SUPPLEMENTARY INFORMATION:

I. Introduction

The federal-state Unemployment Insurance (UI) program is a required partner in the comprehensive, integrated workforce system. Individuals who have lost employment due to a lack of suitable work and have earned sufficient wage credits may receive UI benefits if they meet initial and continuing eligibility requirements. Since 2005, DOL and participating state workforce agencies have been addressing individual reemployment needs of UI claimants and working to prevent and detect UI improper payments through the voluntary UI Reemployment and Eligibility Assessment (REA) program and, beginning in fiscal year (FY) 2015, through the voluntary RESEA program.

On February 9, 2018, the President signed the BBA, which included amendments to the SSA creating a permanent authorization for the RESEA program. These RESEA provisions are contained in Section 30206 of the BBA, enacting new Section 306 of the SSA. Section 306 also contains provisions for funding the RESEA program.

The primary goals for the RESEA program are to: Improve employment outcomes for individuals that receive unemployment compensation (UC) and to reduce average duration of receipt of UC through employment; strengthen program integrity and reduce improper payments; promote alignment with the broader vision of the Workforce Innovation and Opportunity Act (WIOA), which is increased program integration and service delivery for job seekers; and establish RESEA as an entry point to other workforce system partner programs for individuals receiving UC. Core components of RESEA that must be included as part of the initial session with a claimant are:

- UI eligibility assessment, including review of work search activities, and referral to adjudication, as appropriate, if an issue or potential issue is identified;
- Providing labor market and career information that address the claimant’s specific needs;
- Enrollment in Wagner-Peyser Act funded Employment Services;
