Foreign-Trade Zone (FTZ) 193— Clearwater, Florida; Notification of Proposed Production Activity; Catalent Pharma Solutions, LLC; (Pharmaceutical Products); St. Petersburg, Florida

Catalent Pharma Solutions, LLC (Catalent) submitted a notification of proposed production activity to the FTZ Board for its facility in St. Petersburg, Florida. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on January 30, 2019.

Catalent's facility is located within Subzone 193A. The facility is used to produce certain pharmaceutical products. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Catalent from customs duty payments on the foreign-status components used in export production. On its domestic sales, Catalent would be able to choose the duty rate during customs entry procedures that applies to tafamidis pharmaceutical capsules (duty free) in finished product and bulk form for the foreign-status input noted below. Catalent would be able to avoid duty on foreign-status material which becomes scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The material/component sourced from abroad is tafamidis—active pharmaceutical ingredient (duty rate 6.5%).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is March 20, 2019.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce,

SUPPLEMENTARY INFORMATION:

Background

On November 15, 2018, Commerce published its final determination in the less-than-fair-value (LTFV) investigation of common alloy sheet from China.¹ On January 30, 2019, the ITC notified Commerce of its final determination, pursuant to section 735(b)(1)(A)(i) of the Tariff Act of 1930, as amended (the Act), that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act, by reason of the LTFV imports of common alloy sheet from China.² Further, the ITC determined that critical circumstances do not exist with respect to imports of common alloy sheet from China.

Scope of the Order

Antidumping Duty Order

On January 30, 2019, in accordance with sections 735(b)(1)(A)(i) and 735(d) of the Act, the ITC notified Commerce of its final determination in this investigation, in which it found that imports of common alloy sheet are materially injuring a U.S. industry.³ Therefore, in accordance with section 735(c)(2) of the Act, we are publishing this AD order.

As a result of the ITC's final determination, in accordance with section 736(a)(1) of the Act, Commerce will direct U.S. Customs and Border Protection (CBP) to assess, upon further instruction by Commerce, antidumping duties on unliquidated entries of subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after June 22, 2018, the date on which Commerce published its preliminary antidumping duty determination in the **Federal Register**,⁴ and before November 4, 2018, the
