Title of Collection: Middle Grades Longitudinal Study of 2017-18 (MGLS:2017) Main Study First Follow-up (MS2) Tracking and Recruitment and Operational Field Test Second Follow-up (OFT3) Update.

OMB Control Number: 1850-0911.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 20,113.

Total Estimated Number of Annual Burden Hours: 10,891.

Abstract: The Middle Grades Longitudinal Study of 2017-18 (MGLS:2017) is the first study conducted by the National Center for Education Statistics (NCES) to follow a nationally representative sample of students as they enter and move through the middle grades (grades 6-8). The data collected through repeated measures of key constructs will provide a rich descriptive picture of the academic experiences and development of students during these critical years and will allow researchers to examine associations between contextual factors

and student outcomes. The study focuses on student achievement in mathematics and literacy along with measures of student socioemotional wellbeing and other outcomes. The study includes students with disabilities for whom descriptive information on their outcomes, educational experiences, and special education services are being collected. In preparation for the Main Study (MS), the data collection instruments and procedures were field tested. An Item Validation Field Test (IVFT) was conducted from January through May 2016 to determine the psychometric properties of assessment and survey items and the predictive potential of items so that valid, reliable, and useful assessment and survey instruments could be developed for the Main Study. The MGLS:2017 Operational Field Test (OFT) Base Year (OFT1) data collection was conducted from January through May 2017 to test the near-final instruments and recruitment and data collection procedures and materials in preparation for the MGLS:2017 Main Study Base Year (MS1). The MS1 data collection took place from January to August 2018, and the OFT First Follow-up (OFT2) data collections from February to May 2018. OFT2 was conducted primarily to obtain information on recruiting, particularly for students in three focal IDEA-defined disability groups: specific learning disability, autism, and emotional disturbance; obtain a tracking sample that can be used to study mobility patterns in subsequent years; and test protocols, items, and administrative procedures. The MGLS:2017 Main Study First Follow-up (MS2) Tracking and Recruitment and Operational Field Test Second Follow-up (OFT3) were approved in September 2018 with the latest update approved in December 2018 (OMB# 1850-0911 v.20-22). This current request is to: (1) Update contact materials to reference the administrative records collection, (2) introduce a \$10 incentive for panel maintenance participants, (3) update the student roster form in Appendix T for the fall 2019 MS2 tracking and recruitment activities, and (4) introduce a flyer designed to encourage the return of parent permission forms in explicit permission schools.
