Overview

Federal Agency: Rural Utilities Service, USDA.

Funding Opportunity Title: Rural eConnectivity Pilot Program (ReConnect Program).

Announcement Type: Announcement of Opening Date for Rural e-Connectivity Pilot Program Application Windows (FOA published in the **Federal Register** on December 14, 2018.)

Catalog of Federal Domestic Assistance (CFDA) Number: Rural eConnectivity Pilot Program (ReConnect Program)—10.752.

I. Background

On March 23, 2018, Congress passed the Consolidated Appropriations Act 2018, which established a broadband loan and grant pilot program, the ReConnect Program. One of the essential goals of the ReConnect Program is to expand broadband service to rural areas without sufficient access to broadband, defined as 10 megabits per second (Mbps) downstream and 1 Mbps upstream. For this purpose, Congress provided RUS with \$600 million and expanded its existing authority to make loans and grants.

On December 14, 2018, RUS published a Funding Opportunity Announcement (FOA) and solicitation of applications in the **Federal Register** at 83 FR 64315. The FOA provided the policy and application procedures for the ReConnect Program. On February 25, 2019, RUS published a notice announcing the application deadlines in the **Federal Register** at 84 FR 5981. The agency is publishing this notice to provide the date that the application windows will open.

Since the publication of the December 14, 2018 FOA, the 2019 Appropriations Act became law on February 15, 2019. The 2019 Appropriations Act requires that the Agency shall, in determining whether an entity may overbuild, or duplicate broadband expansion efforts made by any entity that has received a broadband loan from RUS, not consider loans that were rescinded or defaulted on, or whose loan terms and conditions were not met, if the new entity under consideration has not previously

defaulted on, or failed to meet the terms and conditions of, an RUS loan or had an RUS loan rescinded. To address these issues, the actions taken in the Notice published in the **Federal Register** (84 FR 14911) on April 12, 2019: (1) Revises the definition of Broadband loan in the FOA, as published in the **Federal Register** on December 14, 2018, as required by the 2019 Appropriations Act; (2) describes any changes to the data used in the protected broadband service areas mapping layer and, (3) announces the criteria by which applicants may challenge the determination of service area eligibility. These actions were taken by the Agency to ensure that all eligible service areas receive fair consideration for funding under the ReConnect Program.

Telecommunications companies, rural electric cooperatives and utilities, internet service providers and municipalities may apply for funding through the ReConnect Program to connect rural areas that do not have sufficient broadband service. Funds will be awarded to projects that have financially sustainable business models that will bring high-speed broadband to rural homes, businesses, farms, ranches and community facilities, such as first responders, health care sites, and schools. The ReConnect Program enables USDA to create and implement innovative solutions to rural connectivity by providing various financial options to our partners and customers.
