#### SUPPLEMENTARY INFORMATION:

*Title:* Livestock, Poultry, and Grain Market News.

*OMB Number:* 0581-0033.

*Expiration Date of Approval:* 10-31-2019.

*Type of Request:* Request for extension of a currently approved information collection.

*Abstract:* The Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627), as amended, authorizes the Secretary of Agriculture to provide timely nationwide coverage of prices, supply, demands, trends, movement, and other pertinent information affecting the trading of livestock, poultry, meat, eggs, grain, and their related products, as well as locally produced and marketed products. The market reports compiled and disseminated by the Livestock, Poultry, and Grain Market News (LPGMN) Division provide current, unbiased, and factual information to all stakeholders in the U.S. agricultural industry. Market News reports assist producers, processors, wholesalers, retailers, and others to make informed production, purchasing, and sales decisions. LPGMN reports also promote orderly marketing by placing buyers and sellers on a more equal negotiation basis.

LPGMN reporters communicate with buyers and sellers of livestock, poultry, meat, eggs, grain, local products, and their respective commodities on a daily basis to accomplish the Division's mission. This communication and information gathering is accomplished through the use of telephone conversations, facsimile transmissions, face-to-face meetings, and email messages. The information provided by respondents initiates Market News reporting, which must be timely, accurate, unbiased, and continuous if it is to be meaningful to the industry. AMS collects information on price, supply, demand, trends, movement, and other information of livestock, poultry, meat, grain, eggs, local products, and their respective commodities. LPGMN uses one OMB approved form, LPS-90: "Monthly Dried Egg Solids Stocks

Report," to collect inventory information from commercially dried egg product plants throughout the United States. Cooperating firms voluntarily submit this form to LPGMN primarily via email and facsimile transmissions. For the remaining commodities covered under this information collection, information gathering is accomplished through the use of telephone conversations, facsimile transmissions, face-to-face meetings, and email messages. Since the form associated with this information collection was last updated, the program that oversees this collection reorganized that resulted in a program name change. The form associated with this information collection reflects this organizational change.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average .058 hours per response.

*Respondents:* Business or other for-profit and farms.

*Estimated Number of Respondents:* 2,939.

*Estimated Total Annual Responses:* 273,219.

*Estimated Number of Responses per Respondent:* 93 (rounded).

*Estimated Total Annual Burden on Respondents:* 15,970 (rounded).

*Comments are invited on:* (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record and posted without change.
