

of the provisional measures period (October 27, 2018), in accordance with section 703(d) of the Act, until the date of publication of the *ITC Final Determination* in the **Federal Register**.

Welded Structural Pipe

The Final ITC Report describes welded structural pipe as a tubular product produced from carbon and alloy steel, produced to American Society of Testing and Materials (ASTM) specifications, and designed for support in construction projects and piling.⁹ Because the ITC found that subsidized imports of welded structural pipe from India are negligible, Commerce will direct CBP to terminate the suspension of liquidation for entries of welded structural pipe from India entered, or withdrawn from warehouse, and to refund all cash deposit with respect to these entries pursuant to section 705(c)(2) of the Act.

Stainless Steel Pipe

The Final ITC Report describes stainless steel pipe as being produced from stainless steel for its high-chrome chemistry and corrosion-resistant properties.¹⁰ Because the ITC made a negative determination of material injury or threat of material injury by reason of subsidized imports of stainless steel pipe from India,¹¹ Commerce will direct CBP to terminate the suspension of liquidation for entries of stainless steel pipe from India entered, or withdrawn from warehouse, and to refund all cash deposits with respect to these entries pursuant to section 705(c)(2) of the Act.

Suspension of Liquidation

In accordance with section 706 of the Act, Commerce will direct CBP to reinstitute the suspension of liquidation of subject merchandise (*i.e.*, welded line pipe) from India, effective the date of publication of the *ITC Final Determination* in the **Federal Register**, and to assess, upon further instruction by Commerce pursuant to section 706(a)(1) of the Act, countervailing duties for each entry of the subject merchandise in an amount based on the net countervailable subsidy rates for the subject merchandise. We intend to instruct CBP to require, at the same time as importers would normally deposit estimated import duties on this merchandise, cash deposits for each entry of subject merchandise equal to the rates noted below. These instructions suspending liquidation will

remain in effect until further notice. The all-others rate applies to all other producers or exporters not specifically listed.

Company	Subsidy rate (percent)
Bhushan Steel	541.15
Welspun Trading Limited	541.15
All-Others	541.15

Notifications to Interested Parties

This notice constitutes the countervailing duty order with respect to welded line pipe from India pursuant to section 706(a) of the Act. Interested parties can find a list of countervailing duty orders currently in effect at <http://enforcement.trade.gov/stats/iastats1.html>.

This order is published in accordance with sections 705(c) and 706(a) of the Act and 19 CFR 351.211(b).

Dated: February 28, 2019.

Gary Taverman,

Deputy Assistant Secretary, for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix

Scope of the Order

The merchandise covered by this order is welded carbon and alloy steel line pipe (other than stainless steel pipe), more than 406.4 mm (16 inches) in nominal outside diameter (large diameter welded line pipe), regardless of wall thickness, length, surface finish, grade, end finish, or stenciling. Large diameter welded pipe may be used to transport oil, gas, slurry, steam, or other fluids, liquids, or gases.

Large diameter welded line pipe is used to transport oil, gas, or natural gas liquids and is normally produced to the American Petroleum Institute (API) specification 5L. Large diameter welded line pipe can be produced to comparable foreign specifications, grades and/or standards or to proprietary specifications, grades and/or standards, or can be non-graded material. All line pipe meeting the physical description set forth above, including any dual- or multiple-certified/stenciled pipe with an API (or comparable) welded line pipe certification/stencil, is covered by the scope of this order.

Subject merchandise also includes large diameter welded line pipe that has been further processed in a third country, including but not limited to coating, painting, notching, beveling, cutting, punching, welding, or any other processing that would not otherwise remove the merchandise from the scope of the order if performed in the country of manufacture of the in-scope large diameter welded line pipe.

Excluded from the scope of this order is structural pipe, which is produced only to American Society for Testing and Materials (ASTM) standards A500, A252, or A53, or

other relevant domestic specifications, or comparable foreign specifications, grades and/or standards or to proprietary specifications, grades and/or standards. Also excluded is large diameter welded pipe produced only to specifications of the American Water Works Association (AWWA) for water and sewage pipe.

The large diameter welded line pipe that is subject to this order is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 7305.11.1030, 7305.11.1060, 7305.11.5000, 7305.12.1030, 7305.12.1060, 7305.12.5000, 7305.19.1030, 7305.19.1060, and 7305.19.5000. Merchandise currently classifiable under subheadings 7305.31.4000, 7305.31.6090, 7305.39.1000 and 7305.39.5000 and that otherwise meets the above scope language is also covered. While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

National Oceanic and Atmospheric Administration

RIN 0648-XG856

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 59 Assessment Webinar I.

SUMMARY: The SEDAR 59 assessment of the South Atlantic stock of Greater Amberjack will consist of a series of webinars.

DATES: The SEDAR 59 Assessment Webinar I will be held on Friday, March 22, 2019, from 9 a.m. until 1 p.m.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julia Byrd at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT: Julia Byrd, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North

⁹ *Id.* at 11–12.

¹⁰ *Id.* at 10.

¹¹ *Id.* at 1 and 3.

Charleston, SC 29405; phone: (843) 571-4366; email: julia.byrd@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. The product of the SEDAR webinar series will be a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment Webinar I are as follows:

1. Participants will review data and discuss remaining data issues, as necessary.
2. Participants will begin discussions to develop population models to evaluate stock status, estimate population benchmarks, and project future conditions, as specified in the Terms of Reference.
3. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.
4. Participants will prepare a workshop report and determine whether the assessment(s) are adequate for submission for review.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under

section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SAFMC office (see **ADDRESSES**) at least 5 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Dated: March 1, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

National Estuarine Research Reserve System

AGENCY: Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce

ACTION: Notice of Public Comment Period for the Hudson River National Estuarine Research Reserve Management Plan revision.

SUMMARY: Notice is hereby given that the Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce is announcing a thirty-day public comment period for the Hudson River National Estuarine Research Reserve Management Plan revision. The revision of the existing management plan is necessitated by the applicable requirements of the National Estuarine Research Reserve System. The Hudson River Reserve revised plan will replace the plan approved in 2009.

SUPPLEMENTARY INFORMATION: Pursuant to 15 CFR 921.33(c), a state must periodically update its management plan for a National Estuarine Research Reserve. The Hudson River National Estuarine Research Reserve revised plan will replace the plan previously approved in 2009. NOAA issues this notice of a public comment period for the revised plan under 15 CFR 921.33(a).

The revised management plan outlines the administrative structure;

the research/monitoring, stewardship, education, and training programs and priorities of the reserve; plans for including inholdings within the existing boundary into state ownership; and facility development priorities to support reserve operations.

The Hudson River Reserve takes an integrated approach to management, linking research and education, coastal training, and stewardship functions. The New York Department of Environmental Conservation has outlined how it will administer the reserve and its core programs by providing detailed actions that will enable it to accomplish specific goals and objectives. Since the last management plan, the reserve has: Provided technical expertise to coastal communities to reduce risks to natural hazards; expanded monitoring programs; installed a sentinel site for monitoring marsh ecosystem response to sea level rise; conducted training workshops; implemented K-12 and public education programs; installed a water level observation station that is compliant with NOAA's National Water Level Observation Network; restored hydrologic flows at Gay's Point in the Stockport Flats component; and established itself as a regional leader in the design and implementation of living shorelines. The total number of acres within the reserve boundary is 5,000 acres. The revised management plan will serve as the guiding document for the Hudson River Reserve for the next five years.

NOAA's Office Coastal Management will be conducting an environmental analysis in accordance with the National Environmental Policy Act on the proposed approval of the Reserve's revised management plan. The public is invited to provide comment or information about any potential environmental impacts of the proposed action, and these comments will be used to inform the decision making process.

The Hudson River Reserve Management Plan revision may be viewed at: <https://www.dec.ny.gov/lands/4915.html>. Comments on the revision may be submitted to the Reserve's Manager, Heather Gierloff (heather.gierloff@dec.ny.gov) by April 5, 2019.

FOR FURTHER INFORMATION CONTACT: Nina Garfield at (240) 533-0817, or Kim Texeira at (240) 533-0781, of NOAA's Office for Coastal Management, 1305 East-West Highway, N/ORM5, 10th floor, Silver Spring, MD 20910.
