Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Acting Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an exempted fishing permit application submitted by the Cape Cod Commercial Fishermen's Alliance contains all of the required information and warrants further consideration. This exempted fishing permit would require participants to use electronic monitoring systems on 100 percent of sector trips for catch accounting in the Northeast multispecies fishery; additionally, vessels would be authorized to access portions of Northeast multispecies closed areas. Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed exempted fishing permits.

DATES: Comments must be received on or before April 29, 2019.

ADDRESSES: You may submit written comments by either of the following methods:

- *Email:* nmfs.gar.efp@noaa.gov. Include in the subject line "100 PERCENT EM EFP."
- *Mail:* Michael Pentony, Regional Administrator, NMFS, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope "100 PERCENT EM EFP."

FOR FURTHER INFORMATION CONTACT: Spencer Talmage, Fishery Management Specialist, 978-281-9232.

SUPPLEMENTARY INFORMATION: Northeast multispecies (groundfish) sectors are required to implement and fund an at-sea monitoring (ASM) program. Sectors may use electronic monitoring (EM) to satisfy this monitoring requirement, provided that NMFS deems the technology sufficient for catch monitoring. NMFS has yet to approve EM as a suitable alternative to ASM. However, NMFS is working with industry and other stakeholders to test the operational feasibility of EM and resolve outstanding barriers to implementation. Project partners include the Cape Cod Commercial Fishermen's Alliance, The Nature Conservancy, the Maine Coast Fishermen's Association, the Gulf of Maine Research Institute, and fishermen.

In fishing year 2017, NMFS issued an exempted fishing permit (EFP) to these project partners to develop an audit-model EM program for the groundfish
