BILLING CODE 4312–52–P
Northern Illinois University at Carbondale (SIU), gathered archeological and anthropological data on Black Mesa. In 1974, Prescott College declared bankruptcy and closed. In 1976, after being housed at Fort Lewis College in Durango, CO, for one year, the BMAP collections and records were transferred to SIU. In or about 1979, SIU entered into a long-term loan agreement with Debra Martin for the human remains from BMAP. Dr. Martin transported the human remains to the University of Massachusetts, Amherst, and in or about 1986, Dr. Martin moved the human remains to Hampshire College. In or about 2006, Dr. Martin, with approval from SIU, relocated the human remains to the University of Nevada, Las Vegas. BIA was never consulted nor advised of any of these loans or moves. The associated funerary objects remained at SIU. In March and May 2018, the BIA, in consultation with the Hopi Tribe of Arizona and Navajo Nation, Arizona, New Mexico & Utah, authorized the physical transfer of all BMAP human remains and associated funerary objects to the Museum of Northern Arizona (MNA) in Flagstaff, AZ. The human remains were transferred to MNA in May 2018, and the associated funerary objects were transferred from SIU to MNA in October 2018.

In 1960 and 1971–72, additional excavations were conducted under Antiquities Act permits issued by the BIA on ten sites in Klethla Valley, AZ. One site was excavated in 1960 as part of the construction of a highway. Nine sites were excavated in 1971 and 1972 within the right-of-way corridor for the Black Mesa and Lake Powell Railroad. Human remains and associated funerary objects were removed and have been housed at MNA since their removal.

From 1960 to 1983, human remains representing, at minimum, 341 individuals were removed from numerous sites on Black Mesa and in Klethla Valley in Coconino and Navajo Counties, AZ. No known individuals were identified. The 10,889 associated funerary objects include ceramic vessels, beads, pollen and soil samples, sherds, lithics, plant and wood materials, groundstone, shells, and faunal remains. A complete, detailed inventory is on file with the National NAGPRA Program and available upon written request to the BIA.
