(4) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimate of the total number of respondents is 111,600. About 90% of respondents (100,670) will have no identity theft and will complete the short interview with an average burden of six minutes. Among the 10% of respondents (10,940) who experience at least one incident of identity theft, the time to ask the detailed questions regarding the aspects of the most recent incident of identity theft is estimated to take an average of fifteen minutes. Respondents will be asked to respond to this survey only once during the six month period. The burden estimate is based on data from prior administrations of the ITS.

(5) *An estimate of the total public burden (in hours) associated with the collection:* There is an estimated 12,800 total burden hours associated with this collection.
