Abstract: This is a renewal for reporting and recording keeping requirements under EPA's WasteWise program. WasteWise is a voluntary partnership with organizations to prevent and recycle multiple materials from municipal solid wastes (e.g., paper, aluminum cans; plastic and glass bottles; food wastes; etc.). Under this program, participants agree to set waste reduction goals and take specified actions to reduce multiple waste streams. In addition, under WasteWise, EPA has issued specific material or sector-based challenges. Currently these challenges focus on food recovery, electronics, and State related waste and material management efforts. A separate Federal Green Challenge targets the federal sector but is not part of this ICR. Participants use a web-based online database system containing integrated platforms with automated forms to register for participation; set goals; and report their waste reduction achievements on an annual basis.

Form numbers: None.

Respondents/affected entities: Business and other for-profit and not-

for-profit organizations, as well as Federal/State/Local and Tribal governments.

Respondent's obligation to respond: Voluntary (RCRA sections 1003 and 4001).

Estimated number of respondents: During year 1 of this ICR it is estimated that 2,119 respondents will enter data into the data management system. This estimate is expected to grow to 2,329 respondents in year 3 of this ICR due to an increased enrollment by participants.

Frequency of response: Annual.

Total estimated burden: During year 1 of this ICR it is estimated that 147,348 hours respondents, 3,452 hours from EPA. By year 3, the estimated respondent hours of 164,073 and 4,152 agency hours for a total of 168,225 hours. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: For year 1, \$5,766,636.45 from extra-agency participants and \$436,427.30 from EPA, which includes \$6,213,063.75 annualized labor costs and \$0 annualized capital or O&M costs. For year 3, \$5,552,371.20 for respondents and \$471,827.30 in agency costs, with annualized cost of \$6,024,198.50.

Changes in estimates: Annual burden hours and associated costs shown in the ICR reflect changing participation rates throughout the ICR time period, therefore any changes are documented in Supplemental Statement.

Expert consultants will provide knowledge, information, and contribute to the EFAB Stormwater Finance Workgroup's recommendations to the EPA in the following areas: Identify how funding for stormwater infrastructure from such sources has been made available, and utilized, in each state to address stormwater infrastructure needs; Identify how the source of funding affects the affordability of the infrastructure, including consideration of the costs associated with financing the infrastructure; and Evaluate whether such sources of funding are sufficient to support capital expenditures and long-term operation and maintenance costs. Additional, related, areas may be identified in the first meeting. Experts will serve through the end of April 2020.

The deadline for receiving nominations is Friday, April 19, 2019. Appointments will be made by EFAB's Designated Federal Officer and will be announced in early May 2019. A meeting is expected to be held in Washington, DC, on June 6, 2019.

The EFAB typically meets two times each calendar year (up to two days per meeting) at different locations within the continental United States. EFAB Workgroups focusing on specific environmental finance topics typically meet over conference calls in between the in-person meetings to discuss recommendations and other work products.
