Agricultural Marketing Service

Title: Livestock Mandatory Reporting Act of 1999.

OMB Control Number: 0581–0186.

Summary of Collection: The Livestock Mandatory Reporting (LMR) Act of 1999 (Pub. L. 106–78; 7 U.S.C. 1635–1636h) mandates the reporting of information on prices and quantities of livestock and livestock products. The 1999 Act was established to provide timely, accurate, and reliable market information on the marketing of cattle, swine, lambs, and related products. Under this program, certain livestock packers, livestock product processors and importers meeting certain criteria, including size as measured by annual slaughter are required to report market information to the Agricultural Marketing Service (AMS). On September 30, 2015, the Agriculture Reauthorizations Act of 2015 (2015 Reauthorization Act) reauthorized LMR for an additional five years, until September 30, 2020. The information is necessary for the proper performance of the functions of AMS. USDA's market news provides all market participants, including producers, with the information necessary to make intelligent and informed marketing decisions.

Need and Use of the Information: The information collected and recordkeeping requirements will serve as the basis for livestock and livestock product market news reports utilized by the industry for marketing purposes. The reports are used by other Government agencies to evaluate market conditions and calculate price levels. Economists at major agricultural colleges and universities use the reports to make short and long-term market projections. The information is reported up to three times daily and once weekly and is only available directly from those entities required to report under the Act.

Description of Respondents: Business or other for-profit.

Number of Respondents: 47.

Frequency of Responses: Reporting; Weekly; Other (Daily).

Total Burden Hours: 21,698.
