- U.S. Fish and Wildlife Service, 500 Gold Avenue SW, Room 6034, Albuquerque.
- U.S. Fish and Wildlife Service, 10711 Burnet Road, Suite 200, Austin, TX 78758; via phone at 512–490–0057; or via the Federal Relay Service at 800–877–8339.

**SUPPLEMENTARY INFORMATION:** We, the U.S. Fish and Wildlife Service (Service), make available the draft Environmental Assessment (dEA) and the Davis Ranch Habitat Conservation Plan (HCP) for development of the 724-acre property in Bexar County, Texas (permit area). The Davis McCrary Property Trust (applicant) has applied to the Service for an incidental take permit (ITP); TE 2044140 under section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.). The requested ITP, which would be in effect for a period of 30 years, if granted, would authorize incidental take of the federally endangered golden-cheeked warbler (*Setophaga* (=*Dendroica*) *chrysoparia*) (covered species). The proposed incidental take would result from activities associated with otherwise lawful activities, including commercial and residential development on the 724-acre ranch in Bexar County, Texas, as a result of clearing of vegetation, earth-moving activities, and construction of structures (covered activities).

We make available the dEA for the Davis Ranch HCP and the associated HCP, in accordance with the requirements of the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 et seq.), we advise the public that:

1. We have gathered the information necessary to determine impacts and formulate alternatives for the dEA related to potential issuance of an ITP to the applicant; and
2. The applicant has developed a HCP as part of the application for an ITP, which describes the measures the applicant has agreed to take to minimize and mitigate the impacts of incidental take of the covered species to the maximum extent practicable pursuant to section 10(a)(1)(B) of the ESA.

The applicant has applied for an ITP that would be in effect for 30 years, if granted, and would authorize incidental take of the federally endangered golden-cheeked warbler. As described in the HCP, the proposed incidental take would result from activities associated with otherwise lawful activities, including commercial and residential development on the 724-acre ranch in Bexar County, Texas, as a result of covered activities. The dEA considers the direct, indirect, and cumulative effects of implementation of the HCP, including the measures that will be implemented to minimize and mitigate, to the maximum extent practicable, the impacts of the incidental take of the covered species.

**Proposed Action**

The proposed action involves the issuance of an ITP by the Service for the covered activities in the permit area, pursuant to section 10(a)(1)(B) of the Act. The ITP would cover incidental take of the covered species associated with construction of commercial and residential development within the permit area.

The requested term of the permit is 30 years. To meet the requirements of a section 10(a)(1)(B) ITP, the applicant has developed and proposes to implement its HCP. The HCP describes the conservation measures the applicant has agreed to undertake to minimize and mitigate, to the maximum extent practicable, the impacts of the incidental take of the covered species, and ensures that incidental take will not appreciably reduce the likelihood of the survival and recovery of the covered species in the wild.

At full implementation, the applicant would mitigate up to approximately 1,176 acres in an approved golden-cheeked warbler habitat conservation bank.

**Alternatives**

We are considering one alternative to the proposed action as part of this process:

*No Action:* No ITP would be issued. Under a No Action alternative, the Service would not issue the requested ITP, and the applicant would either not construct the development or would construct the development avoiding all impacts to the golden-cheeked warbler. Therefore, the applicant would not implement the conservation measures described in the HCP.

SUPPLEMENTARY INFORMATION: BIA published a notice of availability of the DEIS on November 21, 2018. See 83 FR 58783. Public review of the DEIS is part of the administrative process for the evaluation of the Tribe’s application to the BIA for the Federal trust acquisition of approximately 60 acres in the Township of Fruitport, Muskegon County, Michigan, upon which the Tribe proposes to develop a casino, hotel, parking, and other supporting facilities. The BIA held a public meeting on the DEIS on December 12, 2018 at Fruitport Middle School, 3113 E Pontaluna Road, Fruitport, Michigan 49415.

Background: The Proposed Project consists of the following components: (1) The transfer of an approximately 60-acre property from fee to trust status; (2) issuance of a Secretarial Determination by the Secretary of the Interior (Secretary) under Section 20 of the Indian Gaming Regulatory Act (IGRA) that gaming on the project site would be in the best interest of the Tribe and not detrimental to the surrounding community (25 U.S.C. 2719(b)(1)(A)); and (3) development of the trust parcel and adjacent land owned by the Tribe, totaling approximately 86.5 acres, with a variety of uses including a casino, hotel, conference center, parking, and other supporting facilities. At full build-out, the proposed casino facility would include approximately 149,069 square feet of gaming floor; a hotel with 220 guest rooms; a 250-seat buffet, as well as a café, sports bar, food court, and other food and beverage providers; and an approximately 38,790-square foot convention center. Access to the project site would be provided via two driveways: One along Harvey Street and one along East Ellis Road. Five service driveways, not for public use, would be located on East Ellis Road.

The following alternatives are considered in the DEIS: (1) Proposed Project; (2) Reduced Intensity Alternative; (3) Non-Gaming Alternative; (4) Custer Site Alternative, and (5) No Action/No Development. Environmental issues addressed in the DEIS include geology and soils, water resources, air quality, biological resources, cultural and paleontological resources, socioeconomic conditions (including environmental justice), transportation and circulation, land use, public services, noise, hazardous materials, aesthetics, cumulative effects, and indirect and growth-inducing effects.

Locations where the DEIS is available for review: The DEIS will be available for review at the Fruitport Public Library located at 605 Eclipse Blvd., Fruitport, Michigan 53511, and online at www.littleriverEIS.com. To obtain a compact disk copy of the DEIS, please provide your name and address in writing to Mr. Scott Doig, Bureau of Indian Affairs, Midwest Regional Office.
