The USGS proposes to collect general demographic information about public users that download products from the USGS using Earth Explorer (EE) application. This information is used to help address reports to Congress, OMB and DOI management with planning public uses of Landsat and other remote sensing data. The most common uses of these data are used to justify the maintenance and the free distribution of the USGS land remote sensing data. EE also stores information about users that download source code products, Global Visualization Viewer (GloVis) for example. The information collected in the database includes the names, affiliations, addresses, email address and telephone numbers of individuals. The information is gathered to facilitate the reporting of demographic data for use of the EE Application. Demographic data is also used to make decisions on future functional requirements within the system.

Earth Explorer is a Web application that enables users to find, preview, and download or order digital data published by the U.S. Geological Survey. There are more than 300 USGS Datasets available from the site. To download or order products from EE, users must register with the EE system. The information is stored on an internal encrypted database. The data is provided by the customer and utilized to notify the customer of data ready for download. If downloads are unsuccessful, the customer is contacted to provide updated information. In addition, EE requires certain fields to be completed such as name, address, city and zip code before an account can be established and an order can be submitted. EE does not derive new data and does not create new data through aggregation.

Personal information is not used as search criteria. Access to the information uses the least privileged access methodology. Authorized individuals with specifically granted access to the Privacy Act data can retrieve only by account number or order number Personal data is encrypted while stored in the Database.

Title of Collection: Earth Explorer User Registration Service.
OMB Control Number: 1028–0119.
Form Number: None.
Type of Review: Extension of a currently approved collection.
Respondents/Affected Public: Private individuals who have requested USGS products from USGS/Earth Explorer application are covered in this system.
Total Estimated Number of Annual Respondents: 84,000.

Estimated Completion Time per Response: We estimate that it will take 2 minutes per response to submit the requested information.
Frequency of Collection: The information is collected at the time of registration and is only updated by the individual.
Total Estimated Annual Non-hour Burden: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authorities for this action are the Paperwork Reduction Act of 1995 (44 U.S.C. 3501, et seq.).

Christopher Loria,
USGS EROS Center Director.

HEARTH Act Approval of Minnesota Chippewa Tribe, Minnesota, Fond du Lac Band Leasing Ordinance

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: On March 6, 2019, the Bureau of Indian Affairs (BIA) approved the Minnesota Chippewa Tribe, Minnesota, Fond du Lac Band leasing ordinance under the Helping Expedite and Advance Responsible Tribal Homeownership Act of 2012 (HEARTH Act). With this approval, the Tribe is authorized to enter into leases for agricultural, residential, business, wind and solar, wind energy evaluation, and other authorized purposes without further BIA approval.

FOR FURTHER INFORMATION CONTACT: Ms. Sharlene Round Face, Bureau of Indian Affairs, Division of Real Estate Services, MS–4642–MIB, 1849 C Street NW, Washington, DC 20240, at (202) 208–3615.

SUPPLEMENTARY INFORMATION:
I. Summary of the HEARTH Act
The HEARTH Act makes a voluntary, alternative land leasing process available to Tribes, by amending the Indian Long-Term Leasing Act of 1955, 25 U.S.C. 415. The HEARTH Act authorizes Tribes to negotiate and enter into agricultural and business leases of Tribal trust lands with a primary term of 25 years, and up to two renewal terms of 25 years each, without the approval of the Secretary of the Interior (Secretary). The HEARTH Act also authorizes Tribes to enter into leases for residential, recreational, religious or educational purposes for a primary term of up to 75 years without the approval of the Secretary. Participating Tribes develop Tribal leasing regulations, including an environmental review process, and then must obtain the Secretary’s approval of those regulations prior to entering into leases. The HEARTH Act requires the Secretary to approve Tribal regulations if the Tribal regulations are consistent with the Department of the Interior’s (Department) leasing regulations at 25 CFR part 162 and provide for an environmental review process that meets requirements set forth in the HEARTH Act. This notice announces that the Secretary, through the Assistant Secretary—Indian Affairs, has approved the Tribal regulations for the Minnesota Chippewa Tribe, Minnesota, Fond du Lac Band.

II. Federal Preemption of State and Local Taxes
The Department’s regulations governing the surface leasing of trust and restricted Indian lands specify that, subject to applicable Federal law, permanent improvements on leased land, leasehold or possessory interests, and activities under the lease are not subject to State and local taxation and may be subject to taxation by the Indian Tribe with jurisdiction. See 25 CFR 162.017. As explained further in the preamble to the final regulations, the Federal government has a strong interest in promoting economic development, self-determination, and Tribal sovereignty. 77 FR 72,440, 72,447–48 (December 5, 2012). The principles supporting the Federal preemption of State law in the field of Indian leasing and the taxation of lease-related interests and activities applies with equal force to leases entered into under Tribal leasing regulations approved by the Federal government pursuant to the HEARTH Act.

Confederated Tribes of the Chehalis Reservation v. Thurston County, 724 F.3d 1153, 1157 (9th Cir. 2013) (citing
impose a Tribal tax to support its infrastructure needs. See id. at 2043-44 (finding that State and local taxes greatly discourage Tribes from raising tax revenue from the same sources because the imposition of double taxation would impede Tribal economic growth).

Similar to BIA’s surface leasing regulations, Tribal regulations under the HEARTH Act pervasively cover all lease-related activities and interests, including terminating the lease or rescinding approval of the Tribal regulations and reassigning lease approval responsibilities. Moreover, the Secretary continues to review, approve, and monitor individual Indian land leases and other types of leases not covered under the Tribal regulations according to the Part 162 regulations. Accordingly, the Federal and Tribal interests weigh heavily in favor of preemption of State and local taxes on lease-related activities and interests, regardless of whether the lease is governed by Tribal leasing regulations or Part 162. Improvements, activities, and leasehold or possessory interests may be subject to taxation by the Minnesota Chippewa Tribe, Minnesota, Fond du Lac Band.

Dated: March 6, 2019.

Tara Sweeney,
Assistant Secretary, Indian Affairs.

SUMMARY: This notice publishes the approval of the Amended Gaming Compact between the Sisseton-Wahpeton Oyate of the Lake Traverse Reservation (Tribe) and the State of South Dakota (Amendment).

DATES: The compact amendment takes effect on April 1, 2019.

SUPPLEMENTARY INFORMATION: Under section 11 of the Indian Gaming Regulatory Act (IGRA) Public Law 100–497, 25 U.S.C. 2701 et seq., the Secretary of the Interior shall publish in the Federal Register notice of approved Tribal-State compacts for the purpose of engaging in Class III gaming activities on Indian lands. As required by 25 CFR 293.4, all compacts and amendments are subject to review and approval by the Secretary. The Amendment increases the number of slot machines the Tribe may operate, decreases certain regulatory costs for emergency services agreements, and eliminates tribal contributions paid from pari-mutuel gaming to schools. The Amendment is approved.

John Tahsuda,
Principal Deputy Assistant Secretary, Indian Affairs.
