

Abstract: The EPA is required under section 183(e) of the Clean Air Act (CAA) to regulate volatile organic compound emissions from the use of consumer and commercial products. Pursuant to CAA section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Automobile refinish coatings were included on the list, and the standards for such coatings are codified at 40 CFR part 59, subpart B. The reports required under the standards enable the EPA to identify all coating and coating component manufacturers and importers in the United States and to determine which coatings and coating components are subject to the standards, based on dates of manufacture.

Form numbers: None.

Respondents/affected entities: Entities potentially affected by this action as respondents are manufacturers and importers of automobile refinish coatings and coating components. Manufacturers of automobile refinish coatings and coating components fall within standard industrial classification (SIC) 2851, "Paints, Varnishes, Lacquers, Enamels, and Allied Products," and North American Industry Classification System (NAICS) code 325510, "Paint and Coating Manufacturing." Importers of automobile refinish coatings and coating components fall within SIC 5198, "Wholesale Trade: Paints, Varnishes, and Supplies," NAICS code 422950, "Paint, Varnish, and Supplies Wholesalers," and NAICS code 444120, "Paint and Wallpaper Stores."

Respondent's obligation to respond: Mandatory, 40 CFR part 59, subpart B.

Estimated number of respondents: 4 (total).

Frequency of response: On occasion.

Total estimated burden: 14 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$924 (per year), includes \$0 annualized capital or operation and maintenance costs.

Changes in estimates: There is no increase in hours in the total estimated respondent burden compared with the ICR currently approved by OMB.

Dated: March 8, 2019.

David Cozzie,

Acting Director, Sector Policies and Programs Division, Office of Air Quality Planning and Standards.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Coke Oven Pushing, Quenching, and Battery Stacks (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Coke Oven Pushing, Quenching, and Battery Stacks (EPA ICR Number 1995.07, OMB Control Number 2060-0521), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2019. Public comments were previously requested, via the **Federal Register**, on May 30, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 17, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2014-0084, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A,

Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Coke Oven Pushing, Quenching, and Battery Stacks (40 CFR part 63, subpart CCCCC) apply to pushing, soaking, quenching, and battery stacks on both existing and new coke oven batteries (coke plants) that are major sources of hazardous air pollutant (HAP) emissions. New facilities include those that commenced construction or reconstruction after the date of proposal. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 63, subpart CCCCC.

Form Numbers: None.

Respondents/affected entities: Owners or operators of coke oven batteries at coke plants that are a major source of HAP.

Respondent's obligation to respond: Mandatory (40 CFR 63, Subpart CCCCC).

Estimated number of respondents: 16 (total).

Frequency of response: Initially, occasionally, quarterly and semi-annual.

Total estimated burden: 27,200 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,240,000 (per year), which includes \$143,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the respondent burden as currently identified in the OMB Inventory of Approved Burdens.

This increase is not due to any program changes. The increase in estimated respondent burden is due to adjustment to more accurately reflect the burden associated with rule requirements for observations of opacity prior to pushing coke from an oven. The previous ICR included an assumption that the burden for one respondent could not be attributed to the rule based on voluntary monitoring conducted prior to the final rule, and included person-hrs for this activity based on the assumption that each coke plant has 2.8 batteries. This ICR estimates burden for all respondents and adjusts the person-hrs to reflect one hour per battery per coke plant per day, assuming 3.1 batteries per coke plant, based on new data provided by Agency experts and confirmed by industry representatives.

The total annual responses have decreased due to a decrease in the number of respondents, based on the closure of one facility in the past three years, as identified by Agency experts and confirmed by trade associations and facility representatives. There is also an adjustment decrease in operating and maintenance costs, which is due to the decrease in the number of respondents.

Finally, there is a decrease in Agency burden from the prior ICR, due to an adjustment to more accurately reflect the rule requirements for quarterly reporting, which apply only to coke plants utilizing by-product recovery ovens. The previous ICR included an assumption that all coke plants, including those with non-recovery batteries, would submit the quarterly report. This ICR includes the burden only for those coke plants using by-product recovery ovens.

Courtney Kerwin,

Director, Regulatory Support Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2019-0040; FRL-9989-77]

Pesticide Experimental Use Permit; Receipt of Application; Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's receipt of application 45728-EUP-R from Taminco US LLC, requesting an experimental use permit (EUP) for chlormequat chloride. EPA has determined that the permit may be of

regional or national significance. Therefore, because of the potential significance, EPA is seeking comments on this application.

DATES: Comments must be received on or before April 17, 2019.

ADDRESSES: Submit your comments, identified by Docket Identification (ID) Number EPA-HQ-OPP-EPA-2019-0012, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>. Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Michael L. Goodis, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; main telephone number: (703) 305-7090; email address: RDfRNNotices@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. Although this action may be of particular interest to those persons who conduct or sponsor research on pesticides, EPA has not attempted to describe all the specific entities that may be affected by this action.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a

copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, EPA seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide discussed in this document, compared to the general population.

II. What action is the Agency taking?

Under section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), 7 U.S.C. 136c, EPA can allow manufacturers to field test pesticides under development. Manufacturers are required to obtain an EUP before testing new pesticides or new uses of pesticides if they conduct experimental field tests on more than 10 acres of land or more than one surface acre of water.

Pursuant to 40 CFR 172.11(a), EPA has determined that the following EUP application may be of regional or national significance, and therefore is seeking public comment on the EUP application:

Submitter: Taminco US LLC, (45728-EUP-R).

Pesticide Chemical: Chlormequat chloride.

Summary of Request: Taminco US LLC has submitted a request for a crop-destruct EUP for an end-use product, Adjust SL. Adjust SL contains the active ingredient chlormequat chloride which is a plant growth regulator. The EUP is applied via spray for use on wheat, barley, rye, oats, triticale and grasses grown for seed in the states of California, Indiana, Kansas, Kentucky, Michigan, North Dakota, and Oregon. The maximum quantity of Adjust SL to be used for the program is 14,000 fl oz gallons (over two seasons). The number of treated acres per year is 10 per state.
