It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the

Abstract: Part 601—Institution and Lender Requirements Relating to Education Loans is a section of the regulations governing private education loans offered at covered institutions. These regulations assure the Secretary that the integrity of the program is protected from fraud and misuse of program funds and places requirements on institutions and lenders to ensure that borrowers receive additional disclosures about Title IV, HEA program assistance prior to obtaining a private education loan. The Department is submitting the unchanged Private Education Loan Applicant Self-Certification for OMB's continued approval. While information about the applicant's cost of attendance and estimated financial assistance must be provided to the student, if available, the student will provide the data to the private loan lender who must collect and maintain the self-certification form prior to disbursement of a Private Education Loan. The Department will not receive the Private Education Loan Applicant Self-Certification form and therefore will not be collecting and maintaining the form or its data.

Title of the Collection: 2020–21 Free Application for Federal Student Aid.

OMB Control Number: 1845–0001.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 40,987,637.

Total Estimated Number of Annual Burden Hours: 26,311,037.

Abstract: Section 483, of the Higher Education Act of 1965, as amended (HEA), mandates that the Secretary of Education “. . . shall produce, distribute, and process free of charge common financial reporting forms as described in this subsection to be used for application and reapplication to determine the need and eligibility of a student for financial assistance . . .”.

The determination of need and eligibility are for the following Title IV, HEA, federal student financial assistance programs: The Federal Pell Grant Program; the Campus-Based programs (Federal Supplemental Educational Opportunity Grant (FSEOG) and Federal Work-Study (FWS)); the William D. Ford Federal Direct Loan (Direct Loan) Program; the Teacher Education Assistance for College and Higher Education (TEACH) Grant; the Children of Fallen Heroes Scholarship; and the Iraq and Afghanistan Service Grant.

Federal Student Aid (FSA), an office of the U.S. Department of Education, subsequently developed an application process to collect and process the data necessary to determine a student’s eligibility to receive Title IV, HEA program assistance. The application process involves an applicant’s submission of the *Free Application for*

Federal Student Aid (FAFSA®). After submission and processing of the FAFSA form, an applicant receives a *Student Aid Report* (SAR), which is a summary of the processed data they submitted on the FAFSA form. The applicant reviews the SAR, and, if necessary, will make corrections or updates to their submitted FAFSA data. Institutions of higher education listed by the applicant on the FAFSA form also receive a summary of processed data submitted on the FAFSA form which is called the Institutional Student Information Record (ISIR).

ED and FSA seek OMB approval of all application components as a single “collection of information”. The aggregate burden will be accounted for under OMB Control Number 1845–0001. The specific application components, descriptions, and submission methods for each are listed in Table 1.

TABLE 1—FEDERAL STUDENT AID APPLICATION COMPONENTS

TABLE 1—FEDERAL STUDENT AID APPLICATION COMPONENTS—Continued

Component	Description	Submission method
Electronic Other—Corrections	With the applicant's permission, corrections can be made by an FAA using the EDE.	The FAA may be using their mainframe computer or software to facilitate the EDE process.
Paper SAR—This is a SAR and an option for corrections.	The full paper summary that is mailed to paper applicants who did not provide an email address and to applicants whose records were rejected due to critical errors during processing. Applicants can write corrections directly on the paper SAR and mail for processing.	Mailed by the applicant.
FAA Access—Corrections	An institution can use FAA Access to correct the FAFSA form	Submitted through <i>faaaccess.ed.gov</i> by an FAA on behalf of an applicant.
Internal Department Corrections	The Department will submit an applicant's record for system-generated corrections to the Central Processing System. There is no burden to the applicants under this correction type as these are system-based corrections.	These corrections are system-generated.
Federal Student Aid Information Center (FSAIC) Corrections.	Any applicant, with their Data Release Number (DRN), can change the postsecondary institutions listed on their FAFSA form or change their address by calling FSAIC.	These changes are made directly in the CPS by an FSAIC representative.
SAR Electronic (eSAR)	The eSAR is an online version of the SAR that is available on <i>fafsa.gov</i> to all applicants with an FSA ID. Notification for the eSAR is sent to students who applied electronically or by paper and provided a valid email address. These notifications are sent by email and include a hyperlink that takes the user to the <i>fafsa.gov</i> site.	Cannot be submitted for processing.
SAR Acknowledgement	The SAR Acknowledgement is a condensed paper SAR that is mailed to applicants who applied electronically but did not provide a valid email address.	Cannot be submitted for processing.

This information collection also documents an estimate of the annual public burden as it relates to the application process for federal student aid. The Applicant Burden Model (ABM) measures applicant burden through an assessment of the activities each applicant conducts in conjunction with other applicant characteristics and, in terms of burden, the average applicant's experience. Key determinants of the ABM include:

- The total number of applicants that will potentially apply for federal student aid;
- How the applicant chooses to complete and submit the FAFSA form (e.g., by paper or electronically);
- How the applicant chooses to submit any corrections and/or updates (e.g., the paper SAR or electronically);
- The type of SAR document the applicant receives (eSAR, SAR acknowledgment, or paper SAR);
- The formula applied to determine the applicant's expected family contribution (EFC) (full need analysis formula or Automatic Zero); and
- The average amount of time involved in preparing to complete the application.

The ABM is largely driven by the number of potential applicants for the application cycle. The total application

projection for 2020–21 is based upon two factors—estimating the growth rate of the total enrollment into postsecondary education and applying the growth rate to the FAFSA submissions. The ABM is also based on the application options available to students and parents. ED accounts for each application component based on analytical tools, survey information and other ED data sources.

For 2020–21, ED is reporting a net burden increase of 2,358,697 hours.
