SUPPLEMENTARY INFORMATION:

Background

Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade.

The Terms of Reference of the Codex Committee on Pesticide Residues (CCPR) are:

(a) To establish maximum limits for pesticide residues in specific food items or in groups of food;

(b) to establish maximum limits for pesticide residues in certain animal feeding stuffs moving in international trade where this is justified for reasons of protection of human health;

(c) to prepare priority lists of pesticides for evaluation by the Joint FAO/WHO Meeting on Pesticide Residues (JMPR);

(d) to consider methods of sampling and analysis for the determination of pesticide residues in food and feed;

(e) to consider other matters in relation to the safety of food and feed containing pesticide residues; and,

(f) to establish maximum limits for environmental and industrial contaminants showing chemical or other similarity to pesticides, in specific food items or groups of food.

The CCPR is hosted by China. The United States attends CCPR as a member country of Codex.

Title: Request for Release of Lien and/or Approval of Sale, RUS Form 793.

OMB Control Number: 0572-0041.

Type of Request: Extension of a currently approved information collection.

Abstract: The Rural Utilities Service (RUS) makes mortgage loans and loan guarantees to electric and telecommunications systems to provide and improve electric and telecommunications service in rural areas pursuant to the Rural Electrification Act of 1936, as amended (7 U.S.C. 901 *et seq.*) (RE Act). All current and future capital assets of RUS borrowers are ordinarily mortgaged or pledged to the Federal Government as security for RUS loans. Assets include tangible and intangible utility plant, non-utility property, construction in

progress, and materials, supplies, and equipment normally used in a telecommunications system. The RE Act and the various security instruments, *e.g.*, the RUS mortgage, limit the rights of a RUS borrower to dispose of capital assets.

The RUS Form 793, Request for Release of Lien and/or Approval of Sale, allows telecommunications program borrowers to seek agency permission to sell some of its assets. The form collects detailed information regarding the proposed sale of a portion of the borrower's system. RUS telecommunications borrowers fill out the form to request RUS approval in order to sell capital assets.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 2.75 hours per response.

Respondents: Business or other for-profit; not-for-profit organizations.

Estimated Number of Respondents: 40.

Estimated Number of Responses per Respondent: 1.
