#### Agenda

The SSC will review research priority updates suggested by Council's committees and Plan Development Teams (PDT) and provide the Council with any recommendations about revisions to the Council research priorities that were developed in 2018. They may possibly review updated OFL and ABC recommendations for Atlantic herring for 2019-21, only if necessary. This agenda item has been added in the event an updated projection and recommendation from the Herring PDT is completed in time for this meeting. Other business will be discussed as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

### SUPPLEMENTARY INFORMATION:

#### I. Abstract

This request is for a new information collection. The title will be "Understanding Anglers' Preferences for Summer Flounder and Black Sea Bass."

The recreational fishing community and regional fisheries management councils along the Atlantic coast have requested more species-specific socio-economic and behavioral studies of recreational fishing that can be used in the analysis of fisheries policies. This survey will address that stated need for more species-specific studies by focusing on two very popular recreational species caught along the Atlantic coast from Massachusetts to North Carolina: Summer flounder and black sea bass. The objective of the survey will be to understand how anglers respond to changes in expected harvest distributions of summer flounder and black sea bass. This
