2. What are the related health and safety concerns with automation and associated technologies in mining?

3. What gaps exist in occupational health and safety research related to automation and associated technologies?

   While the above questions have priority, NIOSH also seeks public comment on the state of the technology and the health and safety concerns associated with the following specific topics related to automation:

   4. What are the major safety concerns associated with humans working near or interacting with automated mining equipment? Have other organizations addressed the safety concerns associated with humans working near or interacting with automated mining equipment? If yes, please provide a description.

   5. What research has been conducted, or approaches taken, to address the potential for human cognitive processing confusion, misunderstanding, and task or information overload associated with monitoring or controlling automated mining equipment or other monitoring systems (e.g., fleet management, environmental monitoring, safety systems, health care systems)?

   6. What is the state of the art for display methodologies and technologies to provide mine personnel and equipment operators with information on operational status, location, and sensory and environmental feedback from automated mining equipment or systems?

   7. What sensor technology improvements are needed to ensure the safety of humans working on or near automated equipment?

   8. How are existing methods of big data analytics applied to automated mining equipment or systems? Are there health and safety benefits to these applications? If yes, please describe.

   9. Are there any needed improvements to guidelines or industry standards for automated mining system safe design and operation practices? If yes, please describe.

   10. Are there any needed improvements to training materials, training protocols, and operating procedures for system safety design principles related to automated mining systems? If yes, please describe.

   NIOSH is seeking feedback on the research areas identified above and on any additional knowledge gaps, ideas, innovations, or practice improvements not addressed by these research areas, as well as feedback on how the research areas should be prioritized. NIOSH is especially interested in any creative and new ideas as they relate to protecting the health and safety of miners today and in the future. When possible, NIOSH asks that commenters provide data and citations of relevant research to justify their comments. NIOSH is also seeking key scientific articles addressing worker safety and health related to mining automation that could inform our research activities.

Medicare and Medicaid Programs: Approval of an Application From the Accreditation Association for Hospitals and Health Systems/Healthcare Facilities Accreditation Program for Continued CMS Approval of Its Hospital Accreditation Program

AGENCY: Centers for Medicare and Medicaid Services, HHS.

ACTION: Final notice.

SUMMARY: This final notice announces our decision to approve the Accreditation Association for Hospitals and Health Systems/Healthcare Facilities Accreditation Program (AAHHS/HFAP) (formerly known as the American Osteopathic Association/Healthcare Facilities Accreditation Program (AOA/HFAP)) for continued recognition as a national accrediting organization for hospitals that wish to participate in the Medicare or Medicaid programs.

DATES: This final notice is effective September 25, 2019 through September 25, 2023.

FOR FURTHER INFORMATION CONTACT: Tara Lemos (410) 786–3030, Mary Ellen Palowitch (410) 786–4496, or Monda Shaver, (410) 786–3410.

SUPPLEMENTARY INFORMATION:

I. Background

A healthcare provider may enter into an agreement with Medicare to participate in the program as a hospital provided certain requirements are met. Section 1861(e) of the Social Security Act (the Act) establishes criteria for providers seeking participation in Medicare as a hospital. Regulations concerning Medicare provider agreements in general are at 42 CFR part 488 and those pertaining to the survey and certification for Medicare participation of providers and certain types of suppliers are at 42 CFR part 488. The regulations at 42 CFR part 488 specify the specific conditions that a provider must meet to participate in the Medicare program as a hospital.

Hospitals that wish to be paid under the Medicaid program must be approved to participate in Medicare, in accordance with 42 CFR 440.10(a)(3)(iii).

Generally, to enter into a Medicare hospital provider agreement, a facility must first be certified as complying with the conditions set forth in part 482 and recommended to the Centers for Medicare & Medicaid Services (CMS) for participation by a State survey agency. Thereafter, the hospital is subject to periodic surveys by a State survey agency to determine whether it continues to meet these conditions. However, there is an alternative to certification surveys by State agencies. Accreditation by a nationally recognized Medicare accreditation program approved by CMS may substitute for both initial and ongoing state review.

Section 1865(a)(1) of the Act provides that, if the Secretary of the Department of Health and Human Services (the Secretary) finds that accreditation of a provider entity by an approved national accrediting organization meets or exceeds all applicable Medicare conditions, we may treat the provider entity to be in compliance.

Accreditation by an accrediting organization is voluntary and is not required for Medicare participation.

Part 488, subpart A, implements the provisions of section 1865 of the Act and requires that a national accrediting organization applying for approval of its Medicare accreditation program must provide CMS with reasonable assurance that the accrediting organization requires its accredited provider entities to meet requirements that are at least as stringent as the Medicare conditions. Our regulations concerning the approval of accrediting organizations are set forth at § 488.5. The regulations at §
AAHHS/HFAP's requirements met or exceeded the Medicare CoP for hospitals. There were no comments submitted.

IV. Provisions of the Final Notice

A. Differences Between AAHHS/HFAP's Standards and Requirements for Accreditation and Medicare Conditions and Survey Requirements

We compared AAHHS/HFAP’s hospital accreditation requirements and survey process with the Medicare CoP at part 482, and the survey and certification process requirements of parts 488 and 489. AAHHS/HFAP’s standards crosswalk, which maps AAHHS/HFAP’s standards with the corresponding requirements under the Medicare CoP, was also examined to ensure that the appropriate CMS regulation was included in citations as appropriate. We reviewed and evaluated AAHHS/HFAP’s hospital application, as described in section III of this final notice. This review yielded the following areas where, as of the date of this notice, AAHHS/HFAP has revised its standards and certification processes:

- § 842.13(e), to ensure that AAHHS/HFAP’s crosswalk reflects the comparable restraint and seclusion requirements.
- § 842.13(h)(1) through § 842.13(h)(4) regarding patient visitation rights, to ensure that redundant language in its standards is removed.
- § 842.15(d)(1)(i) regarding emergency preparedness training, to ensure AAHHS/HFAP’s standards require a comparable standard to this CMS requirement.
- § 842.15(d)(1)(iii) regarding documentation of emergency preparedness training, to ensure AAHHS/HFAP’s standards require compliance with this CMS requirement.
- § 842.15(d)(1)(iv) regarding demonstration of staff knowledge of emergency preparedness procedures, to ensure AAHHS/HFAP’s standards require compliance with these CMS requirements regarding staff emergency preparedness testing.
- § 842.15(e)(3), to clarify its requirement related to maintaining an emergency onsite fuel source.

AAHHS/HFAP’s standards require compliance with this CMS requirement.
notice, we have determined that AAHHS/HFAP’s hospital program requirements meet or exceed our requirements. Therefore, we approve AAHHS/HFAP as a national accreditation organization for hospitals that request participation in the Medicare program, effective September 25, 2019 through September 25, 2023.

V. Collection of Information Requirements
This document does not impose information collection requirements, that is, reporting, recordkeeping or third-party disclosure requirements. Consequently, there is no need for review by the Office of Management and Budget under the authority of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

Dated: March 12, 2019.

Seema Verma,
Administrator, Centers for Medicare & Medicaid Services.

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS’ intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (the PRA), federal agencies are required to publish notice in the Federal Register concerning each proposed collection of information (including each proposed extension or reinstatement of an existing collection of information) and to allow 60 days for public comment on the proposed action. Interested persons are invited to send comments regarding our burden estimates or any other aspect of this collection of information, including the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, the accuracy of the estimated burden, ways to enhance the quality, utility, and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments must be received by May 17, 2019.

ADDRESSES: When commenting, please reference the document identifier or OMB control number. To be assured consideration, comments and recommendations must be submitted in any one of the following ways:

1. Electronically. You may send your comments electronically to http://www.regulations.gov. Follow the instructions for “Comment or Submission” or “More Search Options” to find the information collection document(s) that are accepting comments.

2. By regular mail. You may mail written comments to the following address: CMS, Office of Strategic Operations and Regulatory Affairs, Division of Regulations Development, Attention: Document Identifier/OMB Control Number ____, Room C4–26–05, 7500 Security Boulevard, Baltimore, Maryland 21244–1850.

To obtain copies of a supporting statement and any related forms for the proposed collection(s) summarized in this notice, you may make your request using one of following:

2. Email your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@cms.hhs.gov.

FOR FURTHER INFORMATION CONTACT:
William N. Parham at (410) 786–4669.

SUPPLEMENTARY INFORMATION:

Contents
This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection’s supporting statement and associated materials (see ADDRESSES).

CMS–10157 The HIPAA Eligibility Transaction System (HETS)

Under the PRA (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a
