SUPPLEMENTARY INFORMATION:

Authority and Purpose: Under Section 301 of Public Law 101–445 (7 U.S.C. 5341, the National Nutrition Monitoring and Related Research Act of 1990, Title III) the Secretaries of USDA and HHS are directed to publish the Dietary Guidelines for Americans jointly at least every five years. The law instructs that this publication shall contain nutritional and dietary information and guidelines for the general public, shall be based on the preponderance of scientific and medical knowledge current at the time of publication; and shall be promoted by each Federal agency in carrying out any Federal food, nutrition, or health program. Recent editions of the Dietary Guidelines provide dietary advice for Americans ages 2 years and older. The Agricultural Act of 2014 mandates the addition of dietary guidance for women who are pregnant and infants and toddlers from birth to 24 months of age beginning with the 2020 edition.

USDA and HHS appointed the 2020 Dietary Guidelines Advisory Committee to conduct an independent scientific review that will help inform the Departments' development of the next edition of the *Dietary Guidelines*. Information on the Dietary Guidelines Advisory Committee membership and the topics and scientific questions the Departments identified to be examined by the Committee is available at www.DietaryGuidelines.gov.

The 2020 Dietary Guidelines Advisory Committee's formation is governed under the provisions of the Federal Advisory Committee Act (FACA), Public Law 92–463, as amended (5 U.S.C., App), which sets forth standards for the formation and use of advisory committees.

Committee's Task: The work of the Committee will be solely advisory in nature and time-limited. The Committee will examine the current *Dietary Guidelines for Americans*, take into consideration new scientific evidence and current resource documents, and based on the preponderance of current scientific and medical knowledge, develop a report to the Secretaries of USDA and HHS that outlines its science-based assessment and rationale. The Committee's report will help inform the Departments' development of the ninth edition of the *Dietary Guidelines for Americans*. The Committee will hold approximately five meetings, open to the public, to review and discuss recommendations. Meeting dates, times, locations, and other relevant information will be announced at least 15 days in advance of each meeting via **Federal Register** notice and at www.DietaryGuidelines.gov. As stipulated in the charter, the Committee will be terminated after delivery of its final report to the Secretaries of USDA and HHS or two years from the date the charter was filed, whichever comes first.

Purpose of the Meeting: In accordance with FACA, and to promote transparency of the process, deliberations of the Committee will occur in a public forum. The purpose of this first meeting is to orient the Committee to the *Dietary Guidelines* revision process and mark the beginning of its work.

Meeting Agenda: The meeting agenda will include (a) review of operations for the Committee members, (b) overview of the topics and questions identified by the Departments to be examined by the Committee, (c) presentations on the evidence-based approaches for reviewing the scientific evidence, including systematic reviews, data analyses, and food pattern modeling analyses, and (d) plans for future Committee work.
