Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Integrated Iron and Steel Manufacturing Facilities (40 CFR part 63, subpart FFFFF) apply to new and existing sinter plants, blast furnaces, and basic oxygen process furnace shops at integrated iron and steel manufacturing facilities that are major sources of hazardous air pollutants (HAPs) or are co-located at major sources. New facilities include those that commenced either construction or reconstruction after the date of proposal. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP. This information is being collected to assure compliance with 40 CFR part 63, subpart FFFFF.

Form Numbers: None.

Respondents/affected entities:

Owners or operators of integrated iron and steel manufacturing facilities.

Respondent's obligation to respond: Mandatory (40 CFR 63, Subpart FFFFF).

Estimated number of respondents: 12 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 11,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,390,000 (per year), which includes \$52,700 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is a decrease in burden from the most-

recently approved ICR. The decrease in burden is due to a decrease in the number of respondents due to more accurate estimates of existing and anticipated new sources. The decrease in the number of sources also results in a decrease in the operation and maintenance costs. The overall result is a decrease in burden hours and costs.

Director, Regulatory Support Division.
