

EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);

- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866;

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4);

- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the proposed rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

SUPPLEMENTARY INFORMATION: On
December 13, 2018, the Environmental
Protection Agency (EPA) published the
proposed rule, “Water Quality
Standards; Establishment of a Numeric
Criterion for Selenium for the State of
California” in the **Federal Register** (83
FR 64059). The EPA is proposing to
establish a federal Clean Water Act
(CWA) selenium water quality criterion
applicable to California that protects
aquatic life and aquatic-dependent
wildlife in the fresh waters of California.

The original deadline to submit
comments on the proposed rule was
February 11, 2019, and the public
hearings were originally scheduled for
January 29, 2019, and January 30, 2019.
This action extends the comment period
for 45 days. Due to the recent federal
government shutdown, the public
hearings have been rescheduled for
March 19, 2019, and March 20, 2019,
and written comments must now be
received by March 28, 2019. Under
CWA section 303(c)(1) and the EPA’s
regulation at 40 CFR 131.20, states and
authorized tribes are required to hold
public hearings when revising water
quality standards. When preparing for
or conducting such public hearings,
states and authorized tribes must
comply with the EPA’s public hearing
requirements at 40 CFR 25.5. Under 40
CFR 131.22(c), when the EPA
promulgates a federal water quality
standard for a state, it must comply with
the same procedures established for
states and authorized tribes. These
provisions include requirements for
providing at least 45 days advance
notice of a public hearing. This public
comment period is extended in order to
accommodate complying with the
public hearing requirements and to
ensure the public comment period
remains open to accommodate the
rescheduled public hearings. Notice of
the rescheduled public hearings was
posted on the EPA’s website on January
30, 2019 at [https://www.epa.gov/wqs-
tech/water-quality-standards-
establishment-numeric-criterion-
selenium-fresh-waters-california](https://www.epa.gov/wqs-tech/water-quality-standards-establishment-numeric-criterion-selenium-fresh-waters-california).

The EPA will offer virtual public
hearings on the proposed rule via the
internet on Tuesday, March 19, 2019,
from 9:00 a.m.–11:00 a.m. Pacific Time
and Wednesday, March 20, 2019, from
4:00 p.m.–6:00 p.m. Pacific Time. For
