*Title of Collection:* Mathematics and Science Partnerships Program: Annual Performance Report.

*OMB Control Number:* 1810–0669.

*Type of Review:* A reinstatement of a previously approved information collection.

*Respondents/Affected Public:* State, Local, and Tribal Governments.

*Total Estimated Number of Annual Responses:* 450.

*Total Estimated Number of Annual Burden Hours:* 4,500.

*Abstract:* Implemented under the No Child Left Behind Act of 2001, Title II, Part B, the Mathematics and Science Partnerships (MSP) program is a formula grant program strategically designed to improve the content knowledge of teachers and the academic performance of students in mathematics and science. By funding collaborative partnerships between science, technology, engineering, and mathematics (STEM) departments at institutions of higher education (IHEs), and high-need school districts, the MSP program enables the delivery of intensive, content-rich professional development intended to improve classroom instruction and, ultimately, to raise student achievement in math and science. Because MSP is a formula grant program, the size of individual state awards is based on student population and poverty rates, with no state receiving less than one half of one percent of the total appropriation. Each state is then responsible for administering a competitive grant making process to determine the distribution of funds across proposed MSP projects. The program office is

seeking to renew this collection to allow it to continue to collect Annual Performance Reports from those grantees that will need to seek a no cost extension.

**Title of Collection:** Fast Response Survey System (FRSS) 110: Use of Educational Technology for Instruction in Public Schools—Preliminary Activities.

**OMB Control Number:** 1850–0733.

**Type of Review:** A new generic information collection.

**Respondents/Affected Public:** State, Local and Tribal Governments.

**Total Estimated Number of Annual Responses:** 1,400.

**Total Estimated Number of Annual Burden Hours:** 1,600.

**Abstract:** This request is to conduct preliminary activities for the Fast Response Survey System (FRSS) survey #110 on use of educational technology for instruction in public schools. The Office of Educational Technology (OET) requested that NCES conduct this FRSS survey. The expanding use of technology affects the lives of students both inside and outside the classroom. For this reason, the role of technology

in education is an increasingly important area of research. While access to technology can provide valuable learning opportunities to students, technology by itself does not guarantee successful outcomes. Schools and teachers play an important role in successfully integrating technology into teaching and learning. The purpose of this FRSS 110 survey is to collect nationally representative data from public schools about their use of educational technology for instruction. This request for FRSS 110 preliminary activities involves securing research approval from special contact school districts beginning in June 2019. The request to conduct the full-scale survey will be submitted in winter 2019. Preliminary activities will begin in June 2019, and the main survey data collection from schools will begin in January 2020 and is scheduled to end in June 2020.
