SUPPLEMENTARY INFORMATION: The former Minerals Management Service (MMS) described the requirements for lessees and operators to train their personnel in 30 Code of Federal Regulations Part 250, Subpart O, Well Control and Production Safety Training. This regulation assigned responsibility to MMS for oversight of training for well control and production safety systems, and oversight of MMS accredited institutions to train and certify lessee and operator personnel to work competently and safely on the Outer Continental Shelf. Training organizations were required to provide copies of training certificates, which included the individual's full name, Social Security number, and training completion date, among other categories of records, which were maintained under Privacy Act system of records notice (SORN), INTERIOR/MMS-12, Lessee/Operator Training Files.

In October 2000, the regulation was amended to reassign responsibilities for overseeing well control and production safety training to lessees and operators. When the regulation went into effect, the records associated with the regulation no longer met the Privacy Act standard for a system of records and eliminated the need for the SORN. The

records covered by this SORN were disposed of in accordance with the prevailing records retention schedule.

In May 2010, Secretary's Order 3299 directed the division of MMS into three independent entities with separate and clearly defined missions: The Bureau of Safety and Environmental Enforcement (BSEE), the Bureau of Ocean Energy Management, and the Office of Natural Resources Revenue. Responsibilities for this system of records notice transferred to BSEE. Pursuant to the provisions of the Privacy Act of 1974, as amended, the Bureau of Safety and Environmental Enforcement is formally rescinding the INTERIOR/MMS-12, Lessee/Operator Training Files system of records notice from its system of records inventory. Rescinding the INTERIOR/MMS-12, Lessee/Operator Training Files system of records notice will have no adverse impacts on individuals as the records were disposed of in accordance with the records retention schedule. This rescindment will also promote the overall streamlining and management of Department of the Interior Privacy Act systems of records.

DEPARTMENT OF LABOR

[DOL-2018-0004]

Notice of Final Determination To Remove Uzbek Cotton From the List of Products Requiring Federal Contractor Certification as to Forced or Indentured Child Labor Pursuant to Executive Order 13126

AGENCY: Bureau of International Labor Affairs, U.S. Department of Labor.

ACTION: Notice of final determination.

SUMMARY: This notice is a final determination to revise the list required by Executive Order No. 13126 ("Prohibition of Acquisition of Products Produced by Forced or Indentured Child Labor", hereafter the E.O. List). The E.O. List identifies a list of products, by their country of origin, that the Department of Labor (DOL), in consultation and cooperation with the Department of State (DOS) and the Department of Homeland Security (DHS) (collectively, the Departments), has a reasonable basis to believe might have been mined, produced, or manufactured by forced or indentured child labor.

The Departments proposed removing cotton from Uzbekistan from the E.O. List in a Notice of Initial Determination that was published in the **Federal Register** on July 31, 2018. After a thorough review of the comments received and information available, the Departments have determined that the use of forced child labor in the cotton harvest in Uzbekistan has been significantly reduced to isolated incidents. As a result, this product no longer meets the criteria for inclusion in the E.O. List.

This final determination is the fifth revision of the E.O. List required by E.O. 13126 in accordance with DOL's Procedural Guidelines for the Maintenance of the List of Products Requiring Federal Contractor Certification as to Forced or Indentured Child Labor (Procedural Guidelines).

SUPPLEMENTARY INFORMATION:

I. Initial Determination

On July 31, 2018, DOL, in consultation and cooperation with DOS and DHS, published a Notice of Initial
