Records

AGENCY: Postal Service™.

ACTION: Notice of a modified system of records.

SUMMARY: The United States Postal Service® (Postal Service) is proposing to revise a Customer Privacy Act Systems of Records (SOR). These changes are being made to support the Targeted Offers Powered by Informed Address service.

DATES: These revisions will become effective without further notice on March 11, 2019, unless, in response to comments received on or before that date, the Postal Service makes any substantive change to the purpose or routine uses set forth, or to expand the availability of information in this

system, as described in this notice. If the Postal Service determines that certain portions of this SOR should not be implemented, or that implementation of certain portions should be postponed in light of comments received, the Postal Service may choose to implement the remaining portions of the SOR on the stated effective date, and will provide notice of that action.

ADDRESSES: Comments may be mailed or delivered to the Privacy and Records Management Office, United States Postal Service, 475 L'Enfant Plaza SW, Room 1P830, Washington, DC 20260–1101. Copies of all written comments will be available at this address for public inspection and photocopying between 8 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Janine Castorina, Chief Privacy and Records Management Officer, Privacy and Records Management Office, 202–268–3069 or privacy@usps.gov.

SUPPLEMENTARY INFORMATION: This notice is in accordance with the Privacy Act requirement that agencies publish their systems of records in the **Federal Register** when there is a revision, change, or addition, or when the agency establishes a new system of records. The Postal Service has determined that Customer Privacy Act Systems of Records, USPS 820.300 Informed Delivery, should be revised to support the Targeted Offers application.

Targeted Offers Powered by Informed Address (“Targeted Offers”) is an application that will enable consumers to securely share their preferences related to marketing content with mailers, and mailers to target and prospect consumers based on this data. Targeted Offers will be incorporated into the Informed Delivery platform, allowing the Postal Service to capitalize on Informed Delivery’s success and existing user base. Launched nationwide in FY 2018, Informed Delivery enables consumers to view a gray-scale image of upcoming mail within a daily email, app, or online dashboard. Below these images, mailers have the option to post an additional call to action that links to a digital version of the mailpiece, connecting physical to digital interactions and providing a double-impression for consumers. As a new feature of Informed Delivery, Targeted Offers will encourage new user adoption and provide additional benefits for current users.

Targeted Offers combines two applications that will assist mailers in better reaching their target customers: Digital Offers and IA-Enabled Mail. Digital Offers allows consumers to

express mail content preferences via a survey in their Informed Delivery Daily Digest email in order to receive targeted digital offers. In turn, Postal Service will offer Informed Delivery mailers additional digital impressions based on consumer-expressed mail preferences. IA-Enabled Mail allows consumers to opt-into receiving targeted physical mail when expressing mail content preferences. Mailers will then be able to reach these consumers with targeted direct mail campaigns using Informed Address technology.

Informed Address technology replaces a traditional delivery point address with a temporary, alphanumeric IA code that only Postal Service can decode. To enable successful delivery of an IA-enabled mailpiece, the IA code is linked to a consumer's profile and delivery point in an internal Postal Service database. The Postal Service is then able to provide mailers with temporary IA codes for consumers, allowing mailers to send the consumer mail without knowing the consumer's physical address and the Postal Service to protect the consumer's identity. Once the mailpiece enters the mail stream, the IA code is processed on mail processing equipment and delivered accordingly.

Pursuant to 5 U.S.C. 552a (e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the proposed revisions has been sent to Congress and to the Office of Management and Budget for their evaluations. The Postal Service does not expect this amended systems of records to have any adverse effect on individual privacy rights. SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Extension:

Rule 17Ad-2(c), (d), and (h), SEC File No. 270-149, OMB Control No. 3235-0130.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the previously approved collection of information provided for in Rule 17Ad-2(c), (d), and (h), (17 CFR 240.17Ad-2(c), (d), and (h)), under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

Rule 17Ad-2(c), (d) and (h) enumerates the requirements with which transfer agents must comply to inform the Commission or the appropriate regulator of a transfer agent's failure to meet the minimum performance standards set by the Commission rule by filing a notice.

The Commission receives approximately 3 notices a year pursuant to Rule 17Ad-2(c), (d), and (h). The estimated annual time burden of these filings on respondents is minimal in view of: (a) The readily available nature of most of the information required to be included in the notice (since that information must be compiled and retained pursuant to other Commission rules); and (b) the summary fashion in which such information must be presented in the notice (most notices are one page or less in length). In light of the above, and based on the experience of the staff regarding the notices, the Commission staff estimates that, on average, most notices require approximately one-half hour to prepare. Thus, the Commission staff estimates
