An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

#### Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11C, Airspace Designations and Reporting Points, dated August 13, 2018, and effective September 15, 2018. FAA Order 7400.11C is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11C lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

#### The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E airspace extending upward from 700

feet above the surface within a 6.3-mile radius of Charleston-Mississippi County Airport, Charleston, MO, and removing the extension within 2.6 miles each side of the 190° bearing from the Charleston NDB. This action is necessary due to the decommissioning of the Charleston NDB. This action would enhance safety and the management of IFR operations at the airport.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11C, dated August 13, 2018, and effective September 15, 2018, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

#### Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

#### Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

#### Reopening of Comment Period for Updated Disclosure Requirements and Summary Prospectus for Variable Annuity and Variable Life Insurance Contracts

**AGENCY:** Securities and Exchange Commission.

**ACTION:** Reopening of comment period.

**SUMMARY:** The Securities and Exchange Commission is reopening the comment period for a proposal to amend rules and forms to help investors make informed investment decisions regarding variable annuity and variable life insurance contracts. The proposal would permit persons to satisfy their prospectus delivery obligations under the Securities Act of 1933 for a variable annuity or variable life insurance contract and any associated portfolio companies by sending or giving a summary contract prospectus to investors and making the statutory and portfolio company prospectuses available online. In addition, the proposal would amend the registration

forms for variable annuity and variable life insurance contracts to update and enhance the disclosures to investors in these contracts, and would require the Inline eXtensible Business Reporting Language (“Inline XBRL”) format for certain required disclosures in the variable contract statutory prospectus. The proposal would also make certain technical and conforming amendments to our rules and forms, as well as rescission of certain related rules and forms, and seek comments regarding parallel amendments to rules governing mutual fund summary prospectuses and registration forms applicable to other types of registered investment companies. The original comment period ended on February 15, 2019. The Commission is reopening the time period in which to provide the Commission with comments until March 15, 2019. This action will allow interested persons additional time to analyze the issues and prepare their comments.

[Docket No. DEA-453]

RIN 1117-AB44

**New Single-Sheet Format for U.S. Official Order Form for Schedule I and II Controlled Substances (DEA Form 222)**

**AGENCY:** Drug Enforcement Administration, Department of Justice.  
**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The Drug Enforcement Administration (DEA) is proposing to amend its regulations to implement a new single-sheet format for order forms (DEA Form 222) which are issued by DEA to DEA registrants to allow them to order schedule I and/or II controlled substances. DEA published a notice of proposed rulemaking about this new format in November 2007 but did not finalize it. Due to the passage of time and procedural considerations, DEA is reissuing another notice of proposed rulemaking. This proposal supersedes the November 2007 proposal. This proposed rule calls for allowing the continued use of the existing triplicate DEA Form 222 until a sunset date of two years after the final rule becomes effective, which would be included in the final rule. DEA also proposes minor procedural changes, including among other things, to clarify the procedure involving who can issue the power of attorney that is required for others to sign DEA Form 222.

**DATES:** Electronic comments must be submitted, and written comments must be postmarked, on or before April 22, 2019. Commenters should be aware that the electronic Federal Docket Management System will not accept comments after 11:59 p.m. Eastern Time on the last day of the comment period.

**ADDRESSES:** To ensure proper handling of comments, please reference “Docket

No. DEA-453” on all correspondence, including any attachments.
