

through quarterly cluster report forms that will be completed by health departments for clusters that they have identified and for which they are actively conducting response activities. Health departments will complete an initial cluster report form when a cluster is first identified, a cluster follow-up form for each quarter in which the cluster response remains active and a cluster close-out form when cluster response activities are closed or at annual intervals while a cluster response remains active. Completion of forms will be determined by the number of clusters detected. Health departments that do not identify recent and rapid clusters of HIV transmission will not complete any cluster report forms, while some jurisdictions will detect multiple

recent and rapid clusters of HIV transmission, necessitating the completion of multiple cluster report forms. CDC estimates on average health departments will provide information for 2.5 cluster initial cluster reports, five Cluster Follow-up Form reports, and 2.5 Cluster Close-out Form reports annually.

Perinatal HIV surveillance and prevention activities with HIV exposure reporting and perinatal services coordination is an integrated approach to advancing the progress toward perinatal HIV elimination goals. A subset of 16 health departments in the most affected jurisdictions will be reporting using the Perinatal Exposure Reporting (PHER) form to monitor and evaluate perinatal HIV prevention

efforts. An estimated 197 reports containing perinatal exposure data elements will be processed on average annually by each of the 16 health departments reporting data collected as part of PHER. These supplemental data are also reported monthly to CDC.

The Standards Evaluation Report (SER) is used by CDC and Health Departments to improve data quality, interpretation, usefulness, and surveillance system efficiency, as well as to monitor progress toward meeting surveillance program objectives. The information collected for the SER includes a brief set of questions about evaluation outcomes and the collection of laboratory data that will be reported one time a year by each 59 health departments.

TABLE 1—ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Health Departments	Adult HIV Case Report	59	854	20/60	16,795
Health Departments	Pediatric HIV Case Report	59	3	20/60	59
Health Departments	Case Report Evaluations	59	86	20/60	1,691
Health Departments	Case Report Updates	59	2,353	2/60	4,627
Health Departments	Laboratory Updates	59	9,410	0.5/60	4,627
Health Departments	Deduplication Activities	59	2,741	10/60	26,953
Health Departments	Investigation Reporting and Evaluation	59	901	1/60	886
Health Departments	Initial Cluster Report Form	59	2.5	1	148
Health Departments	Cluster Follow-up Form	59	5	30/60	148
Health Departments	Cluster Close-out Form	59	2.5	1	148
Health Departments	Perinatal HIV Exposure Reporting (PHER)	16	197	30/60	1,576
Health Departments	Annual Reporting: Standards Evaluation Report (SER).	59	1	8	472
Total	58,129

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; National and Tribal Evaluation of the 2nd Generation of the Health Profession Opportunity Grants (OMB #0970-0462)

AGENCY: Office of Planning, Research, and Evaluation, Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: The Administration for Children and Families (ACF), U.S. Department of Health and Human

Services (HHS) is proposing data collection activities as part of the Health Profession Opportunity Grants (HPOG) to Serve TANF Recipients and Other Low Income Individuals. ACF has developed a multi-pronged research and evaluation approach for the HPOG Program to better understand and assess the activities conducted and their results. Two rounds of HPOG grants have been awarded—the first in 2010 (HPOG 1.0) and the second in 2015 (HPOG 2.0). There are federal evaluations associated with each round of grants. HPOG grants provide funding to government agencies, community-based organizations, post-secondary educational institutions, and tribal-affiliated organizations to provide education and training services to Temporary Assistance for Needy Families (TANF) recipients and other low-income individuals, including tribal members. Under HPOG 2.0, ACF provided grants to five tribal-affiliated

organizations and 27 non-tribal entities. OMB previously approved data collection under OMB Control Number 0970-0462 for the HPOG 2.0 National and Tribal Evaluation. The first submission, approved in August 2015, included baseline data collection instruments and the grant performance management system. A second submission, approved in June 2017, included additional data collection for the National Evaluation impact study, the National Evaluation descriptive study, and the Tribal Evaluation. A third submission for National Evaluation impact study data collection was approved in June 2018. The proposed data collection activities described in this **Federal Register** Notice will provide data for the impact, descriptive, and cost benefit studies of the 27 non-tribal grantees participating in the National Evaluation of HPOG 2.0.

DATES: Comments due within 30 days of publication. OMB is required to make a

decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget Paperwork Reduction Project *Email: OIRA_SUBMISSION@OMB.EOP.GOV* Attn: Desk Officer for the Administration for Children and Families.

Copies of the proposed collection may be obtained by emailing *OPREinfocollection@acf.hhs.gov*. Alternatively, copies can also be obtained by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 330 C Street SW, Washington, DC 20201, Attn: OPRE Reports Clearance Officer. All requests, emailed or written, should be identified by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The HPOG 2.0 National Evaluation pertains only to the 27 non-tribal grantees that received HPOG 2.0 funding. The design for the National Evaluation features an impact study, a descriptive study, and a cost benefit study. The National Evaluation is using an *experimental design* to measure and analyze key participant outcomes including completion of education and training, receipt of certificates and/or degrees, earnings, and employment in a healthcare career. The impact evaluation will assess the outcomes for study participants that were offered HPOG 2.0 training, financial assistance, and support services, compared to outcomes for a control group that were not offered HPOG 2.0 services. ACF and the study team estimates that the non-tribal grantees will randomize about 40,000 applicants. As detailed in the burden estimates below, the study team will only survey a subset of those randomized. The goal of the descriptive study is to describe and assess the implementation, systems change, outcomes, and other important

information about the operations of the 27 non-tribal HPOG grantees, which are operating 38 distinct programs. To achieve these goals, it is necessary to collect data about the non-tribal HPOG programs' design and implementation, HPOG partner and program networks, the composition and intensity of HPOG services received by participants, participant characteristics and HPOG experiences, and participant outputs and outcomes. The cost benefit study will estimate the costs of providing the HPOG 2.0 programs and compare the costs with gains in participant employment and earnings measured in the impact analysis. To achieve this goal, it is necessary to collect information from the 38 HPOG 2.0 programs on the cost of providing education and training and associated services. This Notice provides the opportunity to comment on proposed new information collection activities for the HPOG 2.0 National Evaluation's impact, descriptive, and cost-benefit studies.

The information collection activities to be submitted in the request package include:

1. *Screening Interview to identify respondents for the HPOG 2.0 National Evaluation descriptive study second-round telephone interviews.*
2. *HPOG 2.0 National Evaluation descriptive study second-round telephone interview guide* for program management, staff, partners, and stakeholders. These interviews will confirm or update information collected in a first round of calls, approved in June 2017. The second round interviews will update or confirm any new information about the HPOG program context and about program administration, activities and services, partner and stakeholder roles and networks, and respondent perceptions of the program's strengths.
3. *HPOG 2.0 National Evaluation descriptive study program operator interview guide* will collect information for the systems study from HPOG 2.0 programs operators. These interviews will collect information on how local service delivery systems (*i.e.*, the economic and service delivery environment in which specific HPOG

2.0 programs operate) may have influenced HPOG program design and implementation and how HPOG 2.0 implementation may have influenced these local systems.

4. *HPOG 2.0 National Evaluation descriptive study partner interview guide* will collect information for the systems study from HPOG 2.0 partner organizations.

5. *HPOG 2.0 National Evaluation descriptive study participant in-depth interview guide* will collect qualitative information about the experiences of treatment group members participating in HPOG 2.0 program services.

6. *Intermediate Follow-up Survey for the HPOG 2.0 National Evaluation impact study* will collect information from both treatment and control group members at the 27 non-tribal grantees, approximately 36 months after baseline data collection and random assignment. (Instrument 18_HPOG 2.0 Intermediate Follow-up Survey_10172018_FINAL.doc)

7. *HPOG 2.0 National Evaluation impact study instrument for a Pilot Study of Phone-Based Skills Assessment* will collect information from HPOG 2.0 study participants in a subset of non-tribal grantee programs. The phone-based questionnaire will pilot an assessment of respondents' literacy and numeracy skills to inform the selection of survey questions for inclusion in the intermediate follow-up survey.

8. *HPOG 2.0 National Evaluation Program Cost Survey* will collect information from program staff at the 27 non-tribal grantees to support the cost-benefit study.

At this time, the Department does not foresee the need for any subsequent requests for clearance for the HPOG 2.0 National and Tribal Evaluations.

Respondents: HPOG impact study participants from the 27 non-tribal HPOG 2.0 grantees (treatment and control group); HPOG program managers; HPOG program staff; and representatives of partner agencies and stakeholders, including support service providers, educational and vocational training partners, Workforce Investment Boards, and TANF agencies.

ANNUAL BURDEN ESTIMATES

Instrument	Total number of respondents	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
Screening interview to identify respondents for the HPOG 2.0 National Evaluation descriptive study second-round telephone interviews	38	13	1	.5	7

ANNUAL BURDEN ESTIMATES—Continued

Instrument	Total number of respondents	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
HPOG 2.0 National Evaluation descriptive study second round telephone interview protocol	190	63	1	1.25	79
HPOG 2.0 National Evaluation descriptive study program operator interview guide	16	5	1	1.25	6
HPOG 2.0 National Evaluation descriptive study partner interview guide	112	37	1	1	37
HPOG 2.0 National Evaluation descriptive study participant in-depth interview guide	140	47	1	1.33	63
Intermediate follow-up survey for the HPOG 2.0 National Evaluation impact study	4,000	1,333	1	1	1,333
HPOG 2.0 National Evaluation impact study instrument for a Pilot Study of Phone-Based Skills Assessment	300	100	1	.75	75
HPOG 2.0 National Evaluation program cost survey	38	13	1	7	91

Estimated Total Annual Burden Hours: 1,691.

Authority: Section 2008 of the Social Security Act as enacted by Section 5507 of the Affordable Care Act.

Mary B. Jones,

Administration for Children and Families

Submission for OMB Review; State Access and Visitation Grant Application (OMB #0970-0482)

AGENCY: Office of Child Support Enforcement, Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: The Office of Child Support Enforcement is requesting a three-year

extension of the application form titled, *Child Access and Visitation Grant Application Form*, expiration 8/31/2019. There are no changes requested to the form.

DATES: *Comments due within 30 days of publication.* OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, Email: *OIRA.SUBMISSION@OMB.EOP.GOV*, Attn: Desk Officer for the Administration for Children and Families.

Copies of the proposed collection may be obtained by emailing *infocollection@acf.hhs.gov*. Alternatively, copies can also be obtained by writing to the

Administration for Children and Families, Office of Planning, Research, and Evaluation, 330 C Street SW, Washington, DC 20201, Attn: OPRE Reports Clearance Officer. All requests, emailed or written, should be identified by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The application compiles detailed information regarding program administration, services planned, state priorities, and program safeguards for using grant funds to increase noncustodial parent access to and visitation with their children. This information allows OCSE to review states' Access and Visitation services for the purpose of ensuring compliance with federal regulation and to provide enhanced targeted technical assistance as indicated. The application is submitted one time at the beginning of a three year grant program cycle and only updated during the three years if a grantee proposes substantive programmatic or administrative change.

Respondents: State Governments.

ANNUAL BURDEN ESTIMATES

Instrument	Total number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours	Annual burden hours
Child Access and Visitation Grant Application Form	54	1	10	540	180

Estimated Total Annual Burden Hours: 180.

Authority: Sec. 469B. [42 U.S.C.669b].
