BILLING CODE P

DEPARTMENT OF COMMERCE

International Trade Administration.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: International Trade Administration.

Title: Foreign-Trade Zone Applications.

OMB Control Number: 0625-0139.

Form Number(s): NA.

Type of Request: Regular Submission.

Number of Respondents: 288.

Average Hours per Response: New Zone Application, 131 hours; Subzone Application, 4.5 hours; Reorganization/Expansion Application, 99 hours;

Production Notification, 5.5 hours; Production Application, 34 hours; Minor Boundary Modifications, 3.5 hours; Waivers, 9 hours.

Burden Hours: 2,532.

Needs and Uses: The Foreign-Trade Zone Application is the vehicle by which individual firms or organizations apply for foreign-trade zone (FTZ) status, for subzone status, production authority, or for expansion/reorganization of an existing zone. The FTZ Act and Regulations require that an application with a description of the proposed project be made to the FTZ Board (19 U.S.C. 81b and 81f; 15 CFR 400.24-26) before a license can be issued or a zone can be expanded. The Act and Regulations require that applications contain detailed information on facilities, financing, operational plans, proposed production operations, need, and economic impact. Production activity in zones or subzones, can involve issues related to domestic industry and trade policy impact. Such applications must include specific information on the customs tariff-related savings that result from zone procedures and the economic consequences of permitting such savings. The FTZ Board needs complete and accurate information on the proposed operation and its economic effects because the Act and Regulations authorize the Board to restrict or prohibit operations that are detrimental to the public interest.

Affected Public: State, local, or tribal governments or not-for-profit institutions which are FTZ grantees, as well as private companies.

Frequency: As necessary to receive FTZ benefits.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

AGENCY: Minority Business Development Agency (MBDA), Commerce.

SUPPLEMENTARY INFORMATION:

I. Abstract

As part of its national service delivery system, MBDA awards cooperative agreements and grant awards through broad agency announcements each year to fund the provision of business development services to eligible minority business enterprises (MBEs). The recipient of each grant award is competitively selected to participate in one of the MBDA's programs. In accordance with the Government Performance Results Act (GPRA), MBDA requires all grant participants to report basic client information, service activities and progress on attainment of program goals via the Online CRM/Performance database. The data inputs into the CRM/Performance database originate from client intake forms used by each participant to collect information about each minority

business enterprise that receives technical business assistance from the servicing grant participants. This data provides the baseline from which the CRM/Performance database is populated. The Online CRM/Performance Database is used to regularly monitor and evaluate the progress of the MBDA programs, to provide the Department and OMB with a summary of the quantitative information required to be submitted about government supported programs, and to implement the GPRA. This information is also summarized and included in the MBDA Annual Performance Report, which is made available to the public.

In 2012, the overall estimate of burden hours decreased for users under the newly adopted program structure as a result of the streamlining of certain administrative and reporting requirements. The MBDA grant programs will continue to use the Customer Relationship Management/Performance database until the new program is redesigned during Fiscal Year 2019.

Revision: In Fiscal Year 2018, MBDA has included broad agency announcement grants into the service delivery model for the agency. The client transaction and verification forms in use for the business center program will also be used to collect information about the effectiveness of other grant programs funded by the agency. The forms include a statement regarding MBDA's intended use by MBDA and transfer of the information collected to other federal agencies for the purpose of conducting research and studies on minority businesses.

II. Method of Collection

Information will be collected manually and electronically.
