of up to 0.997 mgd (peak day) (Docket No. 20150310).

17. Project Sponsor and Facility: Village of Windsor, Broome County, N.Y. Application for groundwater withdrawal of up to 0.380 mgd (30-day average) from Well 1.

18. Project Sponsor and Facility: Village of Windsor, Broome County, N.Y. Application for groundwater withdrawal of up to 0.380 mgd (30-day average) from Well 2.

Commission-Initiated Project Approval Modifications

1. Project Sponsor and Facility: East Donegal Township Municipal Authority, East Donegal Township, Lancaster County, Pa. Conforming the grandfathering amount with the forthcoming determination for a withdrawal of up to 0.351 mgd (30-day average) from Glatfelter Springs (Docket No. 20110305).

2. Project Sponsor and Facility: Hanover Country Club, Abbottstown Borough, Adams County, Pa. Conforming the grandfathering amount with the forthcoming determination for a groundwater withdrawal of up to 0.122 mgd (30-day average) from Well 2 (Docket No. 20020828).

3. Project Sponsor and Facility: Mars Wrigley Confectionery US, LLC, Elizabethtown Borough, Lancaster County, Pa. Conforming the grandfathering amount with the forthcoming determination for groundwater withdrawal of up to 0.112 mgd (30-day average) from Well 6 (Docket No. 20010804).

Dated: March 27, 2019.

Jason E. Oyler,
General Counsel and Secretary to the Commission.

DEPARTMENT OF TRANSPORTATION
Federal Highway Administration

Notice of Final Federal Agency Actions on Proposed Highway in Utah

AGENCY: Utah Department of Transportation (UDOT), Federal Highway Administration (FHWA), Department of Transportation.

ACTION: Notice of Limitation on Claims for Judicial Review of Actions Taken by UDOT on behalf of FHWA.

SUMMARY: This notice announces certain actions taken by UDOT that are final Federal agency actions. These actions relate to Purgatory Road, a proposed highway project between State Route (SR) 9 and Southern Parkway (SR 7), in the County of Washington, State of Utah. Those actions grant licenses, permits and/or approvals for the project.

DATES: By this notice, the FHWA, on behalf of UDOT, is advising the public of final Federal agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before August 30, 2019. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Naomi Kissin, Environmental Program Manager, UDOT Environmental Services, P.O. Box 143600, Salt Lake City, UT 84114; telephone: (801) 965–4005; email: nkissen@utah.gov. UDOT’s normal business hours are 8:00 a.m. to 5:00 p.m. (Mountain Time Zone), Monday through Friday, except State and Federal holidays.

SUPPLEMENTARY INFORMATION: Effective January 17, 2017, FHWA assigned to UDOT certain responsibilities of FHWA for environmental review, consultation, and other actions required by applicable Federal environmental laws and regulations for highway projects in Utah, pursuant to 23 U.S.C. 327. Actions taken by UDOT on FHWA’s behalf pursuant to 23 U.S.C. 327 constitute Federal agency actions for purposes of Federal law. Notice is hereby given that UDOT has taken final agency actions subject to 23 U.S.C. 139(l)(1) by issuing licenses, permits, and approvals for the Purgatory Road; SR 9 to Southern Parkway project in the State of Utah. The Purgatory Road project proposes to improve regional system linkage and mobility between SR 9 and Southern Parkway. The project includes constructing a new three-lane roadway on new alignment between SR 9 and Southern Parkway. The proposed alignment would begin at SR 9 and follow the existing 5300 West alignment until the Quail Creek Industrial Park. The alignment would then run generally southward along the existing dirt road on the east side of the Purgatory Flat until approximately Landfill Road where it would swing to the west. The alignment would then cross the Virgin River via a new approximate 400-feet long, three-span structure to connect directly to Southern Parkway. These improvements were identified in the Environmental Assessment (EA) prepared for the project by UDOT as the Purgatory Road Build Alternative, which combined Alternatives N2, M3, and R2. The actions by UDOT, and the laws under which such actions were taken, are described in the EA and UDOT Finding of No Significant Impact (FONSI) for the project (Finding of No Significant Impact for Purgatory Road: State Route 9 to Southern Parkway in Washington County, Utah, Project No. F–LC53(72)), issued on February 26, 2019, and in other documents in the UDOT project records. The EA and FONSI, and other project records are available by contacting UDOT at the address provided above. The EA and FONSI can also be viewed and downloaded from the project website at https://www.purgatoryrd.com/.

This notice applies to the EA, the FONSI, the Section 4(f) determination, the NHPA Section 106 review, the Endangered Species Act determination, and all other UDOT decisions and other actions with respect to the project as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to the following laws (including their implementing regulations):

SUPPLEMENTARY INFORMATION:

I. Public Participation
A. Viewing Documents and Comments

The physical qualification standard for drivers regarding vision found in 49 CFR 391.41(b)(10) states that a person is physically qualified to drive a CMV if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, field of vision of at least 70° in the horizontal meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing red, green, and amber.

III. Discussion of Comments

FMCSA received no comments in this preceding.

IV. Conclusion

Based on its evaluation of the 71 renewal exemption applications and comments received, FMCSA confirms its decision to exempt the following drivers from the vision requirement in 49 CFR 391.41(b)(10).

In accordance with 49 U.S.C. 31136(e) and 31315, the following groups of drivers received renewed exemptions in the month of January and are discussed below. As of January 3, 2019, and in accordance with 49 U.S.C. 31136(e) and 31315, the following 23 individuals have satisfied the renewal conditions for obtaining an exemption from the vision requirement in the FMCSRs for interstate CMV drivers.

71 individuals from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) for interstate commercial motor vehicle (CMV) drivers. The exemptions enable these individuals to continue to operate CMVs in interstate commerce without meeting the vision requirement in one eye.

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOTHALL–14 FMDS), which can be reviewed at www.dot.gov/privacy.

II. Background

On February 6, 2019, FMCSA published a notice announcing its decision to renew exemptions for 71 individuals from the vision requirement in 49 CFR 391.41(b)(10) to operate a CMV in interstate commerce and requested comments from the public (84 FR 2311). The public comment period ended on March 8, 2019, and no comments were received.

As stated in the previous notice, FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(10).

The physical qualification standard for drivers regarding vision found in 49 CFR 391.41(b)(10) states that a person is physically qualified to drive a CMV if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, and the ability to recognize the colors of traffic signals and devices showing red, green, and amber.
