

rule and this rule finalizes those regulations without change.

Regulatory Flexibility Act

This rule finalizes the amendment of the Department of Justice's regulations under the FOIA to incorporate certain changes made by the FOIA Improvement Act of 2016, and to reflect developments in the case law and to streamline the description of the factors to be considered when making fee waiver determinations. Because the Department was not required to publish a notice of proposed rulemaking for this rule, a Regulatory Flexibility analysis is not required. 5 U.S.C. 603(b).

Executive Order 13132—Federalism

This regulation will not have substantial direct effects on the States, on the relationship between the national government and the States, or on distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 13132, the Department has determined that this rule does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement.

Executive Order 12988—Civil Justice Reform

This regulation meets the applicable standards set forth in sections 3(a) and 3(b)(2) of Executive Order 12988.

Unfunded Mandates Reform Act of 1995

This rule will not result in the expenditure by State, local and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any one year, and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

Congressional Review Act

This rule is not a major rule as defined by the Congressional Review Act. 5 U.S.C. 804.

Paperwork Reduction Act

This rule imposes no information collection or record keeping requirements.

[USCG–2019–0255]

2019 Quarterly Listings; Safety Zones, Security Zones, Special Local Regulations, Drawbridge Operation Regulations and Regulated Navigation Areas

AGENCY: Coast Guard, DHS.

ACTION: Notification of expired temporary rules issued.

SUMMARY: This document provides notification of substantive rules issued by the Coast Guard that were made temporarily effective but expired before they could be published in the **Federal Register**. This document lists temporary safety zones, security zones, special local regulations, drawbridge operation regulations and regulated navigation areas, all of limited duration and for which timely publication in the **Federal Register** was not possible.

DATES: This document lists temporary Coast Guard rules that became effective, primarily between December 2018 and March 2019, unless otherwise indicated, and were terminated before they could be published in the **Federal Register**.

ADDRESSES: Temporary rules listed in this document may be viewed online, under their respective docket numbers, at <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: For questions on this document contact Deborah Thomas, Office of Regulations and Administrative Law, telephone (202) 372–3864.

SUPPLEMENTARY INFORMATION: Coast Guard District Commanders and Captains of the Port (COTP) must be immediately responsive to the safety and security needs within their jurisdiction; therefore, District Commanders and COTPs have been

delegated the authority to issue certain local regulations. *Safety zones* may be established for safety or environmental purposes. A safety zone may be stationary and described by fixed limits or it may be described as a zone around a vessel in motion. *Security zones* limit access to prevent injury or damage to vessels, ports, or waterfront facilities. *Special local regulations* are issued to enhance the safety of participants and spectators at regattas and other marine events. *Drawbridge operation regulations* authorize changes to drawbridge schedules to accommodate bridge repairs, seasonal vessel traffic, and local public events. *Regulated Navigation Areas* are water areas within a defined boundary for which regulations for vessels navigating within the area have been established by the regional Coast Guard District Commander.

Timely publication of these rules in the **Federal Register** may be precluded when a rule responds to an emergency, or when an event occurs without sufficient advance notice. The affected public is, however, often informed of these rules through Local Notices to Mariners, press releases, and other means. Moreover, actual notification is provided by Coast Guard patrol vessels enforcing the restrictions imposed by the rule. Because **Federal Register** publication was not possible before the end of the effective period, mariners were personally notified of the contents of these safety zones, security zones, special local regulations, regulated navigation areas or drawbridge operation regulations by Coast Guard officials on-scene prior to any enforcement action. However, the Coast Guard, by law, must publish in the **Federal Register** notice of substantive rules adopted. To meet this obligation without imposing undue expense on the public, the Coast Guard periodically publishes a list of these temporary safety zones, security zones, special local regulations, regulated navigation areas and drawbridge operation regulations. Permanent rules are not included in this list because they are published in their entirety in the **Federal Register**. Temporary rules are also published in their entirety if sufficient time is available to do so before they are placed in effect or terminated.

The following unpublished rules were placed in effect temporarily during the period between December 2018 and March 2019 unless otherwise indicated. To view copies of these rules, visit www.regulations.gov and search by the docket number indicated in the following table.

Docket No.	Type	Location	Effective date
USCG-2018-0818	Safety Zones (Parts 147 and 165)	Sunken Vessel Charleston Harbor; Charleston, SC.	11/18/18

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 110

[Docket Number USCG-2017-0181]

RIN 1625-AA01

Anchorage Grounds; Baltimore Harbor, Baltimore, MD

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is amending its Baltimore Harbor anchorage grounds regulation. The changes will reduce the size of three general anchorages, establish one new general anchorage, rename two existing general anchorages, and change the duration a vessel may remain within an anchorage for two existing general anchorages. This rule will ensure that Coast Guard regulations are consistent with the U.S. Army Corps of Engineers Baltimore District Port of Baltimore Anchorages and Channels civil works project that widened the channel, and provide a higher degree of safety to persons, property and the

environment by accurately depicting the anchorage locations. The changes to the regulated uses of the anchorages will support current and future port activity related to the safety of post-Panamax commercial cargo vessels, and will remove vessel security provisions that currently exist in these Baltimore Harbor regulations.

DATES: This rule is effective May 23, 2019.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov>, type USCG-2017-0181 in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this rule.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Mr. Ronald L. Houck, U.S. Coast Guard, Sector Maryland-National Capital Region, Waterways Management Division, Coast Guard; telephone (410) 576-2674, email Ronald.L.Houck@uscg.mil.

 U.S.C. United States Code

II. Background Information and Regulatory History

Anchorage regulation duties and powers were transferred to the Coast Guard in 1967 (32 FR 17726, Dec. 12, 1967). On December 12, 1968, the Fifth Coast Guard District published a final rule in the **Federal Register** (33 FR 18438) establishing an anchorage area in Baltimore Harbor, Maryland. The anchorage grounds at Baltimore, Maryland are described in 33 CFR 110.158. These anchorage grounds are involved in a federal navigation project under the jurisdiction of the U.S. Army Corps of Engineers Baltimore District. Section 101a(22) of the Water Resources Development Act of 1999 (Pub. L. 106-53, 113 Stat 269 (1999)) authorized widening of the Dundalk and Seagirt Marine Terminal channels. Widening of the Seagirt Marine Terminal channel occurred in 2015. This dredging widened the limits of existing navigation channels which are used to access key Maryland Port Administration marine terminals located immediately adjacent to the Baltimore Harbor, Maryland anchorage grounds, and put the existing anchorage grounds in the way of the newly expanded navigation channels. To address these changes, Sector Maryland-National Capital Region, Baltimore, Maryland, worked in coordination with the Port of Baltimore Harbor Safety and Coordination Committee to develop proposed
