

A-570-967 and C-570-968: Aluminum Extrusions From the People's Republic of China

Requestor: Kota International, LTD (Kota); In a concurrent anti-circumvention final determination, Commerce found that heat-treated extruded aluminum products from China that meet the chemical specifications for 5050 grade aluminum alloy, regardless of producer, exporter, or importer, constitute later-developed merchandise that is circumventing the Orders, and is thus included within the scope of the Orders. As a result, Commerce determined that aluminum extrusions made from ACS-50 aluminum alloy material tempered through heat treating imported by Kota are covered by the scope of the Orders; July 20, 2017.

International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with December anniversary dates. In accordance with Commerce's regulations, we are initiating those administrative reviews.

DATES: Applicable March 14, 2019.

FOR FURTHER INFORMATION CONTACT: Brenda E. Brown, Office of AD/CVD Operations, Customs Liaison Unit, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, telephone: (202) 482-4735.

SUPPLEMENTARY INFORMATION:

Background

Commerce has received timely requests, in accordance with 19 CFR 351.213(b), for administrative reviews of various antidumping and countervailing duty orders and findings with December anniversary dates.

All deadlines for the submission of various types of information, certifications, or comments or actions by Commerce discussed below refer to the number of calendar days from the applicable starting time.

Notice of No Sales

If a producer or exporter named in this notice of initiation had no exports, sales, or entries during the period of review (POR), it must notify Commerce within 30 days of publication of this notice in the **Federal Register**. All submissions must be filed electronically at <http://access.trade.gov> in accordance

with 19 CFR 351.303.¹ Such submissions are subject to verification in accordance with section 782(i) of the Tariff Act of 1930, as amended (the Act). Further, in accordance with 19 CFR 351.303(f)(1)(i), a copy must be served on every party on Commerce's service list.

Respondent Selection

In the event Commerce limits the number of respondents for individual examination for administrative reviews initiated pursuant to requests made for the orders identified below, except for the review of the antidumping duty order on crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells and modules) from the People's Republic of China, Commerce intends to select respondents based on U.S. Customs and Border Protection (CBP) data for U.S. imports during the period of review. We intend to place the CBP data on the record within five days of publication of the initiation notice and to make our decision regarding respondent selection within 30 days of publication of the initiation **Federal Register** notice. Comments regarding the CBP data and respondent selection should be submitted seven days after the placement of the CBP data on the record of this review. Parties wishing to submit rebuttal comments should submit those comments five days after the deadline for the initial comments.

In the event Commerce decides it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Act:

In general, Commerce has found that determinations concerning whether particular companies should be "collapsed" (e.g., treated as a single entity for purposes of calculating antidumping duty rates) require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, Commerce will not conduct collapsing analyses at the respondent selection phase of this review and will not collapse companies at the respondent selection phase unless there has been a determination to collapse certain companies in a previous segment of this antidumping proceeding (e.g., investigation, administrative review, new shipper review or changed circumstances review). For any company subject to this

¹ See *Antidumping and Countervailing Duty Proceedings: Electronic Filing Procedures; Administrative Protective Order Procedures*, 76 FR 39263 (July 6, 2011).

review, if Commerce determined, or continued to treat, that company as collapsed with others, Commerce will assume that such companies continue to operate in the same manner and will collapse them for respondent selection purposes. Otherwise, Commerce will not collapse companies for purposes of respondent selection. Parties are requested to (a) identify which companies subject to review previously were collapsed, and (b) provide a citation to the proceeding in which they were collapsed. Further, if companies are requested to complete the Quantity and Value (Q&V) Questionnaire for purposes of respondent selection, in general each company must report volume and value data separately for itself. Parties should not include data for any other party, even if they believe they should be treated as a single entity with that other party. If a company was collapsed with another company or companies in the most recently completed segment of this proceeding where Commerce considered collapsing that entity, complete Q&V data for that collapsed entity must be submitted.

In the event Commerce limits the number of respondents for individual examination in the administrative review of the antidumping duty order on solar cells and modules from the People's Republic of China, Commerce intends to select respondents based on volume data contained in responses to Q&V Questionnaires. Further, Commerce intends to limit the number of Q&V Questionnaires issued in the review based on CBP data for U.S. imports of solar cells and solar modules from the People's Republic of China. The units used to measure the imported quantities of solar cells and solar modules are "number"; however, it would not be meaningful to sum the number of imported solar cells and the number of imported solar modules in attempting to determine the largest People's Republic of China exporters of subject merchandise by volume. Therefore, Commerce will limit the number of Q&V Questionnaires issued based on the import values in CBP data which will serve as a proxy for imported quantities. Parties subject to the review to which Commerce does not send a Q&V Questionnaire may file a response to the Q&V Questionnaire by the applicable deadline if they desire to be included in the pool of companies from which Commerce will select mandatory respondents. The Q&V Questionnaire will be available on Commerce's website at <http://trade.gov/enforcement/news.asp> on the date of publication of this notice in the **Federal Register**. The

responses to the Q&V Questionnaire must be received by Commerce no later than 21 days after the signature date of this initiation notice. Please be advised that due to the time constraints imposed by the statutory and regulatory deadlines for antidumping duty administrative reviews, Commerce does not intend to grant any extensions for the submission of responses to the Q&V Questionnaire. Parties will be given the opportunity to comment on the CBP data used by Commerce to limit the number of Q&V Questionnaires issued. We intend to place CBP data on the record within five days of publication of this notice in the **Federal Register**. Comments regarding the CBP data and respondent selection should be submitted seven days after placement of the CBP data on the record.

Deadline for Withdrawal of Request for Administrative Review

Pursuant to 19 CFR 351.213(d)(1), a party that has requested a review may withdraw that request within 90 days of the date of publication of the notice of initiation of the requested review. The regulation provides that Commerce may extend this time if it is reasonable to do so. Determinations by Commerce to extend the 90-day deadline will be made on a case-by-case basis.

Deadline for Particular Market Situation Allegation

Section 504 of the Trade Preferences Extension Act of 2015 amended the Act by adding the concept of particular market situation (PMS) for purposes of constructed value under section 773(e) of the Act.² Section 773(e) of the Act states that "if a particular market situation exists such that the cost of materials and fabrication or other processing of any kind does not accurately reflect the cost of production in the ordinary course of trade, the administering authority may use another calculation methodology under this subtitle or any other calculation methodology." When an interested party submits a PMS allegation pursuant to section 773(e) of the Act, Commerce will respond to such a submission consistent with 19 CFR 351.301(c)(v). If Commerce finds that a PMS exists under section 773(e) of the Act, then it will modify its dumping calculations appropriately.

Neither section 773(e) of the Act nor 19 CFR 351.301(c)(v) set a deadline for the submission of PMS allegations and supporting factual information. However, in order to administer section

773(e) of the Act, Commerce must receive PMS allegations and supporting factual information with enough time to consider the submission. Thus, should an interested party wish to submit a PMS allegation and supporting new factual information pursuant to section 773(e) of the Act, it must do so no later than 20 days after submission of initial responses to section D of the questionnaire.

Separate Rates

In proceedings involving non-market economy (NME) countries, Commerce begins with a rebuttable presumption that all companies within the country are subject to government control and, thus, should be assigned a single antidumping duty deposit rate. It is Commerce's policy to assign all exporters of merchandise subject to an administrative review in an NME country this single rate unless an exporter can demonstrate that it is sufficiently independent so as to be entitled to a separate rate.

To establish whether a firm is sufficiently independent from government control of its export activities to be entitled to a separate rate, Commerce analyzes each entity exporting the subject merchandise. In accordance with the separate rates criteria, Commerce assigns separate rates to companies in NME cases only if respondents can demonstrate the absence of both *de jure* and *de facto* government control over export activities.

All firms listed below that wish to qualify for separate rate status in the administrative reviews involving NME countries must complete, as appropriate, either a separate rate application or certification, as described below. For these administrative reviews, in order to demonstrate separate rate eligibility, Commerce requires entities for whom a review was requested, that were assigned a separate rate in the most recent segment of this proceeding in which they participated, to certify that they continue to meet the criteria for obtaining a separate rate. The Separate Rate Certification form will be available on Commerce's website at <http://enforcement.trade.gov/nme/nme-sep-rate.html> on the date of publication of this **Federal Register** notice. In responding to the certification, please follow the "Instructions for Filing the Certification" in the Separate Rate Certification. Separate Rate Certifications are due to Commerce no later than 30 calendar days after publication of this **Federal Register** notice. The deadline and requirement for submitting a Certification applies

² See Trade Preferences Extension Act of 2015, Public Law 114-27, 129 Stat. 362 (2015).

equally to NME-owned firms, wholly foreign-owned firms, and foreign sellers who purchase and export subject merchandise to the United States.

Entities that currently do not have a separate rate from a completed segment of the proceeding³ should timely file a Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. In addition, companies that received a separate rate in a completed segment of the proceeding that have subsequently made changes, including, but not limited to, changes to corporate structure, acquisitions of new companies or facilities, or changes to their official company name,⁴ should timely file a Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. The Separate Rate Status Application will be available on Commerce's website at <http://enforcement.trade.gov/nme/nme-sep-rate.html> on the date of publication of this **Federal Register** notice. In responding to the Separate Rate Status Application, refer to the instructions contained in the application. Separate Rate Status Applications are due to Commerce no later than 30 calendar days of publication of this **Federal**

Register notice. The deadline and requirement for submitting a Separate Rate Status Application applies equally to NME-owned firms, wholly foreign-owned firms, and foreign sellers that purchase and export subject merchandise to the United States.

For exporters and producers who submit a separate-rate status application or certification and subsequently are selected as mandatory respondents, these exporters and producers will no longer be eligible for separate rate status unless they respond to all parts of the questionnaire as mandatory respondents.

Furthermore, firms to which Commerce issues a Q&V questionnaire in the antidumping duty administrative review of solar cells and modules from the People's Republic of China must submit a timely and complete response to the Q&V questionnaire, in addition to a timely and complete Separate Rate Application or Certification in order to receive consideration for separate-rate status. In other words, Commerce will not give consideration to any timely Separate Rate Certification or Application made by parties to whom Commerce issued a Q&V questionnaire but who failed to respond in a timely

manner to the Q&V questionnaire. Exporters subject to the antidumping duty administrative review of solar cells and modules from the People's Republic of China to which Commerce does not send a Q&V questionnaire may receive consideration for separate-rate status if they file a timely Separate Rate Application or a timely Separate Rate Certification without filing a response to the Q&V questionnaire. All information submitted by respondents in the antidumping duty administrative review of solar cells and modules from the People's Republic of China is subject to verification. As noted above, the Separate Rate Certification, the Separate Rate Application, and the Q&V questionnaire will be available on Commerce's website on the date of publication of this notice in the **Federal Register**.

⁵ In the initiation notice that published on November 15, 2018 (83 FR 57411), Commerce inadvertently excluded clarifying language with respect to the initiation of this review. This notice serves as a correction to the November 15, 2018 initiation notice. Excluded from the antidumping duty order are certain oil country tubular goods (OCTG) from India both produced and exported by the GVN single entity (comprised of GVN Fuels Ltd., Maharashtra Seamless Ltd., and Jindal Pipes Ltd.). See *Certain Oil Country Tubular Goods from India: Notice of Correction to Amended Final Determination and Amendment of Antidumping Duty Order of Sales at Less Than Fair Value*, 82 FR 35182 (July 28, 2017). Accordingly, Commerce is initiating this administrative review with respect to certain OCTG (1) produced by the GVN single entity, and exported by any other company, or (2) produced by any other company and exported by the GVN single entity.

⁶ Commerce inadvertently listed two companies on one line in the initiation notice that published on February 6, 2019 (84 FR 2159). The companies listed above are individual companies.

⁷ Commerce inadvertently did not include these companies in the initiation notice that published on February 6, 2019 (84 FR 2159). Accordingly, Commerce is initiating this administrative review with respect to these companies.

⁸ On July 3, 2018, the United States Court of International Trade (CIT) entered its final judgement in *Changzhou Hawd Flooring Co., et al. v. United States*, sustaining, in part, the final results of remand redetermination pursuant to court order by Commerce pertaining to the less-than-fair-value (LTFV) investigation on multilayered wood flooring from the People's Republic of China. Pursuant to that CIT decision, effective July 13, 2018, Commerce excluded from the antidumping duty order, multilayered wood flooring that is produced and exported by Armstrong Wood Products (Kunshan) Co., Ltd. See *Multilayered Wood Flooring from the People's Republic of China: Notice of Court Decision Not in Harmony with the Second Amended Final Determination and Notice of Third Amended Final Determination of the Antidumping Duty Investigation*, 83 FR 35217 (July 25, 2018). Thus, Commerce is initiating an administrative review only on entries where Armstrong Wood Products (Kunshan) Co., Ltd. was (1) the producer but not the exporter, or (2) the exporter but not the producer of subject merchandise.

⁹ On July 3, 2018, the CIT entered its final judgement in *Changzhou Hawd Flooring Co., et al. v. United States*, sustaining, in part, the final results of remand redetermination pursuant to court order by Commerce pertaining to the LTFV investigation on multilayered wood flooring from the People's Republic of China. Pursuant to that CIT decision, effective July 13, 2018, Commerce excluded from the antidumping duty order, multilayered wood flooring that is produced and exported by Dunhua City Jisen Wood Industry Co., Ltd. See *Multilayered Wood Flooring from the People's Republic of China: Notice of Court Decision Not in Harmony with the Second Amended Final Determination and Notice of Third Amended Final Determination of the Antidumping Duty Investigation*, 83 FR 35217 (July 25, 2018). Thus, Commerce is initiating an administrative review only on entries where Dunhua City Jisen Wood Industry Co., Ltd. was (1) the producer but not the exporter, or (2) the exporter but not the producer of subject merchandise.

¹⁰ On July 3, 2018, the CIT entered its final judgement in *Changzhou Hawd Flooring Co., et al. v. Duty Absorption Reviews

During any administrative review covering all or part of a period falling between the first and second or third and fourth anniversary of the publication of an antidumping duty order under 19 CFR 351.211 or a determination under 19 CFR 351.218(f)(4) to continue an order or suspended investigation (after sunset review), the Secretary, if requested by a domestic interested party within 30 days of the date of publication of the notice of initiation of the review, will determine whether antidumping duties have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. The request must include the name(s) of the exporter or producer for which the inquiry is requested.

Gap Period Liquidation

For the first administrative review of any order, there will be no assessment of antidumping or countervailing duties on entries of subject merchandise entered, or withdrawn from warehouse,

the antidumping duty order, multilayered wood flooring that is produced and exported by Fine Furniture (Shanghai) Limited and Double F Limited. See *Multilayered Wood Flooring from the People's Republic of China: Notice of Court Decision Not in Harmony with the Second Amended Final Determination and Notice of Third Amended Final Determination of the Antidumping Duty Investigation*, 83 FR 35217 (July 25, 2018); see also *Multilayered Wood Flooring from the People's Republic of China: Amendment to Notice of Court Decision Not in Harmony with the Second Amended Final Determination and Notice of Third Amended Final Determination of the Antidumping Duty Investigation*, 83 FR 44027 (August 29, 2018). Thus, Commerce is initiating an administrative review only on entries where (1) Fine Furniture (Shanghai) Limited was the producer but not the exporter, or (2) Fine Furniture (Shanghai) Limited and Double F Limited was the exporter but not the producer of subject merchandise.

¹¹ *Habas Sinai ve Tibbi Gazlar Istihsal Endustrisi A.S.* was listed in the initiation notice that published on February 6, 2019 (84 FR 2159). However, entries of merchandise produced and exported by Habas Sinai ve Tibbi Gazlar Istihsal Endustrisi A.S. are excluded from the countervailing duty order. See *Steel Concrete Reinforcing Bar from the Republic of Turkey: Final Affirmative Countervailing Duty Determination Final Affirmative Critical Circumstances Determination*, 79 FR 54963 at 54964 (September 15, 2014). Commerce hereby clarifies that with respect to Habas Sinai ve Tibbi Gazlar Istihsal Endustrisi A.S., the initiation notice that published on February 6, 2019 covers entries of merchandise (1) produced by any other entity and exported by Habas Sinai ve Tibbi Gazlar Istihsal Endustrisi A.S. or (2) produced by Habas Sinai ve Tibbi Gazlar Istihsal Endustrisi A.S. and exported by another entity.

¹² We have not included the following companies with U.S. addresses for which an administrative review was improperly requested: (1) American Pacific Plywood, Inc., (2) Katy Green Trading Co, LLC, and (3) Samling Global USA, Inc.

for consumption during the relevant provisional-measures “gap” period, of the order, if such a gap period is applicable to the POR.

Administrative Protective Orders and Letters of Appearance

Interested parties must submit applications for disclosure under administrative protective orders in accordance with the procedures outlined in Commerce's regulations at 19 CFR 351.305. Those procedures apply to administrative reviews included in this notice of initiation. Parties wishing to participate in any of these administrative reviews should ensure that they meet the requirements of these procedures (e.g., the filing of separate letters of appearance as discussed at 19 CFR 351.103(d)).

Factual Information Requirements

Commerce's regulations identify five categories of factual information in 19 CFR 351.102(b)(21), which are summarized as follows: (i) Evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). These regulations require any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct. The regulations, at 19 CFR 351.301, also provide specific time limits for such factual submissions based on the type of factual information being submitted. Please review the final rule, available at <http://enforcement.trade.gov/frn/2013/1304frn/2013-08227.txt>, prior to submitting factual information in this segment.

Any party submitting factual information in an antidumping duty or countervailing duty proceeding must certify to the accuracy and completeness of that information.¹³ Parties are hereby reminded that revised certification requirements are in effect for company/government officials as well as their representatives. All segments of any antidumping duty or countervailing

¹³ See section 782(b) of the Act.

duty proceedings initiated on or after August 16, 2013, should use the formats for the revised certifications provided at the end of the *Final Rule*.¹⁴ Commerce intends to reject factual submissions in any proceeding segments if the submitting party does not comply with applicable revised certification requirements.

Extension of Time Limits Regulation

Parties may request an extension of time limits before a time limit established under Part 351 expires, or as otherwise specified by the Secretary. See 19 CFR 351.302. In general, an extension request will be considered untimely if it is filed after the time limit established under Part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. on the due date. Examples include, but are not limited to: (1) Case and rebuttal briefs, filed pursuant to 19 CFR 351.309; (2) factual information to value factors under 19 CFR 351.408(c), or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2), filed pursuant to 19 CFR 351.301(c)(3) and rebuttal, clarification and correction filed pursuant to 19 CFR 351.301(c)(3)(iv); (3) comments concerning the selection of a surrogate country and surrogate values and rebuttal; (4) comments concerning U.S. Customs and Border Protection data; and (5) quantity and value questionnaires. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, Commerce will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This modification also requires that an extension request must be made in a separate, stand-alone submission, and clarifies the circumstances under which Commerce will grant untimely-filed requests for the extension of time limits. These modifications are effective for all segments initiated on or after October 21, 2013. Please review the final rule, available at <http://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to
