• Site-Specific Environment Review (Part 1 of 2), this form should be used only to initiate site-specific reviews for individual HUD-assisted properties undertaking energy and water conservation retrofits under the Multifamily Energy and Water Conservation Pay for Success Pilot. Intermediary completes the form and any relevant documents for each site identified to participate in the PFS Pilot and submits it to HUD to upload in the HUD Environmental Review Online System (HEROS).

• Office of Multifamily Housing Pay for Success Program Narrative Template is completed by the Intermediary and is submitted to HUD via grants.gov. The type of information collected includes the Intermediary’s name, EIN, organization name, etc. The narrative template is provided to Applicants under the Pay for Success Pilot program and will be evaluated by HUD.

I. Description of the need for the information and proposed use: Title LXXI of the Fixing America’s Surface Transportation Act (Pub. L. 114–94) authorizes the Department of Housing and Urban Development (HUD) to establish a demonstration program under which the Secretary may execute budget-neutral, performance-based agreements in fiscal years 2016 through 2019 that result in a reduction in energy or water costs. The legislation authorizes HUD to implement this pilot in up to 20,000 units of multifamily housing buildings participating in the project-based rental assistance (PBRA) program under section 8 of the United States Housing Act of 1937; supportive housing for the elderly program operating under section 202 of the Housing Act of 1959; and supportive housing for persons with disabilities under section 811(d)(2) of the Cranston-Gonzalez National Affordable Housing Act. The Statute authorizes HUD to execute performance-based agreements in fiscal years 2016 through 2019 covering 90 units in eligible properties. HUD is responsible for submitting annual program evaluation reports to Congress for the duration of the Pilot. HUD is authorized under this legislation to establish a competitive process for selecting one or more qualified applicants to serve as Intermediaries who will, per agreements with HUD, be responsible for initiating and managing an energy and water conservation retrofit program at eligible properties. For the purpose of this program, applicants are defined as entities applying to participate. The documents that are the subject of this notice are those used by applicants applying to participate in this program. This information will allow applicants to submit their proposal and for the government to evaluate this information.

II. Application. The applicants responding to the NOFA will need to submit before the prescribed deadline all standard forms including Previous Participation Certification (Form 2530), SF–424 family of forms, and Form HUD–2880; and the NOFA’s rating factors describing the applicant’s qualifications and proposed approach to all aspects of program implementation; and an Executive Summary of no more than four pages. [OGC–FH/Counsel: As explained more fully in our comment above, all applicable forms in the SF–424 family are required to be submitted, including appropriate assurances. We have edited this paragraph to reflect this requirement.]

III. Project Initiation. Once selected, Intermediaries will enter into a Cooperative Agreement with HUD for each property they will be retrofitting under the program which will provide for performance-based payments by HUD based on the savings realized by HUD after the retrofit has been completed. Intermediaries will also be required to submit a copy of an executed PFS Contracts with each property owner that will be attached to the Cooperative and serve to identify the specific units being affected by the retrofit. Within 30 days of entering into each Cooperative Agreement, an Intermediary will submit to HUD a Work Plan consisting of a description of all documentary deliverables and due dates related to that Agreement and a proposed approach to periodic consultation with HUD for the purposes of oversight. The Intermediary will also submit a request for approval for the Independent Evaluator that will be validating key information submitted to HUD by the Intermediary over the course of the Agreement. Each participating property owner will submit to HUD a Certification of Eligibility and a written agreement to replace equipment installed under the PFS Pilot only with equipment of like or better efficiency.

IV. Retrofit completion. When the retrofit is completed, the Intermediary will submit a Certification of Retrofit Completion with the following information: A list of installed measures with cost information; weather- and occupancy-normalized pre-retrofit consumption baselines for each affected tenant- and owner-paid utility, and all component data used to calculate those baselines, including utility consumption, rates, utility allowances, and climatic and occupancy data, and the calculation methodology used; weather- and occupancy-normalized post-retrofit consumption projections for each affected tenant- and owner-paid utility, and all component data used to calculate those baselines, including utility consumption, rates, utility allowances, and climatic and occupancy data, and the calculation methodology used; recalculated pre-retrofit baseline utility allowances and post-retrofit utility allowances for each unit size/type; recalculated pre-retrofit baseline utility allowances and post-retrofit utility allowances for each unit size/type; and post-retrofit per-unit annual savings to HUD relative to pre-retrofit baseline.

V. Performance payments. Intermediaries will submit Invoices for Performance Payments, current with each property’s annual rent adjustment cycle for the remainder of the period of
performance of the Cooperative Agreement pertaining to that property. Invoices will include thorough documentation of all calculations contributing to the calculation of the amount being invoiced (as provided in the work plan) as well as a written certification by the Independent Evaluator that the performance payment has been calculated according to the methodology contained in the Cooperative Agreement; no adverse changes to the qualifications of the Independent Evaluator have occurred since the last submission from the Independent Evaluator; and no conflict of interest or apparent conflict of interest exists with the Intermediary or with respect to any property or Owner which would preclude the Independent Evaluator from performing its obligations in a truly independent manner. In the event of a change in the physical structure of a property during the period of performance which materially impacts utility usage, the Owner and the Intermediary will mutually agree upon an equitable modification of the pre-retrofit baseline for Owner-paid utility and/or of the pre-retrofit baseline of tenant utility allowances to reflect the impact of the change on utility usage and notify HUD of the change. In the event that the Intermediary wishes to assign performance payments to a third party, the Intermediary must submit to HUD a written request for approval.

VI. Other program administration requirements. Beginning with the execution of their first cooperative agreement with HUD, Intermediaries will submit quarterly reports regarding the status of all properties for which work under the PFS Pilot is unfinished, including the work that has been completed, the work that remains the anticipated projected completion date. If at any point it becomes necessary to replace a partner entity performing one or more core functions program administration functions (project management, capital sources, oversight of SOW development and retrofit implementation, and/or invoicing HUD), the Intermediary must collect and submit evidence from the proposed replacement partner entity similar to the qualifications detailed for the original partner entity in the Intermediary’s initial application. As this is pilot program and HUD is responsible for submitting annual program evaluation reports to Congress, Intermediaries may be required to work with a program evaluation team and provide relevant information, possibly including (but not limited to) information pertaining to retrofit implementation, program administration, post-retrofit behavioral interventions, and certain fees. Intermediaries may be asked to clarify or provide additional context for previously submitted information, including additional details on their sources and uses of funds.

Respondents (i.e., affected public): Entities applying to be Intermediaries under this program, selected Intermediaries.

Estimated Number of Respondents: 15.

Estimated Number of Annual Responses: 1,000.

Frequency of Response: Varies.

Average Hours per Response: 10.8.

Total Estimated Annual Burden: 4,401.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.
