SUPPLEMENTARY INFORMATION: Based on a recent review, it was determined that the Department of Defense (DoD) CATMS system used for tracking actions taken and responses from the Office of the Secretary of Defense to the President, White House, other Cabinet officials, Congress, state and local officials, corporate officials, members of the Defense Department, and the public does not constitute a Privacy Act system of records. The records within CATMS are about packages being processed and/or coordinated within DoD rather than individuals. While some of these packages within CATMS might include information that may reference individuals, the packages are not retrieved or retrievable by an individual's name or other personal identifier. Instead, CATMS records are retrieved by action or task identification number.

The Office of the Secretary systems of records notices subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT** or at the Defense Privacy, Civil Liberties, and Transparency Division website at <http://defense.gov/privacy>.

The proposed systems reports, as required by the Privacy Act of 1974, as amended, were submitted on October 19, 2018, to the House Committee on Oversight and Government Reform, the Senate Committee on Homeland Security and Governmental Affairs, and the Office of Management and Budget (OMB) pursuant to Section 6 to OMB Circular No. A-108, "Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act," revised December 23, 2016 (December 23, 2016, 81 FR 94424).
