

practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Under the Clean Air Act, EPA granted partial waivers that allow gasoline containing greater than 10 volume percent ethanol and up to 15 volume percent ethanol (E15) to be introduced into commerce for use in model year 2001 and newer light-duty motor vehicles, subject to certain conditions. EPA issued a final rule establishing several measures to deter the use of E15 in ineligible vehicles and equipment (misfueling). The rule (1) prohibits the use of gasoline containing more than 10 volume percent ethanol in vehicles and equipment that are not covered by the partial waiver decisions, (2) requires all E15 dispensers to have a specific label indicating eligible vehicles, (3) requires E15 and related product transfer documents to contain certain information, and (4) requires ethanol producers, gasoline refiners, blenders, and related parties to conduct a survey of retail stations to monitor compliance with these requirements and submit periodic reports. In addition, to comply with conditions in the partial waivers, each survey party must implement a misfueling mitigation plan. This ICR covers the associated recordkeeping and reporting requirements.

Form Numbers: None.

Respondents/affected entities: Ethanol producers and importers, gasoline refiners, importers, terminals, distributors, retailers, and wholesale purchaser-consumers.

Respondent's obligation to respond: Mandatory (40 CFR part 80).

Estimated number of respondents: 2,604 (total).

Frequency of response: On occasion, quarterly, annually.

Total estimated burden: 14,770 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$1,841,445 (per year), includes \$128,125 in annualized capital or operation & maintenance costs.

Changes in estimates: There is an increase of 1,500 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to an adjustment to an hourly estimate and the addition of some burdens not addressed in the current ICR.

Dated: March 12, 2019.

Byron J. Bunker,

Director, Compliance Division, Office of Transportation and Air Quality, Office of Air and Radiation.

Proposed Information Collection Request; Comment Request; National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), "National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings" (EPA ICR No. 1765.09, OMB Control No. 2060-0353) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). Before doing so, the EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through January 31, 2020. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before May 17, 2019.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OAR-2003-0120, online using <https://www.regulations.gov> (our preferred method), by email to [\[epa.gov\]\(mailto:epa.gov\), or by mail to: EPA Docket Center \(EPA/DC\), Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.](mailto:a-and-r-docket@</p>

<div data-bbox=)

The EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Ms. Kim Teal, Office of Air and Radiation, Office of Air Quality Planning and Standards, Mail Code D243-04, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-5580; fax number: (919) 541-4991; email address: teal.kim@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center (EPA/DC), EPA WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is (202) 566-1744. For additional information about the EPA's public docket, visit <https://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The EPA is required under section 183(e) of the Clean Air Act (CAA) to regulate volatile organic compound emissions from the use of consumer and commercial products. Pursuant to CAA section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Automobile refinish coatings were included on the list, and the standards for such coatings are codified at 40 CFR part 59, subpart B. The reports required under the standards enable the EPA to identify all coating and coating component manufacturers and importers in the United States and to determine which coatings and coating components are subject to the standards, based on dates of manufacture.

Form numbers: None.

Respondents/affected entities: Entities potentially affected by this action as respondents are manufacturers and importers of automobile refinish coatings and coating components. Manufacturers of automobile refinish coatings and coating components fall within standard industrial classification (SIC) 2851, "Paints, Varnishes, Lacquers, Enamels, and Allied Products," and North American Industry Classification System (NAICS) code 325510, "Paint and Coating Manufacturing." Importers of automobile refinish coatings and coating components fall within SIC 5198, "Wholesale Trade: Paints, Varnishes, and Supplies," NAICS code 422950, "Paint, Varnish, and Supplies Wholesalers," and NAICS code 444120, "Paint and Wallpaper Stores."

Respondent's obligation to respond: Mandatory, 40 CFR part 59, subpart B.

Estimated number of respondents: 4 (total).

Frequency of response: On occasion.

Total estimated burden: 14 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$924 (per year), includes \$0 annualized capital or operation and maintenance costs.

Changes in estimates: There is no increase in hours in the total estimated respondent burden compared with the ICR currently approved by OMB.

Dated: March 8, 2019.

David Cozzie,

Acting Director, Sector Policies and Programs Division, Office of Air Quality Planning and Standards.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Coke Oven Pushing, Quenching, and Battery Stacks (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Coke Oven Pushing, Quenching, and Battery Stacks (EPA ICR Number 1995.07, OMB Control Number 2060-0521), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2019. Public comments were previously requested, via the **Federal Register**, on May 30, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 17, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2014-0084, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A,

Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Coke Oven Pushing, Quenching, and Battery Stacks (40 CFR part 63, subpart CCCCC) apply to pushing, soaking, quenching, and battery stacks on both existing and new coke oven batteries (coke plants) that are major sources of hazardous air pollutant (HAP) emissions. New facilities include those that commenced construction or reconstruction after the date of proposal. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 63, subpart CCCCC.

Form Numbers: None.

Respondents/affected entities: Owners or operators of coke oven batteries at coke plants that are a major source of HAP.

Respondent's obligation to respond: Mandatory (40 CFR 63, Subpart CCCCC).

Estimated number of respondents: 16 (total).

Frequency of response: Initially, occasionally, quarterly and semi-annual.

Total estimated burden: 27,200 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,240,000 (per year), which includes \$143,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the respondent burden as currently identified in the OMB Inventory of Approved Burdens.
