

Scup, and Black Sea Bass Advisory Panels on April 2, 2019 (see **DATES** and **ADDRESSES**). The purpose of this meeting is to discuss potential changes to commercial management measures, including the state-by-state commercial quota allocations managed by the Atlantic States Marine Fisheries Commission, federal in-season closure regulations, and other measures. The Council recently initiated an amendment to consider these and other issues; however, they agreed to postpone development of management alternatives until later in the year after the Atlantic States Marine Fisheries Commission's Black Sea Bass Commercial Working Group has made further progress on options for revisions to the state-by-state commercial quota allocations.

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526-5251, at least 5 days prior to the meeting date.
