

but would help support industry activity by streamlining ESA compliance, while continuing conservation efforts for the ABB. The 5-year ICP extension is expected to trigger no new environmental consequences; no new impacts to local economies or cultural resources; and no changes to direct, indirect, and cumulative effects. The ICP extension would not authorize any additional activities or incidental take. The same types and quantities of activities previously described in the EA are expected to occur with the 5-year extension. Based on the proposed amendment, construction-related impacts could occur until May 20, 2030, instead of only during the original 2-year timeframe, and operation and maintenance-related impacts could occur until May 20, 2039.
