Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Generic Clearance for Citizen Science and Crowdsourcing Projects (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Generic Clearance for Citizen Science and Crowdsourcing Projects (EPA ICR Number 2521.15, OMB Control Number 2080-0083) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a request for approval of a collection scheduled to expire on April 30, 2019. Public comments were previously requested via the **Federal Register** on December 27, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before May 29, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-ORD-2015-0659 to (1) EPA online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Generic Clearance for Citizen Science and Crowdsourcing Projects (Renewal), IOAA-ORD, Mail Code 8101R, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-564-3262; fax number: 202-565-2494; email address: benforado.jay@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: EPA relies on scientific information. Citizen science and crowdsourcing techniques will allow the Agency to collect qualitative and quantitative data that might help inform scientific research, assessments, or environmental screening; validate environmental models or tools; or enhance the quantity and quality of data collected across the country's diverse communities and ecosystems to support the Agency's mission. Information gathered under this generic clearance will be used by the Agency to support the activities listed above and might provide unprecedented avenues for conducting breakthrough research. Collections under this generic ICR will be from participants who actively seek to participate on their own initiative through an open and transparent process (the Agency does not select participants or require participation); the collections will be low-burden for

participants; collections will be low-cost for both the participants and the Federal Government; and data will be available to support the scientific research (including assessments, environmental screening, tools, models, etc.) of the Agency, states, tribal or local entities where data collection occurs. EPA may, by virtue of collaborating with non-federal entities, sponsor the collection of this type of information in connection with citizen science projects. When applicable, all such collections will accord with Agency policies and regulations related to human subjects research and will follow the established approval paths through EPA's Human Subjects Research Review Official. Finally, personally identifiable information (PII) will only be collected when necessary and in accordance with applicable federal procedures and policies. If a new collection is not within the parameters of this generic ICR, the Agency will submit a separate information collection request to OMB for approval.

Form Numbers: None.

Respondents/affected entities: Participants/respondents will be individuals, not specific entities.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 17,500 (total).

Frequency of response: The frequency of responses will range from once to on occasion.

Total estimated burden: 389,083 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$13,784,949 (per year), includes \$525,000 annualized capital for operation & maintenance costs.

Changes in the Estimates: There is no change in the estimates.

public docket, visit <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Pulp and Paper Production apply to existing and new facilities that produce pulp, paper, or paperboard by employing kraft, soda, sulfite, semi-chemical, or mechanical pulping processes using wood, or any process using secondary or non-wood fiber and that emits 10 tons per year or more of any hazardous air pollutant (HAP) or 25 tons per year or more of any combination of HAPs. Affected sources are all the HAP emission points in the pulping and bleaching system for mechanical pulping processes using wood and any process using secondary or non-wood fiber. New facilities include those that commenced construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart S.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of pulp and paper mills that are major sources of HAP emissions.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart S).

Estimated number of respondents: 114 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 44,438 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$5,191,626 (per year), includes \$841,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The currently approved burden estimates contain requirements from the previous regulation as well as duplicate burden activities. In preparing this ICR renewal, EPA has removed duplicate items and updated the ICR so that it only reflects

current requirements. This results in an apparent decrease in burden.

Director, Regulatory Support Division.
