### EPA-Approved Manuals

| ODEQ Source Sampling Manual. | 4/22/2015 | 10/11/2017, 82 FR 47122 | Volumes I and II for purposes of the limits approved into the SIP. For purposes of the limits approved into the SIP. |

### SUMMARY:
The Environmental Protection Agency (EPA) is taking final action to approve a State Implementation Plan (SIP) revision submitted by the North Carolina Department of Environmental Quality, Division of Air Quality (DAQ), on March 21, 2018, readopting and amending several air quality rules, and requesting to remove the rules for the oxygenated gasoline program. This SIP revision also contains a non-interference demonstration, which concludes that removing the oxygenated gasoline program would not interfere with attainment or maintenance of the National Ambient Air Quality Standards (NAAQS). EPA has determined that North Carolina’s March 21, 2018, SIP revision is consistent with the applicable provisions of the Clean Air Act (CAA or Act).

### DATES:
This rule will be effective May 10, 2019.

### ADDRESSES:
EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2018–0301. All documents in the docket are listed on the www.regulations.gov website. Although listed in the index, some information is not publicly available, i.e., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through
www.regulations.gov or in hard copy at the Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW, Atlanta, Georgia 30303–8960. EPA requests that if possible, you contact the person listed in the FOR FURTHER INFORMATION CONTACT section to schedule your inspection. The Regional Office’s official hours of business are Monday through Friday 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Kelly Sheckler, Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, Region 4, U.S. Environmental Protection Agency, 61 Forsyth Street SW, Atlanta, Georgia 30303–8960. The telephone number is (404) 562–9992. Ms. Sheckler can also be reached via electronic mail at sheckler.kelly@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

EPA is taking final action to approve North Carolina’s March 21, 2018, SIP revision seeking to readopt and amend various air quality rules and to remove the rules for the oxygenated gasoline program from North Carolina’s SIP. North Carolina requested that EPA approve the removal of rules in 15A NCAC 2D 1 Section .1300, Oxygenated Gasoline Standard (hereinafter referred to as the oxygenated gasoline program) from the North Carolina SIP. To support the request to remove the rules for the oxygenated gasoline program from the SIP, North Carolina’s SIP revision contained technical support material to demonstrate that the removal of the program will not interfere with attainment or maintenance of any NAAQS or with any other applicable requirement of the CAA.

In addition, the SIP revision addressed State rules amended and readopted in 15A NCAC Subchapter 2D sections .0100, Definitions and References, .0200, Air Pollution Sources, .0300, Air Pollution Emergencies, and .0400, Ambient Air Quality Standards. More specifically, the following rules were amended and updated:

- .0101, Definitions
- .0103, Copies of Referenced Federal Regulations
- .0104, Incorporation by Reference
- .0105, Mailing List
- .0201, Classification of Air Pollution Sources
- .0202, Registration of Air Pollution Sources
- .0302, Episode Criteria
- .0303, Emission Reduction Plans
- .0304, Preplanned Abatement Program
- .0305, Emission Reduction Plan: Alert Level
- .0306, Emission Reduction Plan: Warning Level
- .0307, Emission Reduction Plan: Emergency Level
- .0401, Purpose
- .0402, Sulfur Oxides
- .0404, Carbon Monoxide
- .0407, Nitrogen Dioxide
- .0408, Lead
- .0409, PM2.5 Particulate Matter
- .0410, PM10 Particulate Matter

Rule .0101, Definitions, is amended to update the format of units and references while, Rules .0103, .0104, and .0105 are amended to update the agency name, addresses and to include web referenced documents and costs. Section .0300, Air Pollution Sources, is amended for clarity and to update the formatting and references. EPA notes that the proposed rule (see 84 FR 2109) dated February 6, 2019, included an error by listing Section .0200, Air Pollution Sources, in the discussion as both rules that were submitted for readoption only and as rules that were being amended. These rules had minor changes and should have been included in the amended rules section. EPA further notes that the changes—along with the rest of the March 21, 2018, SIP submittal—were available to the public during the comment period in the docket of this action.

Section .0300, Air Pollution Emergencies, addresses the prevention of buildup of air contaminants during an air pollution episode to prevent a public health emergency. Rule .0302 is amended to update the format of units, to update who proclaims air quality alerts and warnings and declarations of emergency at various pollutant levels requiring abatement actions from the Director to the Secretary’s level with concurrence of the Governor, to remove obsolete pollutant levels triggering such proclamations or declarations and to renumber the subsections because of the changes. The amendments to Rules .0303 and .0304 update the format of references for emission reduction plans and preplanned abatement programs. Rules .0305, .0306, and .0307 are amended to eliminate redundant language in paragraph (b)(4) that is already reflected in Paragraph (a)(2) for open burning requirements in emission reduction plans.

Section .0400, Ambient Air Quality Standards, contains the ambient air quality standards and associated monitoring methodologies for the State and to be consistent with the NAAQS. Specifically, Rules .0401 and .0409, and .0410 are amended to update the format of units and references, while administrative changes were made to .0402, .0404, .0407, and .0408.

EPA proposed approval of the North Carolina March 21, 2018, SIP revision to remove the oxygenated gasoline program and amend and re-adopt state regulations, as mentioned above, on February 6, 2019 (see 84 FR 2109). The details of North Carolina’s submission and the rationale for EPA’s actions are explained in the proposed rulemaking. EPA did not receive any relevant comments on the proposed action. EPA is now taking final action to approve the above-referenced revision.

II. Incorporation by Reference

In this document, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference the following air quality rules in Subchapter 2D Air Pollution Control Requirements, Sections .0101, Definitions, .0103, Copies of Referenced Federal Regulations, .0104, Incorporation by Reference, .0105, Mailing List, .0201, Classification of Air Pollution Sources, .0202, Registration of Air Pollution Sources, .0302, Episode Criteria, .0303, Emission Reduction Plans, .0304, Preplanned Abatement Program, .0305, Emission Reduction Plan: Alert Level, .0306, Emission Reduction Plan: Warning Level, .0307, Emission Reduction Plan: Emergency Level, .0401, Purpose, .0402, Sulfur Oxides, .0404, Carbon Monoxide, .0407, Nitrogen Dioxide, .0408, Lead, .0409, PM2.5 Particulate Matter, .0410, PM10 Particulate Matter, state effective January 1, 2018. EPA is also finalizing the repeal of the oxygenated gasoline rules under Subchapter 2D at Sections .1301, .1302, .1303, .1304, .1305.

EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 4 Office (please contact the person identified in the FOR FURTHER INFORMATION CONTACT section of this preamble for more information). Therefore, these materials have been approved by EPA for inclusion in the State implementation plan, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA’s approval, and will
be incorporated by reference in the next update to the SIP compilation.\(^2\)

III. Final Action

EPA is taking final action to approve the above-referenced changes to the State of North Carolina SIP because they are consistent with the CAA.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. See 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, if they meet the criteria of the CAA. These actions merely approve state law as meeting Federal requirements and do not impose additional requirements beyond those imposed by state law. For that reason, these actions:

- Are not significant regulatory actions subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Are not Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory actions because SIP approvals are exempted under Executive Order 12866;
- Do not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Are certified as not having significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Do not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Do not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Are not economically significant regulatory actions based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Are not significant regulatory actions subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Are not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Do not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 10, 2019. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. See section 307(b)(2).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Carbon monoxide, Sulfur dioxide, Particulate Matter, Lead, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: March 21, 2019.

Mary S. Walker,
Acting Regional Administrator, Region 4.

40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 et seq.

Subpart II—North Carolina

2. Amend §52.1770(c)(1), under “Subchapter 2D Air Pollution Control Requirements” by:

- a. Revising the entries for “Section .0101”, “Section .0103”, “Section .0104”, “Section .0105”, “Section .0201”, “Section .0202”, “Section .0302”, “Section .0303”, “Section .0304”, “Section .0305”, “Section .0306”, “Section .0307”, “Section .0401”, “Section .0402”, “Section .0404”, “Section .0407”, “Section .0408”, “Section .0409”, and “Section .0410”, and

- b. Removing the heading “Section .1300 Oxygenated Gasoline Standard” including the entries “Section .1301” through “Section .1305”. The revisions read as follows:

§52.1770 Identification of plan.

[FR Doc. 2019–06734 Filed 4–9–19; 8:45 am]

BILLING CODE 6560–50–P
EPA has established a docket for this action under Docket Identification No. EPA–HQ–SFUND–2002–0008. All documents in the docket are listed on the https://www.regulations.gov website. Although listed in the index, some information is not publicly available. i.e., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available electronically in https://www.regulations.gov: by calling EPA Region 8 at (303) 312–7279 and leaving a message; and at the EPA Info Center, 108 E 9th Street, Libby, MT 59923, (406) 293–6194, Monday through Thursday from 8:00 a.m.–4:00 p.m.

FOR FURTHER INFORMATION CONTACT: Dania Zinner, Remedial Project Manager, U.S. Environmental Protection Agency, Region 8, Mailcode EPR–SR, 1595 Wynkoop Street, Denver, CO 80202–1129, (303) 312–7122, email zinner.dania@epa.gov.

SUPPLEMENTARY INFORMATION: The portion of the site to be deleted from the NPL is: OU2 of the Libby Asbestos Superfund Site in Libby, Montana. A Notice of Intent for Partial Deletion for this Site was published in the Federal Register (84 FR 2122–2125) on February 6, 2019.

The closing date for comments on the Notice of Intent for Partial Deletion was March 8, 2019. One set of public comments was received. The commenter does not object to the delisting; however, the commenter would like the Operations and Maintenance plan to be reviewed and updated. EPA commits to revising and updating the Operation and Maintenance plan for OU2 when new information necessitates an update. EPA activities completed at the site satisfy the NCP deletion criteria. EPA believes the partial deletion of OU2 of the Libby Asbestos Superfund Site from the NPL is appropriate. A responsiveness summary was prepared and placed in both the docket–EPA–HQ–SFUND–2002–0008, on www.regulations.gov, and in the local repositories listed above.

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Deletion of a site from the NPL does not preclude future remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of portions of a site from the NPL does not affect responsible party liability, in the unlikely event that future conditions warrant further actions.

List of Subjects in 40 CFR Part 300
Environmental protection, Air pollution control, Chemicals, Hazardous waste, Hazardous substances, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Dated: March 29, 2019.
Douglas H. Benevento,
Regional Administrator, Region 8.

For reasons set out in the preamble, 40 CFR part 300 is amended as follows:

PART 300—NATIONAL OIL AND HAZARDOUS SUBSTANCES POLLUTION CONTINGENCY PLAN

1. The authority citation for part 300 continues to read as follows:

2. In Appendix B to part 300, Table 1 is amended by revising the entry for “MT”, “Libby Asbestos”, “Libby” to read as follows:

INTEGRO CODE 1010–50–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

42 CFR Part 59
RIN 09937–AA07

Compliance With Statutory Program Integrity Requirements

AGENCY: Office of the Assistant Secretary for Health, Office of the Secretary, HHS. Department of Health and Human Services.

ACTION: Final rule; correction.

SUMMARY: This document corrects technical errors in the provisions that appeared in the final rule published in
