Title: Wholesale Contracts for the Purchase and Sale of Electric Power
OMB Control Number: 0572-0089.

Type of Request: Extension of a currently approved information collection.

Abstract: Most RUS financed electric systems are cooperatives and are organized in a two-tiered structure. Retail customers are members of the distribution system that provides electricity to their homes and business. Distribution cooperatives, in turn, are members of power supply cooperatives, also known as generation and transmission cooperatives (G&T's) that generate or purchase power and transmit the power to the distribution systems.

For a distribution system, a lien on the borrower's assets generally represents adequate security. However, since most G&T revenues flow from its distribution members, RUS requires, as

a condition of a loan or loan guarantee to a G&T the long-term requirements wholesale power contract (WPC) to purchase their power from the G&T at rates that cover all the G&T's expenses, including debt service and margins. RUS considers Form 444 as an example for the G&T's to utilize as either their WPC or create their own WPC if it has all the same information as the form. The WPC is specialized based on the combined requirements of the G&T and its members. The WPC is used by RUS G&T borrowers to enter into agreement with their distribution members for purchase of power from the G&T. The WPC is prepared and executed by the G&T and each member and by RUS and the information allows RUS to determine credit quality and credit worthiness to determine repayment ability for loans and loan guarantees.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 6 hours per response.

Respondents: Small business or other for-profit; not-for-profit organizations.

Estimated Number of Respondents: 10.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 60 hours.

Copies of this information collection can be obtained from Diane M. Berger, Rural Development Innovation Center—Regulatory Team, (715) 619-3124.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Acting Administrator, Rural Utilities Service.
