

OMB Control Number: 0579–0357.
Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of wooden handicrafts from China are contained in “Subpart I—Logs, Lumber, and Other Wood Articles” (7 CFR 319.40–1 through 319.40–11).

The regulations provide the requirements for the importation of wooden handicrafts from China. These regulations include and require the use of an identification tag. All packages that are used to ship wooden handicrafts must be labeled with a merchandise tag containing the identity of the product manufacturer. This tag must be applied to each shipping package in China prior to export and remain attached to the package until it reaches the location at which the wooden handicraft will be sold in the United States. Fumigation certificates are also required to verify that the articles have been treated in accordance with the regulations. An import permit must also be issued by the Animal and Plant Health Inspection Service, which requires importers to complete an application. In addition, importers must provide a notice of arrival and respond to emergency action notifications, when applicable.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as

appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.002 hours per response.

Respondents: Exporters of wooden handicrafts from China.

Estimated annual number of respondents: 432.

Estimated annual number of responses per respondent: 8,541.25.

Estimated annual number of responses: 3,689,821.

Estimated total annual burden on respondents: 7,469 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 27th day of February 2019.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
