

DEPARTMENT OF AGRICULTURE**Submission for OMB Review;
Comment Request**

March 20, 2019.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by April 24, 2019 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@omb.eop.gov* or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: FNS Generic Clearance for Pre-Testing, Pilot, and Field Testing Studies.

OMB Control Number: 0584–0606.

Summary of Collection: The Food and Nutrition Service (FNS) is requesting approval from the Office of Management and Budget (OMB) to conduct pre-testing of surveys using a generic clearance that will allow FNS to conduct a variety of data-gathering activities aimed at improving the quality and usability of information collection

instruments associated with research and analysis activities. The procedures utilized to this effect include but are not limited to experiments with levels of incentives for study participants, tests of various types of survey operations, focus groups, pilot testing, exploratory interviews, experiments with questionnaire design, and usability testing of electronic data collection instruments. The authorizing statutes for data collections submitted under this generic clearance are: The Healthy, Hunger-Free Kids Act of 2010 (Pub. L. 111–296, Sec 305), and Section 17 (7 U.S.C. 2026) (a)(1) of the Food and Nutrition Act of 2008.

Need and Use of the Information: The information collected will be used to pre-test, evaluate and improve the quality of surveys instruments and provide reassessments before they are conducted. This generic testing clearance is a helpful vehicle for evaluating questionnaires/assessments and various data collection procedures. It will allow FNS to take advantage of a variety of methods to identify questionnaire/assessment and procedural problems, suggest solutions, and measure the relative effectiveness of alternative solutions. The quality and timeliness of data collections will be improved by conducting pre-testing in advance of full surveys.

Description of Respondents: Individual or households; Business or other for-profit; Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents: 6,600.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 4,500.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE**Animal and Plant Health Inspection Service**

[Docket No. APHIS–2018–0004]

Importation of Fresh Jujube Fruit From China Into the Continental United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that we have prepared a pest risk analysis that evaluates the risks

associated with the importation of fresh jujube fruit from China into the continental United States. Based on the analysis, we have determined that the application of one or more phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh jujube fruit from China. We are making the pest risk analysis available to the public for review and comment.

DATES: We will consider all comments that we receive on or before May 24, 2019.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2018-0004>.

- *Postal Mail/Commercial Delivery:*

Send your comment to Docket No. APHIS–2018–0004, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2018-0004> or in our reading room, which is located in Room 1141 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: Mr. Tony Roman, Senior Regulatory Policy Specialist, RCC, IRM, PHP, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737–1236; (301) 851–2242.

SUPPLEMENTARY INFORMATION:**Background**

Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations) the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

Section 319.56–4 contains a performance-based process for approving the importation of certain fruits and vegetables that, based on the findings of a pest risk analysis, can safely be imported into the United States subject to one or more of the five designated phytosanitary measures listed in paragraph (b) of that section.

APHIS received a request from the national plant protection organization (NPPO) of China to allow the importation of fresh jujube fruit (*Ziziphus jujuba* Miller (Rhamnaceae)) from China into the continental United States. As part of our evaluation of China's request, we have prepared a pest risk assessment (PRA) to identify the pests of quarantine significance that could follow the pathway of the importation of fresh jujube fruit into the continental United States from China. Based on the PRA, a risk management document (RMD) was prepared to identify phytosanitary measures that could be applied to the fresh jujube fruit to mitigate the pest risk.

We have concluded that fresh jujube fruit can be safely imported from China into the continental United States using one or more of the five designated phytosanitary measures listed in § 319.56–4(b). The NPPO of China would have to enter into an operational workplan with APHIS that spells out the daily procedures the NPPO of China will take to implement the measures identified in the RMD. These measures are summarized below:

- Importation in commercial consignments only.
- Registration of places of production and packinghouses with the NPPO of China.
- Limiting registered places of production to locations north of the 33rd parallel (APHIS considers China to be free of *Bactrocera* spp. fruit flies above this parallel), or alternatively, requiring phytosanitary treatment for *Bactrocera correcta*, *B. cucurbitae*, and *B. dorsalis* in accordance with 7 CFR part 305, which contains APHIS' phytosanitary treatment regulations.¹
- The NPPO maintaining a national fruit fly monitoring program.
- Grove sanitation and trapping for fruit flies in places of production that are located in a province in which *Carpomyia vesuviana* (Ber fruit fly) is known to be present.
- Recordkeeping of fruit fly detections in registered places of production.
- Pre-export inspection by the NPPO of China and issuance of a phytosanitary certificate.
- Port of entry inspections.

¹ Irradiation at 400 Gy is currently the only approved phytosanitary treatment for these three species of fruit flies. Cold treatment is currently being evaluated as an alternate treatment.

• Importation under a permit issued by APHIS.

Each of the pest risk mitigation measures that would be required, along with evidence of their efficacy in removing pests of concern from the pathway, are described in detail in the RMD.

Therefore, in accordance with § 319.56–4(c)(3), we are announcing the availability of our PRA and RMD for public review and comment. Those documents, as well as a description of the economic considerations associated with the importation of fresh jujube fruit from China, may be viewed on the *Regulations.gov* website or in our reading room (see **ADDRESSES** above for a link to *Regulations.gov* and information on the location and hours of the reading room). You may request paper copies of these documents by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the analysis you wish to review when requesting copies.

After reviewing any comments we receive, we will announce our decision regarding the import status of fresh jujube fruit from China in a subsequent notice. If the overall conclusions of our analysis and the Administrator's determination of risk remain unchanged following our consideration of the comments, then we will authorize the importation of fresh jujube fruit from China into the continental United States subject to the requirements specified in the RMD.

Authority: 7 U.S.C. 1633, 7701–7772, and 7781–7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, March 19, 2019.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–P

DEPARTMENT OF AGRICULTURE

Rural Utilities Service

Information Collection Activity; Comment Request

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44

U.S.C. Chapter 35, as amended), the Rural Utilities Service, an agency of the United States Department of Agriculture's (USDA), invites comments on this information collection for which the Agency intends to request approval from the Office of Management and Budget (OMB).

DATES: Comments on this notice must be received by May 24, 2019.

FOR FURTHER INFORMATION CONTACT:

Thomas P. Dickson, Regulatory Division Team 2, Rural Development Innovation Center, U.S. Department of Agriculture, 1400 Independence Ave. SW, Stop 1522, Washington, DC 20250. Phone: 202–690–4492. *Thomas.Dickson@usda.gov*.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget's (OMB) regulation (5 CFR 1320) implementing provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104–13) requires that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). This notice identifies an information collection that the Agency is submitting to OMB for an extension.

Comments are invited on (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumption used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques on other forms and information technology. Comments may be sent to Thomas P. Dickson, Regulatory Division Team 2, Rural Development Innovation Center, U.S. Department of Agriculture, 1400 Independence Ave. SW, Stop 1522, Washington, DC 20250. Phone: 202–690–4492. *Thomas.Dickson@usda.gov*.

Title: Special Evaluation Assistance for Rural Communities and Household Program (SEARCH).

OMB Control Number: 0572–0146.

Type of Request: Revision of currently approved package.
