#### Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11C, Airspace Designations and Reporting Points, dated August 13, 2018, and effective September 15, 2018. FAA Order 7400.11C is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11C lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

#### The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 to remove RNAV route Q-106. Q-106 extends between the SMELZ, FL, WP (northwest of the Lakeland, FL, VORTAC) and the GADAY, AL, WP (northeast of the Crestview, FL, VORTAC). The implementation of the Florida Metroplex Q-route Project (83 FR 43750; August 28, 2018), that became effective on November 8, 2018, increased the number of RNAV Q-routes that extend through the area served by Q-106. As a result, the FAA determined that Q-106 is obsolete and no longer required.

Q-routes are published in paragraph 2006 of FAA Order 7400.11C dated August 13, 2018, and effective September 15, 2018, which is incorporated by reference in 14 CFR 71.1. The Q-route listed in this

document would be subsequently removed from the Order.

#### Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

#### Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notice of proposed rulemaking.

##### II. Background, Purpose, and Legal Basis

The Carolina-Virginia Racing Association of Havre de Grace, MD has notified the Coast Guard that it will be conducting the Flying Point Park Outboard Regatta from 10 a.m. to 6 p.m. on May 11, 2019, and from 10 a.m. to 6 p.m. on May 12, 2019. The high-speed power boat racing event consists of approximately 60 participating outboard hydroplane and runabout race boats of various classes, 9 to 14 feet in length, with 4 to 12 boats racing in 3-lap heats, along a designated, marked racetrack-type course located in Bush River and Otter Point Creek at Edgewood, Harford County, MD. Hazards from the power boat racing event include participants operating within and adjacent to designated navigation channels and interfering with vessels intending to operate within those channels, as well as operating within approaches to local public boat ramps, private marinas and yacht clubs, and waterfront businesses. The Captain of the Port (COTP) Maryland-National Capital Region has determined that potential hazards associated with the power boat racing event would be a safety concern for anyone intending to operate within certain waters of Bush River and Otter Point Creek in Harford County, MD, operating in or near the event area.

The purpose of this rulemaking is to protect event participants, spectators and transiting vessels on certain waters of Bush River and Otter Point Creek before, during, and after the scheduled

event. The Coast Guard proposes this rulemaking under authority in 33 U.S.C. 1233, which authorizes the Coast Guard to establish and define special local regulations.

##### III. Discussion of Proposed Rule

The COTP Maryland-National Capital Region proposes to establish special local regulations to be enforced from 9:30 a.m. to 6:30 p.m. on May 11, 2019, and from 9:30 a.m. to 6:30 on May 12, 2019. The regulated area would cover all navigable waters of the Bush River and Otter Point Creek, from shoreline to shoreline, bounded to the north by a line drawn from the western shoreline of the Bush River at latitude 39°27'15" N, longitude 076°14'39" W and thence eastward to the eastern shoreline of the Bush River at latitude 39°27'03" N, longitude 076°13'57" W; and bounded to the south by the Amtrak Railroad Bridge, across the Bush River at mile 6.8, between Perryman, MD, and Edgewood, MD.

This proposed rule provides additional information about areas within the regulated area, their definitions, and the restrictions that would apply. These areas include a "Race Area", "Buffer Zone" and "Spectator Area".

The proposed duration of the special local regulations and size of the regulated area are intended to ensure the safety of life on these navigable waters before, during, and after the high-speed power boat races, scheduled from 10 a.m. until 6 p.m. on May 11, 2019, and May 12, 2019. The COTP and PATCOM would have authority to forbid and control the movement of all vessels and persons, including event participants, in the regulated area. When hailed or signaled by an official patrol, a vessel or person in the regulated area would be required to immediately comply with the directions given by the COTP or Coast Guard Patrol Commander (PATCOM). If a person or vessel fails to follow such directions, the Coast Guard may expel them from the area, issue them a citation for failure to comply, or both. Official Patrols are any vessel assigned or approved by the Commander, Coast Guard Sector Maryland-National Capital Region with a commissioned, warrant, or petty officer on board and displaying a Coast Guard ensign.

Except for Flying Point Park Outboard Regatta participants and vessels already at berth, a vessel or person would be required to get permission from the COTP or PATCOM before entering the regulated area. Vessel operators can request permission to enter and transit through the regulated area by contacting
