Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Preliminary Results of Countervailing Duty Administrative Review and Intent To Rescind the Review, in Part; 2016

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that producers and/or exporters subject to this administrative review received countervailable subsidies. Interested parties are invited to comment on these preliminary results of review.

DATES: Applicable February 20, 2019.

FOR FURTHER INFORMATION CONTACT: Gene H. Calvert, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3586.

SUPPLEMENTARY INFORMATION:

Background

On February 23, 2018, Commerce initiated the administrative review of the countervailing duty order on crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells) from the People's Republic of China (China).¹ The period of review is January 1, 2016, through December 31, 2016.

On January 23, 2018, Commerce exercised its discretion to toll all deadlines affected by the duration of the closure of the Federal Government from January 20 through January 22, 2018.² As a result, all deadlines in this segment of the proceeding were, at that time, extended by three days.

In addition, Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018, through the resumption of operations on January 29, 2019.³ If the new deadline falls on a non-business day, in accordance with Commerce's practice, the deadline will become the next business day. The revised deadline for these preliminary results is now February 12, 2019.

Scope of the Order

The products covered by the countervailing duty order are crystalline silicon photovoltaic cells, and modules, laminates, and panels, consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including, but not limited to, modules, laminates, panels, and building integrated materials. For a complete description of the scope of this administrative review, see the Preliminary Decision Memorandum.⁴

Methodology

Commerce is conducting this administrative review in accordance

with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found countervailable, we preliminarily find that there is a subsidy, (*i.e.*, a financial contribution from an authority that gives rise to a benefit to the recipient) and that the subsidy is specific.⁵ In making this preliminary determination, Commerce relied, in part, on facts otherwise available, with the application of adverse inferences.⁶ For further information, see "Use of Facts Otherwise Available and Application of Adverse Inferences" in the accompanying Preliminary Decision Memorandum. A list of topics discussed in the Preliminary Decision Memorandum is provided at Appendix I to this notice.

The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. Intent To Rescind Administrative Review, in Part

BYD (Shangluo) Industrial Co., Ltd. (BYD Shangluo) timely filed a no-shipments certification.⁷ Because no evidence on the record contradicts this certification, we preliminarily intend to rescind this administrative review with regard to BYD Shangluo. A final decision on whether to rescind the review with respect to BYD Shangluo will be made in the final results of this review.

Preliminary Results of Review

We preliminarily determine the net countervailable subsidy rates for the period January 1, 2016, through December 31, 2016, are as follows:

Preliminary Rate for Non-Selected Companies Under Review

The statute and Commerce's regulations do not directly address the establishment of rates to be applied to companies not selected for individual examination where Commerce limits its examination in an administrative review pursuant to section 777A(e)(2) of the Act. However, Commerce normally determines the rates for non-selected companies in reviews in a manner that is consistent with section 705(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation. Section 705(c)(5)(A)(i) of the Act instructs Commerce, as a general rule, to calculate an all others rate using the weighted average of the subsidy weights established for the producers/exporters individually examined, excluding any zero, *de minimis*, or rates based entirely on facts available. For the companies for which a review was requested that were not selected as mandatory company respondents, and for which we did not receive a timely request for withdrawal of review, and for which we are not finding to be cross-owned with the mandatory company respondents, we based the subsidy rate on a weighted-average of the subsidy rates calculated for the two mandatory respondents, Canadian Solar Inc. and Jinko Solar Import and Export Co., Ltd. using their publicly-ranged sales data for exports of subject merchandise to the

Assessment Rates and Cash Deposit Requirement

In accordance with 19 CFR 351.221(b)(4)(i), we assigned a subsidy rate for each producer/exporter subject to this administrative review. Upon issuance of the final results, Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, countervailing duties on all appropriate entries covered by this review. We intend to issue instructions to CBP 15 days after publication of the final results of review. For companies for which this review is rescinded, Commerce will instruct CBP to assess countervailing duties on all appropriate entries at a rate equal to the cash deposit of estimated countervailing duties required at the time of entry, or withdrawal from warehouse, for consumption, during the period January 1, 2016, through December 31, 2016, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions directly to CBP 15 days after publication of this notice.

Pursuant to section 751(a)(2)(C) of the Act, Commerce also intends to instruct CBP to collect cash deposits of estimated countervailing duties, in the amounts shown above for each of the respective companies shown above, on shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this review. For all non-reviewed firms, we will instruct CBP to continue to collect cash deposits at the most-recent company-specific or all-others rate applicable to the company, as appropriate. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Chlorinated Isocyanurates From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2016-2017

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) finds that certain companies covered by this administrative review made sales of chlorinated isocyanurates from the People's Republic of China (China) at less than normal value during the period of review (POR) June 1, 2016, through May 31, 2017.

DATES: Applicable February 20, 2019.

FOR FURTHER INFORMATION CONTACT: Sean Carey, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3964.

Background

This administrative review covers three producers/exporters: (1) Heze Huayi Chemical Co. Ltd. (Heze Huayi); (2) Hebei Jiheng Chemical Co. Ltd. (Jiheng); and (3) Juancheng Kangtai Chemical Co. Ltd. (Kangtai). We determine that Heze Huayi and Kangtai have demonstrated their eligibility for a separate rate, and have made sales in the United States at prices below normal value (NV). With respect to Jiheng, we continue to treat this company as part of the China-wide entity, because it did not participate in this administrative review and failed to respond to our questionnaires.

On July 10, 2018, the Department of Commerce (Commerce) published its *Preliminary Results* of the administrative review of the antidumping duty order on chlorinated isocyanurates from the People's Republic of China (China).¹ We invited parties to comment on our *Preliminary Results*. On August 16, 2018, the

petitioners, Bio-lab, Inc., Clearon Corp., and Occidental Chemical Corp. (collectively, the petitioners) and the respondents, Heze Huayi and Kangtai (collectively, the respondents), submitted case briefs.² On August 21, 2018, the petitioners and the respondents submitted rebuttal briefs.³

On October 30, 2018, Commerce fully extended the deadline for the final results until January 4, 2019.⁴ Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018, through the resumption of operations on January 29, 2019.⁵ This extended the deadline for the final results to February 13, 2019.

Scope of the Order

The products covered by the order are chloro isos, which are derivatives of cyanuric acid, described as chlorinated s-triazine triones. Chlorinated isos are currently classifiable under subheadings 2933.69.6015, 2933.69.6021, 2933.69.6050, 3808.40.50, 3808.50.40 and 3808.94.5000 of the Harmonized Tariff Schedule of the United States. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of merchandise subject to the scope is dispositive.
