

SUMMARY: In order to afford eligible applicants the opportunity to apply, the Assistant Secretary for Elementary and Secondary Education reopens, for certain prospective eligible applicants, the FY 2019 Education Innovation and Research Early-phase competition, Catalog of Federal Domestic Assistance (CFDA) number 84.411C. The Assistant Secretary takes this action to allow more time for the preparation and submission of applications by prospective eligible applicants affected by the severe storms and flooding in parts of Iowa, Nebraska, and Alabama, as well as areas impacted by the Ironworks Fire in New Mexico, which have been designated for Individual Assistance or Public Assistance under Presidential major disaster or fire management assistance declarations under DR-4421, DR-4420, DR-4419, and FM-5281, respectively.

DATES: *Deadline for Transmittal of Applications:* April 23, 2019.

Deadline for Intergovernmental Review: June 24, 2019.

FOR FURTHER INFORMATION CONTACT: Irene Montanti, U.S. Department of Education, 400 Maryland Avenue SW, Room 3E323, Washington, DC 20202. Telephone: (202) 453-7122. Email: eir@ed.gov.

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS), toll free, at 1-800-877-8339.

SUPPLEMENTARY INFORMATION: On February 1, 2019, we published in the **Federal Register** (84 FR 1093) a notice inviting applications for new awards for FY 2019 for the Education Innovation and Research Early-phase competition (NIA). We are reopening this competition in order to allow certain eligible applicants more time to prepare and submit their applications.

Eligibility: The reopening of this competition applies to eligible applicants under the Education Innovation and Research Early-phase competition that are located in a federally declared disaster area, as determined by the Federal Emergency Management Agency (FEMA) under declarations DR-4421, DR-4420, DR-4419, or FM-5281. These are areas adversely affected by the severe storms and flooding in parts of Iowa, Nebraska, and Alabama, as well as areas impacted by the Ironworks Fire in New Mexico. The federally-declared disaster areas under each of these declarations are the jurisdictions identified by FEMA in which assistance to individuals or public assistance has been authorized.

An eligible applicant for the Education Innovation and Research

Early-phase competition is defined in the NIA.

An eligible applicant submitting an application as part of the reopened competition must provide a certification in its application that it is located in a jurisdiction that is part of one of the applicable federally-declared disaster areas and must provide appropriate supporting documentation, if requested.

We are not reopening the application period for all applicants. Thus, applications from applicants not affected by the natural disasters referenced in this notice may not be submitted as part of this reopened period for submission of applications.

See the Emergency Declarations available at: www.fema.gov/disaster/4421; www.fema.gov/disaster/4420; www.fema.gov/disaster/4419; and www.fema.gov/disaster/5281 to determine if you are eligible to apply as part of this reopened competition.

Note: All information in the NIA remains the same, except for the deadline date for certain eligible entities and the deadline for intergovernmental review.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-470]

Application To Export Electric Energy; EDECSAMEX, S.A. de C.V.

AGENCY: Office of Electricity, Department of Energy (DOE).

ACTION: Notice of application.

SUMMARY: EDECSAMEX, S.A. de C.V. (Applicant or EDECSAMEX) has applied for authorization to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before May 20, 2019.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: The Department of Energy (DOE) regulates exports of electricity from the United States to a foreign country, pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 7172(f)). Such exports require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On April 2, 2019, DOE received an application from EDECSAMEX for authorization to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. The Applicant intends to apply for authority from the Federal Energy Regulatory Commission (FERC) to sell electricity at wholesale market-based rates.

In its application, the Applicant states that it does not “own or control (nor hold an interest in other entities that own or control) any electric power generation or transmission facilities within the United States” and that it does not “hold a franchised electric power service area nor have a native

load obligation.” The electric energy that the Applicant proposes to export to Mexico would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s (FERC) Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five (5) copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning EDECSAMEX’s application to export electric energy to Mexico should be clearly marked with OE Docket No. EA–470. An additional copy is to be provided directly to both Vahid Sadeghpour, EDECSAMEX, S.A. de C.V., 2615 Centenary Street, Houston, Texas 77005, and Gregory Arroyo, Jr., EDECSAMEX, S.A. de C.V., 124 Palm Blvd., Missouri City, Texas 77459.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE’s National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after DOE determines that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program website at <http://energy.gov/node/11845>, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Signed in Washington, DC, on April 15, 2019.

Christopher Lawrence,

*Management and Program Analyst,
Transmission Permitting and Technical Assistance, Office of Electricity.*
