

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of February 11, 2019

There are no meetings scheduled for the week of February 11, 2019.

Week of February 18, 2019—Tentative

There are no meetings scheduled for the week of February 18, 2019.

Week of February 25, 2019—Tentative

There are no meetings scheduled for the week of February 25, 2019.

Week of March 4, 2019—Tentative

Tuesday, March 5, 2019

10:00 a.m. Briefing on NRC International Activities (Closed—Ex. 1 & 9)

Week of March 11, 2019—Tentative

There are no meetings scheduled for the week of March 11, 2019.

Week of March 18, 2019—Tentative

There are no meetings scheduled for the week of March 18, 2019.

CONTACT PERSON FOR MORE INFORMATION:

For more information or to verify the status of meetings, contact Denise McGovern at 301-415-0681 or via email at Denise.McGovern@nrc.gov. The schedule for Commission meetings is subject to change on short notice.

The NRC Commission Meeting Schedule can be found on the internet at: <http://www.nrc.gov/public-involve/public-meetings/schedule.html>.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings, or need this meeting notice or the transcript or other information from the public meetings in another format (e.g., braille, large print), please notify Kimberly Meyer-Chambers, NRC Disability Program Manager, at 301-287-0739, by videophone at 240-428-3217, or by email at Kimberly.Meyer-Chambers@nrc.gov. Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

Members of the public may request to receive this information electronically. If you would like to be added to the distribution, please contact the Nuclear Regulatory Commission, Office of the Secretary, Washington, DC 20555 (301-415-1969), or by email at Wendy.Moore@nrc.gov or Diane.Garvin@nrc.gov.

Dated at Rockville, Maryland, this 7th day of February, 2019.

For the Nuclear Regulatory Commission.

Denise L. McGovern,

Policy Coordinator, Office of the Secretary.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2018-0190]

Protective Order Templates for Hearings on Conformance With the Acceptance Criteria in Combined Licenses

AGENCY: Nuclear Regulatory Commission.

ACTION: Final protective order templates.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) staff is announcing the availability of final protective order templates to be used in hearings associated with closure of inspections, tests, analyses, and acceptance criteria (ITAAC). The templates have the purpose of facilitating quick development of case-specific protective orders to support the accelerated ITAAC hearing schedule. Participants in ITAAC hearings may, but are not required to, use the templates as the basis for proposed protective orders.

DATES: The final templates are available on February 12, 2019.

ADDRESSES: Please refer to Docket ID NRC-2018-0190 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0190. Address questions about NRC Docket IDs in *Regulations.gov* to Krupskaya Castellon; telephone: 301-287-9221; email: Krupskaya.Castellon@nrc.gov. For other questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document

are provided in the "Availability of Documents" section.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT:

Michael A. Spencer, Office of the General Counsel, U.S. Nuclear Regulatory Commission; telephone: 301-287-9115, email:

Michael.Spencer@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On July 1, 2016 (81 FR 43266), the NRC published final procedures for hearings on conformance with the acceptance criteria in combined licenses (COLs) issued under part 52 of title 10 of the *Code of Federal Regulations* (10 CFR) (ITAAC Hearing Procedures). The acceptance criteria are part of the ITAAC included in the COL. In accordance with 10 CFR 52.103(g), the NRC must find that the acceptance criteria are met before facility operation may begin. Section 189a.(1)(B) of the Atomic Energy Act of 1954, as amended (AEA), provides members of the public an opportunity to request a hearing on the facility's compliance with the acceptance criteria. The ITAAC Hearing Procedures describe the requirements for such hearing requests and the procedures to be used throughout the hearing process. The procedures for a particular ITAAC proceeding will be imposed by case-specific orders, and the ITAAC Hearing Procedures reference templates to be used for such orders.

Some NRC proceedings involve sensitive information. For ITAAC proceedings in particular, the NRC determined that a potential party may deem it necessary to obtain access to Sensitive Unclassified Non-Safeguards Information (SUNSI) or Safeguards Information (SGI) for the purpose of meeting Commission requirements for intervention. Therefore, the ITAAC Hearing Procedures include templates for orders governing requests for access to SUNSI and SGI. If a hearing participant qualifies for access to sensitive information, then a protective order and non-disclosure declaration would be needed to ensure that the information is protected appropriately. The presiding officer for a proceeding would issue the protective order, and recipients of the sensitive information would sign a non-disclosure declaration agreeing to protect the information in accordance with the protective order. Typically, the presiding officer issues a protective order in response to a motion

from the hearing participants proposing a draft protective order and non-disclosure declaration for the presiding officer's consideration.

The NRC received comments on the proposed ITAAC Hearing Procedures suggesting that model templates would facilitate quick development of protective orders. In response, the NRC stated that protective order templates would be developed in a separate process allowing for stakeholder input.

To fulfill this commitment, the NRC staff published a **Federal Register** notice on September 4, 2018 (83 FR 44925) seeking comment on two draft protective order templates, one for SUNSI and one for SGI. The comment period closed on October 19, 2018. The NRC received one comment submission (ADAMS Accession No. ML18298A267), which came from Southern Nuclear Operating Company. The NRC staff responded to comments and described any resulting changes to the templates in a document available at ADAMS Accession Number ML19036A732. In addition to changes made in response to comments, the NRC staff revised the templates as follows:

- Consistent with the signature requirements in 10 CFR 2.304(d), the NRC staff added spaces for the signer's address, phone number, and email address to the non-disclosure declarations and termination of possession declarations in both templates.
- The NRC staff added a requirement for the petitioner to preserve evidence of an infraction in cases where the petitioner has reason to believe that SGI may have become lost or misplaced, or that SGI has otherwise become available to unauthorized persons. This requirement is in addition to the existing notification requirements in the SGI template.
- The NRC staff made editorial corrections and minor clarifications to both templates.

Participants in ITAAC hearings may, but are not required to, rely on the final protective order templates as the basis for proposed protective orders.

II. Discussion

The NRC staff has developed two final protective order templates for ITAAC hearings, one for SUNSI (ADAMS Accession No. ML19036A727) and one for SGI (ADAMS Accession No. ML19036A718). Although the templates were developed for use in ITAAC hearings, the vast majority of the content is not specific to ITAAC proceedings. The final SUNSI and SGI templates have the following ITAAC-specific provisions:

- The templates reflect the possibility that the presiding officer might be a single legal judge assisted as appropriate by technical advisors.

- Consistent with the accelerated ITAAC hearing schedule, petitioners are given less time to execute non-disclosure declarations, and licensees and the NRC staff are given less time to provide SUNSI or SGI to the petitioners, than is ordinarily the case.

The final SGI template has two additional ITAAC-specific provisions:

- Consistent with the ITAAC Hearing Procedures, the final template provides that SGI must be filed by overnight mail. Filings with SGI will not be made on the E-Filing system because the E-Filing system does not comply with SGI security requirements. This provision does not appear in the SUNSI template because SUNSI filings will be made through the E-Filing system.

- The final template quotes the ITAAC Hearing Procedures as stating that the NRC will not delay its actions in completing the hearing or making the 10 CFR 52.103(g) finding because of delays from background checks for persons seeking access to SGI.

Both templates are based on current requirements and policies, and would, if appropriate, be updated as those requirements and policies change. For example, NRC policies will change in response to the National Archives and Records Administration's final rule, "Controlled Unclassified Information," (81 FR 63324; September 14, 2016) (CUI Rule). The CUI Rule establishes government-wide requirements for protecting sensitive unclassified information. The CUI Rule applies both to the Federal government and to non-Federal entities receiving CUI from the Federal government. The NRC has not yet implemented the CUI Rule and does not expect to achieve implementation before the ITAAC hearings for Vogtle Units 3 and 4. But any future updating of the templates for subsequent ITAAC proceedings would reflect consideration of the CUI Rule and associated guidance.

A. Final SUNSI Protective Order Template

The NRC uses the term SUNSI to refer to a broad spectrum of sensitive information that is neither classified nor SGI. While there are many types of SUNSI, the final SUNSI protective order template is directed at protection of proprietary and security-related information, as discussed in SECY-15-0010 (January 20, 2015) (ADAMS Accession No. ML14343A747). The NRC staff focused on these types of SUNSI because of the NRC's experience with

hearings involving reactors and its knowledge of the matters subject to ITAAC. If an ITAAC hearing involves another type of SUNSI with different protection requirements, the template can be adjusted accordingly.

In developing the final SUNSI template, the NRC staff considered protective orders for proprietary and security-related information issued after 2006. The NRC staff also considered guidance in NRC Regulatory Issue Summary (RIS) 2005-26, "Control of Sensitive Unclassified Non-Safeguards Information Related to Nuclear Power Reactors" (ADAMS Accession No. ML051430228), dated November 7, 2005. RIS 2005-26 is specifically directed at protection of security-related information for reactors and states that such information is protected in much the same way as commercial or financial information.

Finally, the NRC staff considered the CUI Rule. Although the CUI Rule has not yet been implemented at the NRC, many CUI requirements are consistent with the existing protective provisions for SUNSI that provided the basis for the final template. By aligning the provisions and terminology in the SUNSI template with the corresponding elements of the CUI Rule, the NRC staff hopes to facilitate any future update of the template to comply with the CUI Rule. The introductory discussion in the template identifies those CUI provisions that were excluded because they differ from, or go beyond, existing protective provisions for proprietary and security-related SUNSI for external stakeholders.

B. Final SGI Protective Order Template

Safeguards Information is a special category of sensitive unclassified information defined in 10 CFR 73.2 and protected from unauthorized disclosure under AEA Section 147. Although SGI is unclassified information, it is handled and protected more like Classified National Security Information than like other sensitive unclassified information (e.g., privacy and proprietary information). Requirements for access to SGI and requirements for SGI handling, storage, and processing are in 10 CFR part 73.

The SGI protective order template does not rely on prior SGI protective orders because they predate significant changes to the NRC's regulations on SGI and adjudicatory filings. Instead, the NRC staff combined general provisions from the SUNSI template with the SGI protection requirements in 10 CFR part 73 and the adjudicatory filing requirements in 10 CFR part 2. Also, while the NRC staff considered the CUI Rule when developing the SGI template,

the template does not reflect any specific CUI provisions. The NRC has not yet implemented the CUI Rule, and in accordance with 32 CFR 2002.4(r), most CUI requirements do not apply to

SGI because the authorizing law and regulations for SGI provide specific handling controls.

III. Availability of Documents

The documents identified in the following table are available to interested persons through one or more of the following methods, as indicated.

Document	ADAMS Accession No./ Federal Register citation
Final Template for Protective Orders Governing the Disclosure and Use of Sensitive Unclassified Non-Safeguards Information (SUNSI) in Hearings Related to Conformance with Inspections, Tests, Analyses, and Acceptance Criteria (ITAAC).	ML19036A727
Final Template for Protective Orders Governing the Disclosure and Use of Safeguards Information (SGI) in Hearings Related to Conformance with Inspections, Tests, Analyses, and Acceptance Criteria (ITAAC).	ML19036A718
NRC Staff Responses to Public Comments on Draft Protective Order Templates for ITAAC Hearings	ML19036A732
Comment Submission from Southern Nuclear Operating Company, submitted on October 19, 2018	ML18298A267
Protective Order Templates for Hearings on Conformance with the Acceptance Criteria in Combined Licenses, published on September 4, 2018 (draft for comment).	83 FR 44925
Final Procedures for Conducting Hearings on Conformance With the Acceptance Criteria in Combined Licenses, published on July 1, 2016.	81 FR 43266
SECY-15-0010, Final Procedures for Hearings on Conformance With the Acceptance Criteria in Combined Licenses, dated January 20, 2015.	ML14343A747
Final Rule: Controlled Unclassified Information, published on September 14, 2016	81 FR 63324
NRC Regulatory Issue Summary 2005-26, Control of Sensitive Unclassified Non-Safeguards Information Related to Nuclear Power Reactors, dated November 7, 2005.	ML051430228

The NRC may post materials related to this document, including public comments, on the Federal rulemaking website at <http://www.regulations.gov> under Docket ID NRC-2018-0190. The Federal Rulemaking website allows you to receive alerts when changes or additions occur in a docket folder. To subscribe: (1) Navigate to the docket folder (NRC-2018-0190); (2) click the "Sign up for Email Alerts" link; and (3) enter your email address and select how frequently you would like to receive emails (daily, weekly, or monthly).

Dated at Rockville, Maryland, this 7th day of February 2019.

For the Nuclear Regulatory Commission.
Susan H. Vrahoretis,

Assistant General, Counsel for New Reactor Programs, Office of the General Counsel.

BILLING CODE 7590-01-P

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review, Request for Comments

Summary: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the Railroad Retirement Board (RRB) is forwarding an Information Collection Request (ICR) to the Office of Information and Regulatory Affairs (OIRA), Office of Management and Budget (OMB). Our ICR describes the information we seek to collect from the public. Review and approval by OIRA ensures that we impose appropriate paperwork burdens.

The RRB invites comments on the proposed collections of information to determine (1) the practical utility of the collections; (2) the accuracy of the estimated burden of the collections; (3) ways to enhance the quality, utility, and clarity of the information that is the subject of collection; and (4) ways to minimize the burden of collections on respondents, including the use of automated collection techniques or other forms of information technology. Comments to the RRB or OIRA must contain the OMB control number of the ICR. For proper consideration of your comments, it is best if the RRB and OIRA receive them within 30 days of the publication date.

Title and purpose of information collection: Application for Survivor Death Benefits; OMB 3220-0031.

Under Section 6 of the Railroad Retirement Act (RRA), lump-sum death benefits are payable to surviving widow(er)s, children, and certain other dependents. Lump-sum death benefits are payable after the death of a railroad employee only if there are no qualified survivors of the employee immediately eligible for annuities. With the exception of the residual death benefit, eligibility for survivor benefits depends on whether the deceased employee was "insured" under the RRA at the time of death. If the deceased employee was not insured, jurisdiction of any survivor benefits payable is transferred to the Social Security Administration and survivor benefits are paid by that agency instead of the RRB. The requirements

for applying for benefits are prescribed in 20 CFR 217, 219, and 234.

The collection obtains the information required by the RRB to determine entitlement to and amount of the survivor death benefits applied for. To collect the information, the RRB uses Forms AA-21, *Application for Lump-Sum Death Payment and Annuities Unpaid at Death*; AA-21cert, *Application Summary and Certification*; G-131, *Authorization of Payment and Release of All Claims to a Death Benefit or Accrued Annuity Payment*; and G-273a, *Funeral Director's Statement of Burial Charges*. One response is requested of each respondent. Completion is required to obtain benefits.

Previous requests for comments: The RRB has already published the initial 60-day notice (83 FR 62390 on December 3, 2018) required by 44 U.S.C. 3506(c)(2). That request elicited no comments.

Information Collection Request (ICR)

Title: Application for Survivor Death Benefits.

OMB Control Number: 3220-0031.
Form(s) submitted: AA-21, AA-21cert, G-131, and G-273a.

Type of request: Revision of a currently approved collection.

Affected public: Individuals or Households.

Abstract: The collection obtains the information needed to pay death benefits and annuities due but unpaid at death under the Railroad Retirement Act. Benefits are paid to designated
