Section 518 of the 1996 Act (7 U.S.C. 7417) authorizes continuance referenda. Under section 1216.82 of the Order, the Department must conduct a referendum every five years or when 10 percent or more of the eligible peanut producers petition the Secretary of Agriculture to hold a referendum to determine if persons subject to assessment favor continuance of the Order. The Department would continue the Order if continuance is approved by a simple majority of the producers voting in the referendum.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the referendum ballot has been approved by the Office of Management and Budget (OMB) and assigned OMB No. 0581–0093. It has been estimated that there are approximately 7,000 producers who will be eligible to vote in the referendum. The referendum agents will distribute the ballots to be cast in the referendum and voting instructions by U.S. mail or through electronic means to all known producers prior to the first day of the voting period. Persons who produced peanuts and were subject to assessments during the representative period are eligible to vote. Any eligible producer who does not receive a ballot should contact a referendum agent as soon as possible. Ballots delivered to the Department via regular U.S. mail must be postmarked by May 3, 2019. Ballots delivered to the Department via express mail or electronic means must show proof of delivery by no later than 11:59 p.m. Eastern Time (ET) on May 3, 2019.

Procedural Changes to the Coastal Zone Management Act Federal Consistency Process

AGENCY: Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA) is issuing this advance notice of proposed rulemaking (ANPR) to seek the public and regulated community's input on what changes could be made to NOAA's Coastal Zone Management Act (CZMA) federal consistency regulations to make the federal consistency process more efficient across all stages of OCS oil and gas projects from leasing to development, as well as renewable energy projects. NOAA is also seeking comments on whether NOAA could process appeals in less time and increase the predictability in the outcome of an appeal. NOAA further invites comment on the potential costs that could be incurred by *small entities* during CZMA consistency appeals if NOAA revises the federal consistency regulations to provide greater efficiency and predictability as discussed in this Notice.

DATES: Comments on this ANPR must be received by April 25, 2019.

ADDRESSES: You may submit comments on this advance notice of proposed rulemaking (ANPR), identified by NOAA–NOS–2018–0107 by either of the following methods:
