

technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

**Abstract:** This ICR covers the collection of information from those organizations that receive cooperative agreements from EPA under the authority of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by the Brownfields Utilization, Investment, and Local Development (BUILD) Act (Pub. L. 115–141). CERCLA, as amended, authorizes EPA to award grants or cooperative agreements to states, tribes, local governments, and other eligible entities to support the assessment and cleanup of brownfields sites. Under the Brownfields Amendments, a brownfields site means real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. For funding purposes, EPA uses the term “brownfields property(ies)” synonymously with the term “brownfields sites.” The Brownfields Amendments authorize EPA to award several types of cooperative agreements to eligible entities on a competitive basis.

Under subtitle A of the Small Business Liability Relief and Brownfields Revitalization Act, states, tribes, local governments, and other eligible entities can receive assessment cooperative agreements to inventory, characterize, assess, and conduct planning and community involvement related to brownfields properties; cleanup cooperative agreements to carry out cleanup activities at brownfields properties; multipurpose cooperative agreements to conduct activities allowed under both assessment and cleanup cooperative agreements; cooperative agreements to capitalize revolving loan funds and provide subgrants for cleanup activities; area-wide planning cooperative agreements to develop revitalization plans for brownfields; and environmental workforce and development job training and placement programs. Under subtitle C of the Small Business Liability Relief and Brownfields Revitalization Act, states and tribes can receive cooperative

agreements to establish and enhance their response programs through the four elements and meet the public record requirements under the statute. Cooperative agreement recipients (“recipients”) have general reporting and record keeping requirements as a condition of their cooperative agreement that result in burden. A portion of this reporting and record keeping burden is authorized under 2 CFR part 1500 and identified in the EPA’s general grants ICR (OMB Control Number 2030–0020). EPA requires Brownfields program recipients to maintain and report additional information to EPA on the uses and accomplishments associated with funded brownfields activities. EPA uses several forms to assist recipients in reporting the information and to ensure consistency of the information collected. EPA uses this information to meet Federal stewardship responsibilities to manage and track how program funds are being spent, to evaluate the performance of the Brownfields Cleanup and Land Revitalization Program, to meet the Agency’s reporting requirements under the Government Performance Results Act, and to report to Congress and other program stakeholders on the status and accomplishments of the program.

**Form numbers:** EPA ICR No. 2104.06, OMB Control No. 2050–0192.

**Respondents/affected entities:** State/local/tribal governments; Non-Profits.

**Respondent’s obligation to respond:** Required to obtain or Retain Benefits (2 CFR part 1500).

**Estimated number of respondents:** 5,517 (total).

**Frequency of response:** Bi-annual for subtitle C recipients; quarterly for subtitle A recipients.

**Total estimated burden:** 6,144 hours (per year). Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$712,108 (per year), includes \$0 annualized capital or operation & maintenance costs.

**Changes in estimates:** There is an increase of 2,267 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is partially the result of adding the new Program Activity Levels Form for 128(a) recipients to fill out annually. The remainder of the burden increase is the result of an overall increase in wages and the large increase in the number of responses submitted to ACRES annually as a result of more grants being awarded. Even with this increase, respondents indicated that improvements in the ACRES reporting system and increased familiarity with

the program lead to a lower burden per individual entry.
