

Changes in the Estimates: There is an increase in the total estimated respondent burden compared with the ICR currently approved by OMB. The increase in burden is not due to any program changes, but is due to an adjustment. The adjustment increase in burden from the most-recently approved ICR is due to an increase in the number of new or modified sources due to continued industry growth. In addition, the burden estimate for reading and understanding the rule requirements was adjusted to reflect the time it would take existing respondents to review the rule each year. The overall result is an increase in burden and costs.

Abstract: The Landfill Methane Outreach Program (LMOP), created by EPA in 1994, is a voluntary program designed to encourage and facilitate the development of environmentally and economically sound landfill gas (LFG) energy projects across the United States to reduce methane emissions from landfills. LMOP meets these objectives by educating local governments and communities about the benefits of LFG recovery and use; building partnerships between state agencies, industry, energy service providers, local communities, and other stakeholders interested in developing this valuable resource in their community; and providing tools to evaluate LFG energy potential. EPA signs voluntary Memoranda of Understanding (MOUs) with these organizations to enlist their support in promoting cost-effective LFG utilization. The information collection includes completion and submission of the MOU, periodic information updates, and annual completion and submission of basic information on landfill methane projects with which the organizations are involved as an effort to update the LMOP Landfill and Landfill Gas Energy

Project Database. The information collection is to be utilized to maintain up-to-date data and information about LMOP Partners and LFG energy projects with which they are involved. The data will also be used by the public to access LFG energy project development opportunities in the United States. In addition, the information collection will assist the program in evaluating the reduction of methane emissions from landfills.

Form Numbers: 5900-157, 5900-158, 5900-159, 5900-160, and 5900-161.

Respondents/affected entities: Private companies and municipalities that own or operate landfills; manufacturers and suppliers of equipment/knowledge to capture and utilize LFG; utility companies; end-users of energy from landfills; developers of LFG energy projects; State agencies; and other LFG energy stakeholders.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 1,137 (total).

Frequency of response: On occasion.

Total estimated burden: 2,270 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$194,890 (per year) total annual respondent burden, includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is decrease of 252 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to transition to an electronic collection of updates to landfill methane projects with which the organizations are involved.

Notice of Availability of the Draft Environmental Impact Statement for the Expansion and Modernization of the San Luis I Land Port of Entry, San Luis, Arizona

AGENCY: Public Buildings Service, (PBS), General Services Administration (GSA).

ACTION: Notice of availability; Announcement of public meeting.

SUMMARY: This notice announces the availability, and opportunity for public review and comment, of the Draft Environmental Impact Statement (DEIS), which analyzes the potential environmental impacts of a proposal by GSA to expand and modernize the San Luis I Land Port of Entry (LPOE) located in San Luis, Arizona along the U.S.-Mexico international border. The DEIS describes the project purpose and need, the alternatives being considered, and the potential impacts of each alternative on the existing environment. As the lead agency for this undertaking, GSA is acting on behalf of its major tenant at the facility, the Department of Homeland Security's U.S. Customs and Border Protection (CBP).

DATES: A public meeting for the DEIS will be held on Wednesday, April 17, 2019, from 4:00 p.m. to 6:00 p.m., Mountain Standard Time (MST). Interested parties are encouraged to attend and provide written comments on the DEIS. The comment period for the DEIS ends on Monday, April 29, 2019.

ADDRESSES: The public meeting will be held in the City Council Chambers at 1090 E Union Street, San Luis, AZ. The meeting will be an informal open house, where visitors may come, receive information, and provide written comments.

Further information, including an electronic copy of the DEIS may be found online on the following website: <https://www.gsa.gov/about-us/regions/welcome-to-the-pacific-rim-region-9/land-ports-of-entry/san-luis-i-land-port-of-entry>.
