Federal Aviation Administration

[Docket No. FAA–2019–0154]

Agency Information Collection Activities: Proposed Collection: Public Comment Request

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: 60-Day notice and request for comments.

SUMMARY: The Federal Aviation Administration is seeking approval from the Office of Management and Budget (OMB) for approval of a new information collection related to airspace authorization requests. As required by the Paperwork Reduction Act of 1995 (PRA), the purpose of this notice is to allow 60 days for public comment.

The FAA proposes collecting information pursuant to new requirements that limited recreational operations of unmanned aircraft must now apply for airspace authorizations in controlled airspace. The FAA will use the collected information to make determinations whether to authorize or deny the requested operation of UAS in controlled airspace. The proposed information collection is necessary to issue such authorizations or denials consistent with the FAA's mandate to ensure safe and efficient use of national airspace.

DATES: Written comments should be submitted by May 10, 2019.

ADDRESSES: You may submit comments [identified by Docket No. FAA–2019–0154] through one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Fax:* 1–202–493–2251.

- *Mail or Hand Delivery:* Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building, Room W12–

140, Washington DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except on Federal holidays.

FOR FURTHER INFORMATION CONTACT: Casey Nair, FAA's UAS Low Altitude Authorization and Notification Capability (LAANC) Program Manager, tel (202) 267–0369 or via email at Casey.Nair@faa.gov.

SUPPLEMENTARY INFORMATION: *Public Comments Invited.* You are asked to comment on any aspect of this information collection, including (a) whether the proposed collection of information is necessary for the FAA's performance; (b) the accuracy of the estimated burden; (c) ways for the FAA to enhance the quality, utility, and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

Title: Airspace Authorizations in Controlled Airspace under 49 U.S.C. 44809(a)(5).

OMB Control Number: This is a new collection.

Form Number(s): There are no FAA forms associated with this collection.

Type of Review: Approval of a new information collection.

Background: Congress recently enacted the FAA Reauthorization Act of 2018 (the Act), which was signed into law by the President on October 5, 2018. Included within the Act is 49 U.S.C. 44809(a), which established limited recreational operations of unmanned aircraft. Limited recreational operations are those operations otherwise excepted from FAA certification and operating authority by adhering to all of the limitations listed in 49 U.S.C. 44809(a)(1) thru (8). Among the listed limitations that must be met, 49 U.S.C. 44809(a)(5) requires that these operations receive an authorization from the FAA prior to conducting any small UAS flight in Class B, Class C, Class D, or within the lateral boundaries of the surface area of Class E airspace designated for an airport. This is a new requirement. Previously, only persons operating under part 107 have been required to request these authorizations pursuant to OMB Control Number 2120–0768.

In order to process airspace authorization requests, the FAA requires the operator's name, the operator's contact information, and information related to the date, place, and time of the requested small UAS operation. This information is necessary for the FAA to meet its statutory mandate of maintaining a safe and efficient national airspace. See 49 U.S.C. 40103, 44701, and 44807. Similar to the existing
