

for consumption on or after August 27, 2018, the date of publication in the **Federal Register** of the affirmative *Preliminary Determination*.

Pursuant to section 735(c)(1)(B)(ii) of the Act and 19 CFR 351.210(d), we will instruct CBP to require a cash deposit for such entries of merchandise equal to the estimated weighted-average dumping margin as follows: (1) The cash deposit rate for the respondents listed above will be equal to the respondent-specific estimated weighted-average dumping margin determined in this final determination; (2) if the exporter is not a respondent identified above but the producer is, then the cash deposit rate will be equal to the respondent-specific estimated weighted-average dumping margin established for that producer of the subject merchandise; and (3) the cash deposit rate for all other producers and exporters will be equal to the all-others estimated weighted-average dumping margin. These suspension of liquidation instructions will remain in effect until further notice.

International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the International Trade Commission (ITC) of the final affirmative determination of sales at LTFV. In addition, we are making available to the ITC all non-privileged and non-proprietary information related to this investigation. We will allow the ITC access to all privileged and business proprietary information in our files, provided the ITC confirms that it will not disclose such information, either publicly or under an administrative protective order (APO), without the written consent of the Assistant Secretary for Enforcement and Compliance. Because Commerce's final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports, or sales (or the likelihood of sales) for importation of welded pipe from Greece no later than 45 days after this final determination. If the ITC determines that such injury does not exist, this proceeding will be terminated and all cash deposits will be refunded. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse,

for consumption on or after the effective date of the suspension of liquidation, as discussed above in the "Continuation of Suspension of Liquidation" section.

Notification Regarding Administrative Protective Orders

This notice serves as a reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This determination and this notice are issued and published pursuant to sections 735(d) and 777(i)(1) of the Act and 19 CFR 351.210(c).

Dated: February 19, 2019.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The merchandise covered by this investigation is welded carbon and alloy steel pipe (including stainless steel pipe), more than 406.4 mm (16 inches) in nominal outside diameter (large diameter welded pipe), regardless of wall thickness, length, surface finish, grade, end finish, or stenciling. Large diameter welded pipe may be used to transport oil, gas, slurry, steam, or other fluids, liquids, or gases. It may also be used for structural purposes, including, but not limited to, piling. Specifically, not included is large diameter welded pipe produced only to specifications of the American Water Works Association (AWWA) for water and sewage pipe.

Large diameter welded pipe used to transport oil, gas, or natural gas liquids is normally produced to the American Petroleum Institute (API) specification 5L. Large diameter welded pipe may also be produced to American Society for Testing and Materials (ASTM) standards A500, A252, or A53, or other relevant domestic specifications, grades and/or standards. Large diameter welded pipe can be produced to comparable foreign specifications, grades and/or standards or to proprietary specifications, grades and/or standards, or can be non-graded material. All pipe meeting the physical description set forth above is covered by the scope of this investigation, whether or not produced according to a particular standard.

Subject merchandise also includes large diameter welded pipe that has been further

processed in a third country, including but not limited to coating, painting, notching, beveling, cutting, punching, welding, or any other processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the in-scope large diameter welded pipe.

The large diameter welded pipe that is subject to this investigation is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 7305.11.1030, 7305.11.1060, 7305.11.5000, 7305.12.1030, 7305.12.1060, 7305.12.5000, 7305.19.1030, 7305.19.1060, 7305.19.5000, 7305.31.4000, 7305.31.6010, 7305.31.6090, 7305.39.1000 and 7305.39.5000. While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Appendix II

List of Topics Discussed in the Issues and Decision Memorandum

- I. Summary
- II. Background
- III. Scope of the Investigation
- IV. Margin Calculations
- V. Discussion of the Issues
 1. Adverse Facts Available
 2. Date of Sale
 3. Constructed Export Price Offset
 4. Freight Revenue Offset
 5. Sales to Noble
 6. Cost Verification Findings
- VI. Recommendation

Fermi Research Alliance, LLC., et al.; Notice of Decision on Application for Duty-Free Entry of Scientific Instruments

This is a decision pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5:00 p.m. in Room 3720, U.S. Department of Commerce, 14th and Constitution Ave. NW, Washington, DC

Docket Number: 18-006. Applicant: Fermi Research Alliance, LLC., Batavia, IL 60510. Instrument: Short Baseline Near Detector (SBND) Liquid Argon Time Projection Chamber (LArTPC). Manufacturer: The Scientific Facilities Research Council (STFC), United Kingdom. Intended Use: See notice at 83 FR 62838, December 6, 2018.

Comments: None received. Decision: Approved. We know of no instruments of equivalent scientific value to the foreign instruments described below, for

such purposes as this is intended to be used, that was being manufactured in the United States at the time of order. Reasons: The instrument will be used for a basic scientific research project that will study neutrinos, a type of elementary particle. There are three known types of neutrinos in the universe, although there could be more that have not yet been observed. The phenomena to be studied are the number of neutrino types and interaction cross-sections for the currently known neutrino types. Two detectors are required to perform the neutrino oscillation studies: The Short Baseline Near Detector (SBND) is one of these detectors. The primary objective of the SBN program is to look for evidence of neutrino oscillations, over distances of 1 kilometer or less, and if found to measure the oscillation parameters. The SBND TPC is a complex and unique instrument. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States.

Docket Number: 18-008. Applicant: Lawrence Berkeley National Laboratory, Berkeley, CA 94720. Instrument: In Vacuum Insertion Device (aka Undulator). Manufacturer: Hitachi Metals America, LLC, Japan. Intended Use: See notice at 83 FR 62838, December 6, 2018. Comments: None received. Decision: Approved. We know of no instruments of equivalent scientific value to the foreign instruments described below, for such purposes as this is intended to be used, that was being manufactured in the United States at the time of order. Reasons: The instrument will be installed in Sector 2.0 of the Advanced Light Source (ALS) facility at Lawrence Berkeley Laboratory, for use as a high brightness beamline source for the sector. Sector 2.0 of the ALS is dedicated to the study and analysis of protein crystallography. The objectives pursued are to determine the atomic-resolution, three-dimensional structures of proteins and nucleic acids—the building blocks of life—as well as complexes of these molecules, the interactions of which give rise to biological processes. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States.

Dated: February 22, 2019.

Gregory W. Campbell,

Director, Subsidies Enforcement, Enforcement and Compliance.

Large Diameter Welded Pipe From the Republic of Turkey: Final Affirmative Countervailing Duty Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that countervailable subsidies are being provided to producers and exporters of large diameter welded pipe (welded pipe) from the Republic of Turkey (Turkey).

DATES: Applicable February 27, 2019.

FOR FURTHER INFORMATION CONTACT: Ross Belliveau or Ajay Menon, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4952, or (202) 482-1993, respectively.

SUPPLEMENTARY INFORMATION:

Background

The petitioners in this investigation are American Cast Iron Pipe Company, Berg Steel Pipe Corp./Berg Spiral Pipe Corp, Dura-Bond Industries, Skyline Steel, Stupp Corporation, Greens Bayou Pipe Mill, LP, JSW Steel (USA) Inc., and Trinity Products LLC (collectively, the petitioners). In addition to the Government of Turkey, the mandatory respondents in this investigation are Borusan Mannesmann Boru Sanayi ve Ticaret A.S. (Borusan) and HDM Celik Boru Sanayi ve Ticaret A.S. (HDM Celik).

The events that occurred since Commerce published the *Preliminary Determination*¹ on June 29, 2018, are discussed in the Issues and Decision Memorandum, which is hereby adopted by this notice.² The Issues and Decision Memorandum also details the changes we made since the *Preliminary Determination* to the subsidy rates calculated for the mandatory

¹ See *Large Diameter Welded Pipe from the Republic of Turkey: Preliminary Affirmative Countervailing Duty Determination and Alignment of Final Determination with Final Antidumping Duty Determination*, 83 FR 30697 (June 29, 2018) (*Preliminary Determination*), and accompanying Preliminary Decision Memorandum.

² See Memorandum, “Issues and Decision Memorandum for the Final Determination in the Countervailing Duty Investigation of Large Diameter Welded Pipe from the Republic of Turkey,” dated concurrently with this determination (Issues and Decision Memorandum).

respondents and all other producers/exporters. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and is available to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/index.html>. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018, through the resumption of operations on January 29, 2019.³ If the new deadline falls on a non-business day, in accordance with Commerce’s practice, the deadline will become the next business day. The revised deadline for the final determination of this investigation is now February 19, 2019.

Period of Investigation

The period of investigation is January 1, 2017, through December 31, 2017.

Scope of the Investigation

The scope of the investigation is welded pipe from Turkey. For a complete description of the scope of the investigation, see Appendix I.

Scope Comments

During the course of this investigation and the concurrent less-than-fair-value investigations of large diameter welded pipe from Canada, Greece, Korea, the People’s Republic of China (China), and Turkey, and the concurrent countervailing duty (CVD) investigations of large diameter welded pipe from China, India, Korea, and Turkey, Commerce received scope comments from interested parties. Commerce issued a Preliminary Scope Decision Memorandum to address these comments.⁴ In the *Preliminary*

³ See memorandum to the Record from Gary Taverman, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance, “Deadlines Affected by the Partial Shutdown of the Federal Government,” dated January 28, 2019. All deadlines in this segment of the proceeding have been extended by 40 days.
