
Procedures for Disclosure of Records Under the Freedom of Information Act (FOIA)

AGENCY: National Aeronautics and Space Administration.

ACTION: Proposed rule.

SUMMARY: The National Aeronautics and Space Administration (NASA) is proposing to amend its Freedom of Information Act (FOIA) regulations, in accordance with the FOIA Improvement Act of 2016.

DATES: Send comments on or before May 28, 2019.

FOR FURTHER INFORMATION CONTACT: Nikki Gramian, (202) 358–0625, nikki.n.gramian@nasa.gov.

SUPPLEMENTARY INFORMATION: NASA’s last rule amending its FOIA policies was published in the Federal Register at 79 FR 46678, August 11, 2014.

The Freedom of Information Act (FOIA) at 5 U.S.C. 552 requires agencies to “promulgate regulations, pursuant to notice and receipt of public comment, specifying the schedule of fees applicable to the processing of requests [the FOIA] and establishing procedures and guidelines for determining when such fees should be waived or reduced.” Additionally, an agency may, in its regulation, designate those components that can receive FOIA requests, provide for the aggregation of certain requests, and provide for multitrack processing of requests. Finally, the FOIA requires agencies to “promulgate regulations . . . providing for expedited processing of requests for records.”

On June 30, 2016, the FOIA Improvement Act of 2016 (Act) was signed. The Act requires agencies to notify requesters for engaging in dispute resolution through the FOIA Public Liaison and the Office of Government Information Services. It also requires that agencies:

(i) Make records that have been both released previously and requested three or more times available to the public in electronic format,

(ii) establish a minimum of ninety days for requesters to appeal an adverse determination, and

(iii) provide, or direct requesters to dispute resolution services at various times throughout the FOIA process.

The FOIA Improvement Act also adds restrictions to when agencies can charge certain fees if they are not able to meet FOIA’s time limits.

II. Changes Proposed By NASA in This Rulemaking

The revisions required by the 2016 FOIA Improvement Act codifies a “presumption of openness” that was previously a matter of policy. Thus, under NASA’s revised rule, the agency may refuse to disclose requested information “only if the agency reasonably foresees that disclosure would harm an interest protected by an exemption . . . or disclosure is prohibited by law.”

The 2016 FOIA Improvement Act requires NASA to make several changes beneficial to requesters.

• NASA must allow 90 days from the date of the adverse determination (to file an appeal. Previously, FOIA did not set a timeline for requestors to file an appeal, and many agencies set appeal deadlines of 30 days by regulation. The FOIA Improvement Act of 2016 mandates agencies to inform requesters of appeal rights that is not less than 90 days after the date of an adverse determination letter has been issued.

• The Act created the Office of Government Information Services (OGIS) within National Archives and Records Administration. Its mission is to review FOIA policies, procedures and compliance of Federal agencies and identify ways to improve compliance as well as resolving FOIA disputes between Federal agencies and requesters. OGIS first opened in 2009 and since then has assisted requesters and agencies in several thousand FOIA disputes.

• The FOIA Improvement Act specifically requires all agencies to provide dispute resolution services at various times throughout the FOIA process. All forms of FOIA disputes (e.g., agencies release determination, or fee status/fee determination, denial of expedited review, etc.) can be mediated through the Office of Government Information Services (OGIS) or through NASA’s internal FOIA Public Liaison (FPL). The OPEN Government Act of 2007 codified the role of FPL from provisions of the Executive Order 13392. The FPL are given the responsibilities of assisting in reducing delays, increasing transparency, and also resolving disputes.
III. Expected Impact of the Proposed Rule

NASA actively works to make certain its FOIA system operates as efficiently as possible. NASA’s website provides explicit instructions for those who wish to submit a FOIA request and has an electronic library listing categories of documents or information specifically identified for inclusion under FOIA as well as documents or links to information for which NASA has received multiple FOIA requests.

NASA’s FOIA requesters are a diverse community, including lawyers, industry professionals, reporters, and members of the public. Costs for these requesters can include the time required to research NASA’s current FOIA rule and the time and preparation required to submit a request/appeal.

The Agency receives about 900 FOIA requests per year. Half of these requests are from commercial entities seeking information about NASA contracts awarded to winning contractors for services or technology used in a center mission related activity. Other requests are from members of the general public for items such as an image or video, a NASA study or mission activity, or records about an individual associated with NASA.

NASA believes these proposed edits will primarily impact the 450 requesters who are members of the general public for the reasons discussed in Section 2 of the proposed rule. In addition to making it easier to research and review NASA’s FOIA rule before submitting a request, the “housekeeping measures” also discussed in Section 2 of this rule should facilitate FOIA requests and production. Although NASA is unable to quantify these savings, the Agency does believe it is deregulatory in nature in that it provides relief to requestors.

IV. Regulatory Procedures

Executive Order 12866—Regulatory Planning and Review and Executive Order 13563—Improving Regulation and Regulatory Review

Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. This rule is not a significant regulatory action, under E.O. 12866.

Executive Order 13771—Reducing Regulations and Controlling Regulatory Costs

This proposed rule is expected to be an E.O. 13771 deregulatory action. Details can be found in Section III—Expected Impact of the Proposed Rule.

Regulatory Flexibility Act

It has been certified that this rule is not subject to the Regulatory Flexibility Act (5 U.S.C. 601) because it would not, if promulgated, have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

This rule does not contain an information collection requirement subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

Unfunded Mandates Reform Act of 1995

This rule will not result in the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector, of $100,000,000 or more in any one year, and it will not significantly or uniquely affect small governments.

List of Subjects in 14 CFR Part 1206

Administrative practice and procedure, Freedom of Information Act, Privacy Act.

For reasons set forth in the preamble, NASA proposes to amend 14 CFR part 1206 as follows:

PART 1206—PROCEDURES FOR DISCLOSURE OF RECORDS UNDER THE FREEDOM OF INFORMATION ACT (FOIA)

1. The authority citation for part 1206 continues to read as follows:

Subpart A—Basic Policy

2. Amend §1206.100 by revising the section heading to read as follows:

§1206.100 Scope.

3. Amend §1206.101 by adding paragraph (c) to read as follows:

(a) Unofficial release of NASA information: The disclosure of exempt records, without authorization by the appropriate NASA official, is not an official release of information; accordingly, it is not a FOIA release. Such a release does not waive the authority of NASA to assert FOIA exemptions to withhold the same records in response to a FOIA request. In addition, while the authority may exist to disclose records to individuals in their official capacity, the provisions of this part apply if the same individual seeks the records in a private or personal capacity.

Subpart B—Types of Records to be Made Available

§1206.200 [Amended]

4. Amend §1206.200 by:

a. Removing “and copying” and adding in its place “in an electronic format” in paragraph (b)(1) introductory text.

b. Removing “which” and adding in its place “that” and adding “, or that have been requested 3 or more times” after “documents” in paragraph (b)(1)(iv).

d. Removing “1997” and adding in its place “1996” in paragraph (c)(2).

§1206.201 [Amended]

5. Amend §1206.201 by adding “in an electronic format” after the word “copying” in the first sentence.

Subpart C—Procedures

6. Amend §1206.300 by revising paragraphs (a), (b), (d), and (e)(1) to read as follows:

§1206.300 How to make a request for Agency records.

(a) A requester submitting a request for records must include his/her name, and an email or mailing address in order for the Agency to be able to send responsive records and/or to be able to contact the requester to obtain additional information or clarification of the request sought (see §1206.301). The request must also address fees or provide justification for a fee waiver (see §1206.302) as well as address the fee category in accordance with §1206.507. The request should also include a telephone number in case the FOIA office needs to contact the requester regarding the request;
however, this information is optional when submitting a request if an email or mailing address is provided. A requester may also submit a request online via the NASA FOIA website, https://www.nasa.gov/FOIA/Contacts.html. Do not include a social security number on any correspondence with the FOIA office. If the FOIA unit determines processing fees will exceed the fee category entitlement, the unit will require a personal mailing address for billing purposes or for commercial use requesters, a business mailing address.

(b) NASA does not have a central location for submitting FOIA requests and it does not maintain a central index or database of records in its possession. Instead, Agency records are decentralized and maintained by various Centers and offices throughout the country. All NASA Centers have the capability to receive requests electronically, either through email or a web portal. To make a request for any of the NASA Center records, a requester should write directly to the FOIA office of the center that maintains the records being sought. A request will receive the quickest possible response if it is addressed to the FOIA office of the Center that maintains the records requested. If a requester does not know which center(s) may have the requested records, he/she may send his/her request(s) to the NASA’s Headquarters (HQ) FOIA Public Liaison, 300 E Street SW, Room 5L19, Washington, DC 20546, Fax number: (202) 358-4332, email address: hq-foia@nasa.gov, and the HQ FOIA unit will forward the request to the center(s) that it determines to be most likely to maintain the records that are sought.

(d) A member of the public may submit a FOIA request for an Agency record by mail, facsimile (FAX), electronic-mail (email), or by submitting a written request in person to the FOIA office having responsibility over the record requested or to the NASA Headquarters (HQ) FOIA Office. A requester may also submit a request online via the NASA FOIA website. * * * * *

(e) * * *

(1) For locations, mailing/email addresses of NASA FOIA Centers, visit our website at https://www.nasa.gov/FOIA/Contacts.html.

* * * * *

7. Amend § 1206.301 by revising paragraphs (c) and (d) to read as follows:

§ 1206.301 Describing records sought.

* * * * *

(c) If NASA after receiving a request determines that the request does not reasonably describe the records sought, it shall inform the requester what additional information is needed or why the request is otherwise insufficient. Requesters who are attempting to reformulate or modify such a request may discuss their request with the NASA’s designated FOIA contact, or the Principal Agency FOIA Officer, each of whom is available to assist the requester in reasonably describing the records sought. If a request does not reasonably describe the records sought, the agency’s response to the request may be delayed or NASA may at its discretion close the request administratively.

(d) Requests for clarification or more information will be made in writing (either via U.S. mail or electronic mail whenever possible). Requesters may respond by U.S. Mail or by electronic mail regardless of the method used by NASA to transmit the request for additional information. In order to be considered timely, responses to requests for additional information must be postmarked or received by electronic mail within 20 working days of the postmark date or date of the electronic mail request for additional information or received by electronic mail by 11:59:59 p.m. ET on the 20th working day. If the requester does not respond to a request for additional information within the twenty (20) working days, the request may be administratively closed at NASA’s discretion. This administrative closure does not prejudice the requester’s ability to submit a new request for further consideration with additional information.

* * * * *

8. Amend § 1206.302 by revising paragraph (c) to read as follows:

§ 1206.302 Fee agreements.

* * * * *

(c) If the FOIA office does not receive a written request within 20 working days after requesting the information, it will presume the requester is no longer interested in the records requested and will administratively close the request without further notification.

* * * * *

9. Amend § 1206.305 by revising paragraph (a) to read as follows:

§ 1206.305 Responding to requests.

(a) Except in the instances described in paragraphs (e) and (f) of this section, the FOIA office that first receives a request for a record and maintains that record is the FOIA office responsible for responding to the request. The office shall acknowledge the request and assign it an individualized tracking number if it will take longer than ten working days to process. The NASA office responding to the request shall include in the acknowledgment a brief description of the records sought to allow requesters to more easily keep track of their requests.

* * * * *

10. Amend § 1206.306 by revising paragraph (a) to read as follows:

§ 1206.306 Granting a request.

(a) Ordinarily, NASA shall have twenty (20) working days from when a request is received to determine whether to grant or deny the request unless there are unusual or exceptional circumstances. The FOIA office will not begin processing a request until all issues regarding scope and fees have been resolved. NASA will notify the requester of the availability of the FOIA Public Liaison to offer assistance in resolving these issues.

* * * * *

11. Amend § 1206.307 by revising paragraphs (a)(2) and (b)(4) to read as follows:

§ 1206.307 Denying a request.

(a) * * *

(2) Records do not exist, cannot be located, are not in the Agency's possession, or the request does not reasonably describe the records sought; or

(b) * * *

(4) A statement that the denial may be appealed under subpart G of this part and a description of the requirements set forth therein. NASA shall also inform the requester of the availability of its FOIA Public Liaison to offer assistance, and include a statement notifying the requester of the dispute resolution services offered by the Office of Government Information Services (OGIS). Should the requester elect to mediate any dispute related to the FOIA request with OGIS, NASA will participate in the mediation process in good faith.

* * * * *

Subpart D—Procedures and Time Limits for Responding to Requests

12. Amend § 1206.401 by revising paragraph (e) to read as follows:

§ 1206.401 Procedures and time limits for acknowledgement letters and initial determinations.

* * * * *

(e) Any notification of an initial determination that does not comply fully with the request for an Agency record, including those searches that produce no responsive documents, shall include a statement of the reasons for
the adverse determination, include the name and title of the person making the initial determination, and notify the requester of the right to appeal to the Administrator or the Inspector General, as appropriate, pursuant to subpart G of this part, and the right to seek dispute resolution services from the NASA FOIA Public Liaison or Office of Government Information Services.

13. Amend §1206.403 by revising paragraphs (c) to read as follows:

§1206.403 Time extensions

(a) If a NASA component has determined that unusual circumstances as defined by the FOIA apply and the component provided timely written notice to the requester in accordance with the FOIA, a failure to comply with the time limit shall be excused for an additional 10 days.

(b) If a NASA component has determined that unusual circumstances as defined by the FOIA apply and the component provided timely written notice to the requester in accordance with the FOIA, a failure to comply with the time limit shall be excused for an additional 10 days.

(c) If initial processing time will exceed or is expected to exceed 30 working days, the FOIA office will notify the requester of the delay in processing and:

(1) Provide the opportunity to limit the scope of the request so that it may be processed within that time limit or an opportunity to arrange with the agency an alternative time frame for processing the request or a modified request;

(2) Provide contact information for the NASA FOIA Public Liaison;

(3) Offer the right of the requester to seek dispute resolution services from the Office of Government Information Services;

(4) Provide information regarding the intended determination; and

(5) Shall make available its designated FOIA contact and its FOIA Public Liaison for this purpose.

* * * * *

Subpart E—Fees Associated With Processing Requests

14. Amend §1206.502 by revising paragraphs (d) and (f) to read as follows:

(d) For copies of records produced on tapes, disks, or other electronic media, FOIA offices will charge the direct costs of producing the copy in the form or format requested, including the time spent by personnel duplicating the requested records. For each quarter hour spent by personnel duplicating the requested records, the fees will be the same as those charged for a search under this subpart.

* * * * *

(f) For other forms of duplication, FOIA offices will charge the direct costs as well as any associated personnel costs. For standard-sized copies of documents such as letters, memoranda, statements, reports, contracts, etc., $0.15 per copy of each page; charges for double-sided copies will be $0.30. For copies of oversized documents, such as maps, charts, etc., fees will be assessed as direct costs. Charges for copies (and scanning) include the time spent in duplicating the documents. For copies of computer disks, still photographs, blueprints, videotapes, engineering drawings, hard copies of aperture cards, etc., the fee charged will reflect the direct cost to NASA of reproducing, copying, or scanning the record. In circumstances where a request for a videotape or other outdated media is requested and NASA does not have the capability to readily reproduce the record in the form or format requested and which requires the Agency to enlist the services of a private contractor to fulfill the request, the direct costs of any services by the private contractor will be charged to the requester. Specific charges will be provided upon request.

* * * * *

15. Revise §1206.503 to read as follows:

§1206.503 Restrictions on charging fees.

(a) No search fees will be charged for requests by educational institutions, noncommercial scientific institutions, or representatives of the news media, unless the records are sought for a commercial use.

(b) In cases in which a requester has been informed by the FOIA office that the requested records are not available, the agency may charge search fees, or, in the instances of requests from requesters described in paragraph (a) of this section, may not charge duplication fees, except as described in paragraphs (b)(1) through (3) of this section.

(1) If a NASA component has determined that unusual circumstances as defined by the FOIA apply and the component provided timely written notice to the requester in accordance with the FOIA, a failure to comply with the time limit shall be excused for an additional 10 days.

(2) If NASA has determined that unusual circumstances, as defined by the FOIA, apply and more than 5,000 pages are necessary to respond to the request, the agency may charge search fees, or, in the instances of requesters described in paragraph (a) of this section, may charge duplication fees, if the following steps are taken. The agency must have provided timely written notice of unusual circumstances to the requester in accordance with the FOIA and the component must have discussed with the requester via written mail, email, or telephone (or made not less than three good-faith attempts to do so) how the requester could effectively limit the scope of the request in accordance with §5 U.S.C. 552(a)(6)(B)(ii). If this exception is satisfied, the agency may charge all applicable fees incurred in the processing of the request.

(3) If a court has determined that exceptional circumstances exist, as defined by the FOIA, a failure to comply with the time limits shall be excused for the length of time provided by the court order.

(c) No search or review fees will be charged for a quarter-hour period unless more than half of that period is required for search or review.

(d) Except for requesters seeking records for a commercial use, NASA will provide without charge:

(1) The first 100 pages of duplication (or the cost equivalent for other media); and

(2) The first two hours of search.

(e) When, after first deducting the 100 free pages (or its cost equivalent) and the first two hours of search, a total fee calculated under §1206.504 is less than $50.00 for any request, no fee will be charged.

16. Amend §1206.504 by revising paragraphs (a) through (c) to read as follows:

§1206.504 Charging fees.

(a) NASA shall charge for processing requests under the FOIA in accordance with the provisions of this section and the OMB Guidelines. NASA will ordinarily use the most efficient and least expensive method for processing requested records. In order to resolve any fee issues that arise under this section, NASA may contact a requester for additional information. A component ordinarily will collect all applicable fees before sending copies of records to a requester. The submission of a FOIA request shall be considered a firm commitment by the requester to pay all applicable fees charged under this section, up to $50.00, unless the requester seeks a waiver of fees. Requesters must pay fees by check or money order made payable to the Treasury of the United States. When a FOIA office determines or estimates the fees to be assessed in accordance with this section will amount to or exceed $50.00, the FOIA office shall notify the requester unless the requester has indicated a willingness to pay fees as high as those anticipated. If a portion of the fees can be readily estimated, the FOIA office shall advise the requester accordingly.

(b) In cases in which a requester has been notified that actual or estimated fees are in excess of $50.00, the request shall be placed on hold and further work will not be completed until the requester commits in writing to pay the actual or estimated fees. Such a commitment must be made by the
requester in writing, must indicate a given dollar amount or a willingness to pay all processing fees, and must be received by the FOIA office within 20 working days from the date of the letter providing notification of the fee estimate. If the requester is a noncommercial use requester, the notice shall specify that the requester is entitled to the statutory entitlements of 100 pages of duplication at no charge and, if the requester is charged search fees, two hours of search time at no charge, and shall advise the requester whether those entitlements have been provided.

(c) After the FOIA office begins processing a request, if it finds that the actual cost will exceed the amount the requester previously agreed to pay, the FOIA office will stop processing the request and promptly notify the requester of the higher amount. The request will be placed on hold until the fee issue has been resolved. If the issue is not resolved within 20 working days from the date of the notification letter, NASA will provide the requester, if the requester is a non-commercial use requester, the statutory entitlements of 100 pages of duplication at no charge and shall advise the requester that his statutory entitlements have been provided before closing the request.

17. Amend §1206.505 by revising paragraph (e) to read as follows:

§1206.505 Advance payments.

(e) In cases in which a FOIA office requires advance payment, the request shall not be considered received and further work will not be completed until the required payment is received. If the requester does not pay the advance payment within 20 working days after the date of the FOIA office’s letter, the request will be closed without further notification.

18. Amend §1206.506 by revising paragraphs (d) and (e) to read as follows:

§1206.506 Requirements for a waiver or reduction of fees.

(d) In deciding whether the standards of paragraph (c)(1) of this section are satisfied the agency must consider the factors described in paragraphs (d)(1) through (3) of this section:

(1) Disclosure of the requested information would shed light on the operations or activities of the Federal Government with a connection that is direct and clear, not remote or attenuated.

(2) Disclosure of the requested information would be likely to contribute significantly to public understanding of those operations or activities. This factor is satisfied when the following criteria are met:

(i) Disclosure of the requested records must be meaningfully informative about government operations or activities. The disclosure of information that already is in the public domain, in either the same or a substantially identical form, would not be meaningfully informative if nothing new would be added to the public’s understanding.

(ii) The disclosure must contribute to the understanding of a reasonably broad audience of persons interested in the subject, as opposed to the individual understanding of the requester. A requester’s expertise in the subject area as well as the requester’s ability and intention to effectively convey information to the public must be considered. NASA will presume that a representative of the news media will satisfy this consideration.

(3) The disclosure must not be primarily in the commercial interest of the requester. To determine whether disclosure of the requested information is primarily in the commercial interest of the requester, components will consider the following criteria:

(i) NASA and its centers processing requests must identify whether the requester has any commercial interest that would be furthered by the requested disclosure. A commercial interest includes any commercial, trade, or profit interest. Requesters must be given an opportunity to provide explanatory information regarding this consideration.

(ii) If there is an identified commercial interest, NASA must determine whether that is the primary interest furthered by the request. A waiver or reduction of fees is justified when the requirements of paragraphs (d)(1) and (2) of this section are satisfied and any commercial interest is not the primary interest furthered by the request. NASA ordinarily will presume that when a news media requester has satisfied the requirements of paragraphs (d)(1) and (2) of this section, the request is not primarily in the commercial interest of the requester. Disclosure to data brokers or others who merely compile and market government information for direct economic return will not be presumed to primarily serve the public interest.

(4) Where only some of the records to be released satisfy the requirements for a waiver of fees, a waiver shall be granted for those records.

(5) Requests for a waiver or reduction of fees should be made when the request is first submitted to NASA and should address the criteria referenced in paragraph (d) of this section. A requester may submit a fee waiver request at a later time so long as the underlying record request is pending or on administrative appeal. When a requester who has committed to pay fees subsequently asks for a waiver of those fees and that waiver is denied, the requester shall be required to pay any costs incurred up to the date the fee waiver request was received.

(e) FOIA offices may make available their FOIA Public Liaison or other FOIA professional to assist any requester in reformulating a request in an effort to reduce fees; however, the FOIA staff may not assist a requester in composing a request, advising what specific records to request, or how to write a request to qualify for a fee waiver.

19. Amend §1206.507 by revising paragraphs (c)(1) through (4) to read as follows:

§1206.507 Categories of requesters.

(c) * * * *

(1) Commercial use requesters. When NASA receives a request for documents appearing to be for commercial use, meaning a request from or on behalf of one whom seeks information for a use or purpose that furthers the commercial, trade, or profit interests, which can include furthering those interests through litigation, of either the requester or the person on whose behalf the request is made, it will assess charges to recover the full direct costs of searching for, reviewing for release, and duplicating the records sought. NASA will not consider a commercial-use request for a waiver or reduction of fees based upon an assertion that disclosure would be in the public interest. A request from a corporation (not a news media corporation) may be presumed to be for commercial use unless the requester demonstrates that it qualifies for a different fee category. Commercial use requesters are not entitled to two (2) hours of search time or to 100 pages of duplication of documents without charge.

(2) Education and non-commercial scientific institution requesters. To be eligible for inclusion in this category, requesters must show that the request being made is authorized by and under the auspices of a qualifying institution and that the records are not being sought for a commercial use (not
Representative of the news media is any person or entity that gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience. The term “news” means information that is about current events or that would be of current interest to the public. Examples of new media entities include television or radio stations that broadcast “news” to the public at large and publishers of periodicals that disseminate “news” and make their products available through a variety of means to the general public, including news organizations that disseminate solely on the internet. A request for records supporting the news-dissemination function of the requester will not be considered to be for a commercial use. “Freelance” journalists who demonstrate a solid basis for expecting publication through a news media entity will be considered as a representative of the news media. A publishing contract would provide the clearest evidence that publication is expected; however, agencies can also consider a requester’s past publication record in making this determination. Agencies will advise requesters of their placement in this category. NASA’s decision to grant a requester news media status for the purposes of assessing fees will be made on a case-by-case basis based upon the requesters intended use.

(iii) Requesters seeking this fee category who do not articulate sufficient information to support their request will not be included in this fee category. Additionally, FOIA staff may grant a reduction of fees if the requester can provide evidence to support the news-dissemination purpose for the request, regardless of whether it was written on institutional stationery.

(ii) Educational institution is any school that operates a program of scholarly research. A requester in this fee category must show that the request is made in connection with the requester’s role at the educational institution. NASA may seek assurance from the requester that the request is in furtherance of scholarly research and will advise requesters of their placement in this category. A request for educational purposes may be presumed if submitted on the Institution’s letterhead and signed by the Dean of the School or Department.

(A) Example 1. A request from a professor of geology at a university for records relating to soil erosion, written on letterhead of the Department of Geology, would be presumed to be from an educational institution.

(B) Example 2. A request from the same professor of geology seeking drug information from the Food and Drug Administration in furtherance of a murder mystery he is writing would not be presumed to be an institutional request, regardless of whether it was written on institutional stationery.

(C) Example 3. A student who makes a request in furtherance of the student’s coursework or other school-sponsored activities and provides a copy of a course syllabus or other reasonable documentation to indicate the research purpose for the request, would qualify as part of this fee category.

(ii) For the purposes of a non-commercial scientific institution, it must be solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry. Requests must be sent on the letterhead of the scientific institution and signed by the responsible official in charge of the project/program associated with the subject of the documents that are being requested.

(3) Representative of the news media. (i) NASA shall provide documents to requesters in this category for the cost of duplication alone, excluding charges for the first 100 pages when the requester demonstrates the following:

(A) The requester’s intended dissemination,

(B) Whether the information is current news and/or of public interest, and

(C) Whether the information sought will shed new light on agency statutory operations.

Subpart G—Appeals

§1206.700 [Amended]

20. Amend §1206.700 by:

■ a. Removing the number “30” and adding in its place the number “90” in paragraph (a);

■ b. Adding “Room 8U71, 300 E Street SW,” after the second occurrence of the word “Headquarters” in paragraph (b)(2); and

■ c. Removing the number “30” and adding in its place the number “90” in paragraph (b)(6).

Subpart H—Responsibilities

■ 22. Amend §1206.801 by revising paragraphs (b)(1) and (6) and (c) to read as follows:

§1206.801 Chief FOIA Officer.

* * * * *

(b) * * *

(1) Developing regulations in consultation with the Office of General Counsel, providing guidelines, procedures, and standards for the Agency’s FOIA program;

* * * * *

(6) Preparing all other reports as required to DOJ, OGIS, and Congress or within the Agency;

* * * * *

(c) The Chief FOIA Officer is responsible for ensuring NASA has appointed FOIA Public Liaisons, who are responsible for and able to assist in reducing delays, increasing transparency and understanding of the status of requests, and assisting in the resolution of disputes at each Center or Component.

■ 23. Amend §1206.804 by revising paragraphs (b) and (c) to read as follows:

§1206.804

* * * * *

(b) This delegated authority has further been delegated to the FOIA Officers who are designated to work at NASA Centers and supervised by the Director of Public Affairs or Head of the Public Affairs Office for that Center. If a FOIA Officer working at a particular NASA center vacates the position, the Deputy Associate Administrator for Communications will designate a new FOIA Officer, supervised by the Principal Chief FOIA Officer, to process FOIA requests for that particular center.

(c) When denying records in whole or in part, the FOIA Officer designated to process records for the Center will consult with the Chief Counsel or the Counsel charged with providing legal advice to that FOIA office before releasing an initial determination under §1206.307.

§1206.805 [Amended]

24. Amend §1206.805 by adding a comma after the second occurrence of the word “General” in paragraph (a).

* * * * *

Cheryl E. Parker,
Federal Register Liaison Officer.
